Using CBT and Mindfulness to Manage Student Anxiety Katelyn Oellerich, 2023-04-17 Using CBT and Mindfulness to Manage Student Anxiety provides a weekly framework utilizing cognitive behavioral therapy and mindfulness to support children who are struggling with anxiety. This book begins with an overview of cognitive-behavioral therapy (CBT) and mindfulness practices and their use in supporting worry. The 9 weekly sessions are broken down into a ready-to-use lesson complete with an assessment tool, clinician notes for added depth, and a template to support generalization of learning with teachers and guardians. Lessons are focused on connection, building an awareness of emotions, and increasing the student's capacity to regulate their emotions in a variety of ways. The last portion of this book offers opportunities to continue generalization of emotion regulation skills in the classroom and at home. Providing practitioners with a ready-to-go structured lesson plan that builds with each session, and tools to assess progress and growth, this book will be a welcome addition to any school-based mental health professional's library.

Desert Storm Diaries Carlin Comm, 2009-04-10 From mind numbing boredom one moment to being absolutely scared to death the next Life at sea is always interesting! The men and women of the Navy's HC-5 Providers, Detachment 4, while deployed on the T-AE-26 Kilauea, set records, got awards, and had some fun too! Start with helicopters hovering with explosive cargo, mix in some truly lunatic fork lift drivers, maybe grab a couple hours of sleep, if you're lucky, have some great food and terrible coffee, grab your Walkman and your gas mask, we'll enjoy surreal sunsets, and oh yeah, don't forget we're in a War Zone! Its an Adventure, just like the Navy promised! Told from the perspective of an aircraft mechanic who was just doing his best to hold things together, you'll feel the salt spray on your face as the rotor wash threatens to blow you over the edge. This book is dedicated to all the people back home, who wrote the letters and let us know they hadn't forgotten us. Thanks for the mail!

The Routledge Handbook of Digital Literacies in Early Childhood Ola Erstad, Rosie Flewitt, Bettina Kümmerring-Meibauer, Íris Susana Pires Pereira, 2019-07-05 As fast-evolving technologies transform everyday communication and literacy practices, many young children find themselves immersed in multiple digital media from birth. Such rapid technological change has consequences for the development of early literacy, and the ways in which parents and educators are able to equip today's young citizens for a digital future. This seminal Handbook fulfils an urgent need to consider how digital technologies are impacting the lives and learning of young children; and how childhood experiences of using digital resources can serve as the foundation for present and future development. Considering children aged 0-8 years, chapters explore the diversity of young children's literacy skills, practices and expertise across digital tools, technologies and media, in varied contexts, settings and countries. The Handbook explores six significant areas: Part I presents an overview of research into young children's digital literacy practices, touching on a range of theoretical, methodological and ethical approaches. Part II considers young children's reading, writing and meaning-making when using digital media at home and in the wider community. Part III offers an overview of key challenges for early childhood education presented by digital literacy, and discusses political positioning and curricula. Part IV focuses on the multimodal and multi-sensory textual landscape of contemporary literary practices, and how children learn to read and write with and across media. Part V considers how digital technologies both influence and are influenced by children's online and offline social relationships. Part VI draws together themes from across the Handbook, to propose an agenda for future research into digital literacies in early childhood. A timely resource identifying and exploring pedagogies designed to bolster young children's digital and multimodal literacy practices, this key text will be of interest to early childhood educators, researchers and policy-makers.

Freefall (Camp Rolling Hills #4) Stacy Davidowitz, 2018-04-24 The gang's back for a very special summer at the Hills—the camp's 50th anniversary! Wiener is especially excited to be back, because his little brother Max is finally coming to camp. Wiener can't wait to show Max the ropes (and show Max what a cool big brother he is), but there's a snag: as the smallest and youngest in his cabin, Wiener gets teased a lot, and it doesn't take Max long to realize Wiener might not be the Camp Legend he made himself out to be. Meanwhile, inspired by a big change at home, Missi is determined this summer to be 100 percent true to herself—no more pretending to like celebrity teens just to fit in! But when she catches the eye of a suave exchange student, she starts to wonder whether she was better off playing it cool.

