The Routledge Handbook of Digital Literacies in Early Childhood Ola Erstad,Rosie Flewitt,Bettina Kümmerling-Meibauer,Íris Susana Pires Pereira,2019-07-05 As fast-evolving technologies transform everyday communication and literacy practices, many young children find themselves immersed in multiple digital media from birth. Such rapid technological change has consequences for the development of early literacy, and the ways in which parents and educators are able to equip today's young citizens for a digital future. This seminal Handbook fulfils an urgent need to consider how digital technologies are impacting the lives and learning of young children; and how childhood experiences of using digital resources can serve as the foundation for present and future development. Considering children aged 0–8 years, chapters explore the diversity of young children's literacy skills, practices and expertise across digital tools, technologies and media, in varied contexts, settings and countries. The Handbook explores six significant areas: Part I presents an overview of research into young children's digital literacy practices, touching on a range of theoretical, methodological and ethical approaches. Part II considers young children's reading, writing and meaning-making when using digital media at home and in the wider community. Part III offers an overview of key challenges for early childhood education presented by digital literacy, and discusses political positioning and curricula. Part IV focuses on the multimodal and multi-sensory textual landscape of contemporary literary practices, and how children learn to read and write with and across media. Part V considers how digital technologies both influence and are influenced by children's online and offline social relationships. Part VI draws together themes from across the Handbook, to propose an agenda for future research into digital literacies in early childhood. A timely resource identifying and exploring pedagogies designed to bolster young children's digital and multimodal literacy practices, this key text will be of interest to early childhood educators, researchers and policy-makers.

Messy Play in the Early Years Sue Gascoyne,2018-12-12 Combining a rich theoretical foundation with practical tips, advice and case studies, Messy Play in the Early Years provides an informative and practical exploration of the unique qualities, characteristics and learning possibilities of messy play. Packed with valuable insights from research and theory, along with practitioner's experiences, this accessible book will bolster readers' understanding and appreciation of messy play and demonstrate how a range of material engagements can enhance young children's development and learning. Exploring an array of resources and a broad spectrum of approaches, including adult-and child-led inquiry, chapters consider how the specific sensory qualities of materials encourage problem-solving, scientific thinking, creativity, self-regulation and self-expression as children discover and make sense of new phenomena. With examples of international practice and reflective questions throughout, the book highlights a variety of approaches to meeting differing time, space and budgetary needs, simplifies preparation and planning, and empowers practitioners and children to understand and use messy play effectively. An essential guidebook to supporting an engaging and rewarding journey into messy play, Messy Play in the Early Years will be an invaluable resource for early years students, practitioners and parents looking to understand and enhance children's learning possibilities.

Imperfect Parenting Dona Matthews,2022-03-15 This book presents a model of authoritative parenting that makes room for imperfection, focusing on the skills needed to build a strong parent-child relationship. As parents, we often worry we're making the wrong decisions. The good news is, having a strong relationship with your child means you can make a parenting blunder from time to time, and exercise grace and patience to try again. Written for parents of children from birth to young adulthood (ages 0-24), this book helps you examine your role as a guide, cheerleader, advocate, and most importantly, as a human being who doesn't always have the right answers. While your child's brain, body, emotions, and social abilities develop over time, author Dona Matthews shows how your skills as a parent can be developed too, by practicing relationship fundamentals such as acceptance, positivity, social support, boundaries, respect, self-care, and gratitude. Rooted in the latest findings from neuroscience and psychology, this book presents a model of authoritative parenting that embraces imperfection. Each chapter focuses on a key relationship skill for parenting, with tips on how to practice it during different stages of your child's growth and in common stressful situations such as social, school, health, and family scenarios.

The Storm Ivor van Heerden,Mike Bryan,2006-05-18 The ultimate inside story of the Katrina tragedy—from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans, Ivor van Heerden was one of the highest-profile media experts during the Katrina disaster. Over the following eighteen months, he was even more prominent as he challenged the official version of those events and campaigned for an engineering plan that would protect all of southeastern Louisiana, once and for all. In *The Storm*, van Heerden lays out in full detail the stunning incompetence among the bureaucrats, the politicians, and the Army Corps of Engineers that culminated in the catastrophe that crippled, perhaps forever, a great American city.

The Storm Alexander Ostrovsky,2016-07-30 In *The Storm* there is an atmosphere of the little Russian town, with its primitive inhabitants, merchants, and workpeople, an atmosphere untouched, unadulterated by the ideas of any outside European influence. But the special triumph of *The Storm* is that although it is a realistic picture of old-fashioned Russian patriarchal life, it is one of the deepest and simplest psychological analyses of the Russian soul ever made. Alexander Nikolayevich Ostrovsky (1823 - 1886) was a Russian playwright, generally considered the greatest representative of the Russian realistic period. Ostrovsky's dramas in general are marked by intense somberness, biting humor and merciless realism. *The Storm* is the most poetical of his works, but all his leading plays still hold the stage.

Desert Storm Diaries Carlin Comm,2009-04-10 From mind numbing boredom one moment to being absolutely scared to death the next Life at sea is always interesting! The men and women of the Navy's HC-5 Providers, Detachment 4, while deployed on the T-AE-26 Kilauea, set records, got awards, and had some fun too! Start with helicopters hovering with explosive cargo, mix in some truly lunatic fork lift drivers, maybe grab a couple hours of sleep, if you're lucky, have some great food and terrible coffee, grab your Walkman and your gas mask, we'll enjoy surreal sunsets, and oh yeah, don't forget we're in a War Zone! Its an Adventure, just like the Navy promised! Told from the perspective of an aircraft mechanic who was just doing his best to hold things together, you'll feel the salt spray on your face as the rotor wash threatens to blow you over the edge. This book is dedicated to all the people back home, who wrote the letters and let us know they hadn't forgotten us. Thanks for the mail!

Children of Katrina Alice Fothergill,Lori Peek,2015-09-01 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily “bounce back.” But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? Children of Katrina offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children's moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify

what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support.

Wiener is especially excited to be back, because his little brother Max is finally coming to camp. Wiener can’t wait to show Max the ropes (and show Max what a cool big brother he is), but there’s a snag: as the smallest and youngest in his cabin, Wiener gets teased a lot, and it doesn’t take Max long to realize Wiener might not be the Camp Legend he made himself out to be. Meanwhile, inspired by a big change at home, Missi is determined this summer to be 100 percent true to herself—no more pretending to like celebrity teens just to fit in! But when she catches the eye of a suave exchange student, she starts to wonder whether she was better off playing it cool.
