Computer Networks Andrew S. Tanenbaum, David J. Wetherall, 2013-07-23

Appropriate for Computer Networking or Introduction to Networking courses at both the undergraduate and graduate level in Computer Science, Electrical Engineering, CIS, MIS, and Business Departments. Tanenbaum takes a structured approach to explaining how networks work from the inside out. He starts with an explanation of the physical layer of networking, computer hardware and transmission systems; then works his way up to network applications. Tanenbaum's in-depth application coverage includes email; the domain name system; the World Wide Web (both client- and server-side); and multimedia (including voice over IP, Internet radio video on demand, video conferencing, and streaming media).

Computer Networks Andrew S. Tanenbaum, 2003 Details descriptions of the principles associated with each layer and presents many examples drawn from the Internet and wireless networks.

Safe Within These Walls Andra Medea, 2013-11-27 In the wake of school tragedies and the growing concern about creating safe environments for children, teachers, parents, and school personnel, this resource provides practical techniques and guidelines for de-escalating aggression with insight and finesse rather than with force. Andra Medea, an instructor in conflict

management and nationally recognized expert, developed the Virtual Tranquilizer, a set of non-contact de-escalation techniques used by psychiatric staff, school administrators, and even court personnel. In this readily accessible book, she explains how to manage aggression from tantrums to mental health issues and school shootings, using anecdotes, research-informed techniques, and, at times, humor. Readers will find the concrete tools they need to create a positive climate in which they recognize signs of building aggression and use practical techniques to head it off: demonstrating that the best way to handle violence is to keep it from happening in the first place.

The Dare Harley Laroux, 2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? *The Dare* is an 18+ erotic romance novella and

a prequel to the Losers Duet. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong language. A full content note can be found in the front matter of the book.

A Brief Introduction to Probability and Statistics William Mendenhall, Robert J. Beaver, Barbara M. Beaver, 2002 This brief version of the authors' classic text retains the traditional outline for the coverage of descriptive and inferential statistics. The user-friendly presentation includes features such as Key Concepts and Formulas, and helps students grasp the material while not sacrificing the statistical integrity of the subject. MINITABO (Versions 12 and 13) is used exclusively as the computer package for statistical analysis in this text.

Fundamentals of Marketing Miguel Santesmases Mestre, María Jesús Merino Sanz, 2011 This is the English edition of the first marketing book in Spanish to be adapted to the European Space for Higher Education, which has been written with the new requirements of the recent official degrees in mind. In addition to its theoretical presentation illustrated with many examples, each chapter starts with a business situation, and closes with a case study with practice topics, key terms and review questions, along with related Internet links and specific bibliography. In addition, teachers and students are provided with complementary on-line material on the book's website: www.miguelsantesmases.com/fm.htm This textbook presents the fundamentals of marketing, the market, the consumer's environment and behaviour, the

marketing research, and the information systems. It later goes deeper into the marketing tools (product and services management, pricing, communication, sales, distribution and, lastly, the marketing plan), all supported by examples and case studies. Chapters dealing with relationship marketing, customer relations management, new communication technologies and emerging marketing techniques have also been included. Fundamentals of Marketing offers a modern approach, adapted to the new teaching methodologies which will make both the teaching and learning of the principles of marketing much easier.

The Making of Modern Colombia David Bushnell, 1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive

body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

90 Two (HB) Dastan Khalili, 2022-02-23 90 Two (HB) By: Dastan Khalili
DiaVerse, dia meaning “two” and verse for the poetic rhyme, is a brand-new style of poetry where the only rule is all stanzas must have a maximum of two words. Created by poet Dastan Khalili, the style of DiaVerse breathes new life into poetry. The restraint of DiaVerse forces poets to use the purest forms of expression. 90 Two is ninety of Khalili’s DiaVerse poems, written over the last five years. He combines his poetic verses with digital artwork and imagery, each conveying a sensation of inspiration that came to life with each poem.

Learning with Information Systems Simon Bell, 2013-02-01 In *Learning with Information Systems* the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability of information systems, participation in systems design and user ownership of systems are all examined. This book does not attempt to be prescriptive for all contexts nor

does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will help in the avoidance of the worst forms of disaster associated with the planning of information systems for developing countries.