Proclaim the Wonder Scott Hoezee, 2019-07-11 Does the rise of science imply the decline of faith? Should preachers protect their flocks from the inroads of scientific naturalism? Or is an informed scientific view of the universe compatible with Christian belief—even a strong source of support for it? This world belongs to God, and the pulpit is a crucial vehicle for celebrating science's contribution to the understanding of creation. Beginning with a defense of the authority of Scripture, Scott Hoezee distinguishes between science as a physical field of inquiry and scientific naturalism, which often turns science into an atheistic, religious, or philosophical point of view. After establishing the fact that there is no necessary clash between theology and science, Hoezee summarizes some of the more recent discoveries in the fields of physics and cosmology, as well as current ideas about the biological and mental nature of human beings. He highlights intriguing scientific facts and points to the theological interpretations that can be drawn from them. Proclaim the Wonder offers specific suggestions and strategies for integrating science into preaching and provides sample sermons based on key biblical texts.

Children of Katrina Alice Fothergill, Lori Peek, 2015-09-01 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily “bounce back.” But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? Children of Katrina offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children's moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support.

Displaced Lynn Weber, Lori A. Peek, 2012-06-01 Hurricane Katrina forced the largest and most abrupt displacement in U.S. history. About 1.5 million people evacuated from the Gulf Coast preceding Katrina's landfall. New Orleans, a city of 500,000, was nearly emptied of life after the hurricane and flooding. Katrina survivors eventually scattered across all fifty states, and tens of thousands still remain displaced. Some are desperate to return to the Gulf Coast but cannot find the means. Others have chosen to make their homes elsewhere. Still others found a way to return home but were unable to stay due to the limited availability of social services, educational opportunities, health care options, and affordable housing. The contributors to Displaced have been following the lives of Katrina evacuees since 2005. In this illuminating book, they offer the first comprehensive analysis of the experiences of the displaced. Drawing on research in thirteen communities in seven states across the country, the contributors describe the struggles that evacuees have faced in securing life-sustaining resources and rebuilding their lives. They also recount the impact that the displaced have had on communities that initially welcomed them and then later experienced “Katrina fatigue” as the ongoing needs of evacuees strained local resources. Displaced reveals that Katrina took a particularly heavy toll on households headed by low-income African American women who lost the support provided by local networks of family and friends. It also shows the resilience and resourcefulness of Katrina evacuees who have built new networks and partnered with community organizations and religious institutions to create new

lives in the diaspora.

Summer Storm and Other Stories Glenda Baker,2009-04-13 During the fifteen years Glenda Baker was the publisher and editor-in-chief of NEWN, she read and critiqued hundreds of short stories. She also wrote many of her own. This volume contains twenty-two of Glendas storiesfrom short (21,000 words) to short-short (about 1,000 words) to flash fiction (52 words total) in which Glenda addresses subjects such as: After doing a favor for his boss, how does a man end up in an maze he cant find his way out of? What would happen if a contemporary kid created a golem? What secrets do three generations of women learn about each other while on a weekend trip to Cape Cod? How far will a passive-aggressive woman go if pushed to the limit?

Messy Play in the Early Years Sue Gascoyne,2018-12-12 Combining a rich theoretical foundation with practical tips, advice and case studies, Messy Play in the Early Years provides an informative and practical exploration of the unique qualities, characteristics and learning possibilities of messy play. Packed with valuable insights from research and theory, along with practitioner’s experiences, this accessible book will bolster readers’ understanding and appreciation of messy play and demonstrate how a range of material engagements can enhance young children’s development and learning. Exploring an array of resources and a broad spectrum of approaches, including adult-and child-led inquiry, chapters consider how the specific sensory qualities of materials encourage problem-solving, scientific thinking, creativity, self-regulation and self-expression as children discover and make sense of new phenomena. With examples of international practice and reflective questions throughout, the book highlights a variety of approaches to meeting differing time, space and budgetary needs, simplifies preparation and planning, and empowers practitioners and children to understand and use messy play effectively. An essential guidebook to supporting an engaging and rewarding journey into messy play, Messy Play in the Early Years will be an invaluable resource for early years students, practitioners and parents looking to understand and enhance children’s learning possibilities.
