Zero for Parents and Teachers, or (Almost) All You Need to Know about Mathematics for Young Children Anne D. Cockburn, Anna Papadopoulou, Ioannis Papadopoulos, 2020-07-20 Zero for Parents and Teachers, or (Almost) All You Need to Know about Mathematics for Young Children is a book for people who feel nervous or uncertain about teaching maths to young children. If you are anxious and confused about the subject this might just be the book you are looking for! It covers all the basic topics young children need to know about maths. It starts at the beginning and, in an open and friendly way, opens new horizons exploring fundamental ideas you may never have known you never knew. Had you realised that, for example, zero (0) means much more than simply nothing, you might have found yourself enjoying maths at school. The book begins by introducing six young friends who follow us through each chapter, providing a range of fun activities for you and your children to further your mathematical confidence. Written by early years educators, this book will offer safe and sympathetic guidance for any reader.

Unplugged Play: Toddler Bobbi Conner, 2020-08-18 Unplug your toddlers! Here is screen-free play for ages 1-2 that's creative, fun, and makes the most of everyday household objects. Here are games to play alone and games to play with siblings and friends and parents. Games to play indoors and games for outside. There are toddler-friendly hand-clapping games, games to play with stuffed animals, and games to let off a little steam, plus lots of ideas for keeping toddlers busy (perfect for when you're making dinner). These are the kinds of truly fun games and activities deliberately designed to stretch the imagination, spark creativity, build strong bodies, forge friendships, and explore the real world—the opposite of hunkering down in front of an addictive screen. Originally published as a single, parent-friendly encyclopedia of more than 700 screen-free, no-batteries-needed games and activities, Unplugged Play is acclaimed as “A terrific prescription for much of what ails children and parents today” (Richard Louv, author of Last Child in the Woods) and “Just plain fun! . . . Will help parents give their children the kind of childhood that more and more children are missing” (Mary Pipher, PhD, author of Reviving Ophelia). These new editions are brightly designed books targeted to a specific age group. And the need, of course, is even greater than when the book was originally published—screens are far more ubiquitous, causing parents even greater concern about their overuse—and these timeless, imaginative, easy-to-implement games are here to the rescue.
