**The Antics of Mima Linda and Pipo Lindo.** Alejandro Roque Glez,2023-11-08 The Beagles Mima Linda and Pipo Lindo seem as two cute and quiet birds, but as it is said, where there is smoke you can find fire as well; so these little ones. They appear to be very tranquil, especially in a picture like the one you are watching, but their antics do not wait at all, and that's part of this refreshing story from real life. Not only about them but also their poor owner. Mima once was very sick and taken as dead, even some vets wanted to inflict euthanasia on her, and thus give her the farewell from this world of the anxious; but we opposed and in the meantime, we kept talking to her and took care till...the miracle happened! One day she decided to return back to life, and now, to the shame of those who no longer wanted her among us, she is very much alive, happy, and running around. Of course, she became spoiled during the whole process, which was not liked by her leader and teacher Pipo Lindo, who nevertheless ensures that he remains the headmaster and guide; a hunter with an innate ability to bark so much that could rupture the eardrum to the very Tecumseh. We better leave it here and then you can read this interesting story outside from any fiction, since it all happened just as it is narrated by the father of these sane little angels. P/D: This is part of the book entitled: Tour and Tales.

**Las travesuras de Mima Linda y Pipo Lindo.** Alejandro Roque Glez,2023-11-08 Los Beagles Mima Linda y Pipo lindo parecen dos mosquitas muertas, aunque son candelas vivas. Ellos aparentan ser muy tranquilos, sobre todo en una foto como la que observas, pero sus travesuras no se hacen esperar y eso es parte de esta amena historia de la vida real. No solo de ellos sino también de su pobre dueño. Mima estuvo muy enferma y la daban por muerta; queriendo incluso inyectarla y así darle la despedida de este mundo de los afanosos; sin embargo, nos opusimos y mientras cuidábamos y conversábamos con ella...iocurrió el milagro! Un día decidió volver a la vida, y hoy para vergüenza de quienes ya no la querían entre nosotros, está muy viva, alegre y corriendo; y en todo el proceso se malcrió, lo cual no fue del agrado de su líder y maestro Pipo Lindo, quien a pesar de todo le asegura que él sigue siendo el cabeza y guía, cazador innato y con una capacidad de ladear que le puede reventar los tímpanos al mismísimo Caupolicán. Mejor los dejó y leamos esta interesante historia ajena a la ficción, ya que todo ocurrió tal y como lo cuenta el padre de estos sanos angelitos. P/D: Esta historia es parte del libro titulado :Visitas y Cuentos.

Now, long years later, a second alien race has been discovered, but again the aliens' ways are strange and frightening...again, humans die. And it is only the Speaker for the Dead, who is also Ender Wiggin the Xenocide, who has the courage to confront the mystery...and the truth. [Geology and Ground-water Chemistry, Curlew Valley, Northwestern Utah and South-Central Idaho, Implications for Hydrogeology](#) Hugh A. Hurlow,Neil I. Burk,2008 This report (185 pages and 2 plates) presents new and compiled geologic, geophysical, hydrologic, and hydrochemical data to delineate the regional ground-water flow system in Curlew Valley. Decreased precipitation combined with increased agricultural pumping in the central part of Curlew Valley since the late 1960s caused a steady decline in discharge at the Locomotive Springs complex. The report includes a compiled geologic map of the Curlew Valley surface-drainage basin at 1:100,000 scale and new geologic and hydrochemical data.

**Potential Vegetation Hierarchy for the Blue Mountains Section of Northeastern Oregon, Southeastern Washington, and West-central Idaho ,2007** The work described in this report was initiated during the Interior Columbia Basin Ecosystem Management Project (ICBEMP). The ICBEMP produced a broad-scale scientific assessment of ecological, biophysical, social, and economic conditions for the interior Columbia River basin and portions of the Klamath and Great Basins. The broad-scale assessment made extensive use of potential vegetation (PV) information. This report (1) discusses certain concepts and terms as related to PV, (2) describes how a PV framework developed for the broad-scale ICBEMP assessment area was stepped down to the level of a single section in the national hierarchy of terrestrial ecological units, (3) describes how fine-scale potential vegetation types (PVTs) identified for the Blue Mountains section were aggregated into the midscale portion of the PV hierarchy, and (4) describes the PVT composition for each of the midscale hierarchical units (physiognomic class, potential vegetation group, plant association group).
