Evil Plans Hugh MacLeod,2011-02-17 The acclaimed author of Ignore Everybody is back with more irreverent wisdom, wit, and original cartoons. It has never been easier to make a great living doing what you love. But to make it happen, first you need an EVIL PLAN. Everybody needs to get away from lousy bosses, from boring, dead-end jobs that they hate, and ACTUALLY start doing something they love, something that matters. Life is short. -Hugh MacLeod Freud once said that in order to be truly happy people need two things: the capacity to work and the capacity to love. Evil Plans is about being able to do both at the same time. The sometimes unfortunate side effect is that others will hate you for it. MacLeod's insights are brash, wise, and often funny.

The DASH Diet Action Plan Marla Heller,2007 The DASH Diet Action Plan is the user-friendly teaching guide to the DASH diet. Initially, many people find it difficult to follow the DASH diet. This book makes it simple to understand and put into practice. The book makes it easy to lose weight with the DASH diet, and it has realistic ways to add exercise. Although the book was not intended to be an aggressive weight loss book, people are writing to say that they have surprised themselves by finding it easy to lose weight following the plan! Many people find the DASH diet to be hard to implement and sustain in a hectic lifestyle. The average American gets 2 - 3 servings of fruits and vegetables combined each day, so following the DASH diet may seem daunting. The DASH Diet Action Plan book is designed to help you with more than just what is involved with the DASH diet, it also shows you how. How to follow the DASH diet in restaurants, how to lose weight, how to make over your kitchen to make it easy to follow your plan, how to fit in exercise, how to reduce salt intake, how to add vegetables even if you hate vegetables. And the book helps you make your own personal plan with specific steps you will take to fit the DASH diet into your daily routine. Our readers say that this is the best DASH diet book! Your step-by-step plan will include: setting your goals for blood pressure and cholesterol, determining the calorie-level you need for maintenance or weight loss, developing meal plans, developing a realistic exercise plan, adjusting the DASH diet to accommodate other health problems, choosing the key DASH diet foods, reading food labels, and learning how to incorporate more vegetables in your diet, and setting up your kitchen to make it easy to stay on track. This book was written by a registered dietitian who is experienced in helping people make sustainable behavior changes, and make healthy eating part of their real lives. She knows that people need flexibility and options to choose different approaches, since not everyone has the time or the interest in cooking or making drastic changes in how they eat. The book incorporates tools that will help you plan the specific steps you will take to adopt the DASH diet. Research shows that people who make concrete plans are more likely to be successful with adopting new health behavior. This should improve your ability to lower your blood pressure (and cholesterol), without medication.

The Best Laid Plans Cameron Lund,2021-02-02 High school senior Keely Collins takes on firsts, lasts, and everything in between in this sweet, sex-positive rom-com for fans of Meg Cabot and Jenny Han. It seemed like a good plan at first. When the only other virgin in her group of friends loses it at Keely's own eighteenth birthday party, she's inspired to take things into her own hands. She wants to have that experience too (well, not exactly like that--but with someone she trusts and actually likes), so she's going to need to find the guy, and fast. Problem is, she's known all the boys in her small high school forever, and it's kinda hard to be into a guy when you watched him eat crayons in kindergarten. So she can't believe her luck when she meets a ridiculously hot new guy named Dean. Not only does he look like he's fallen out of a classic movie poster, but he drives a motorcycle, flirts with ease, and might actually be into her. But Dean's already in college, and Keely is convinced he'll drop her if he finds out how inexperienced she is. That's when she talks herself into a new plan: her lifelong best friend, Andrew, would never hurt or betray her, and he's clearly been with enough girls that he can show her the ropes before she goes all the way with Dean. Of course, the plan only works if Andrew and Keely stay friends--just friends--so things are about to get complicated. Cameron Lund's delightful debut is a hilarious and heartfelt story of first loves, first friends, and first times--and how making them your own is all that really matters.
