🔍 **LONGCHAMP, LE PLIAGE** LAURE VERCHERE,2014-10-13 What secret magic can make a fashion accessory timeless? Longchamp’s Le Pliage bags are the perfect embodiment of this mystery, with their connection to the Zeitgeist, pure style, accomplished craftsmanship, and ground-breaking shape. Designed twenty years ago by Philippe Cassegrain (the son of the founder of the French leather goods company Longchamp), the foldable bag has become a huge success. At present, over thirty million Le Pliage bags have been sold globally and offer luxury on an everyday basis. AUTHOR: LAURE VERCHERE holds a degree in art history. A former journalist for Elle Decoration, she is currently a luxury lifestyle brand artistic consultant. Verchere previously wrote ‘Renzo Mongiardino: Renaissance Master of Style’ (2013), ‘La Mamounia’ (2011), and ‘Antiquaires: Paris Flea Markets’ (2010) for Assouline. 50 images

🔍 **MANAGING FASHION** Kaled K. Hameide,2020-11-19 The fashion industry is a multibillion-dollar global industry with a variety of organizational structures and a multitude of challenges. Such scope triggered the recent rise in management programs in the U.S. and Europe aiming to produce and train young managers to meet such global and diverse challenges. Managing Fashion covers the fashion business with a twist – a management twist. Its goal is to tackle the topics from a fashion manager perspective referencing relevant management concepts and theories, thus offering a deeper and more practical dimension to the issues addressed. It offers a balanced mix of fashion and management, theory and application, as well as creating an opportunity for analysis and critical thinking. Discussions throughout the book are supported by specially developed case studies and relevant examples taken from the fashion industry. It is an opportunity to expose the fashion student or reader, as well as aspiring fashion managers, to a more practical approach to fashion theories and issues. Managing Fashion will serve as a core text for fashion studies, fashion entrepreneurship, and fashion merchandising majors as well as for special business degrees and management certificates targeting the fashion industry.

🔍 **SIMON HANTA**🔍 *AND THE RESERVES OF PAINTING* Molly Warnock,2020-04-21 The Hungarian-born French painter Simon Hanta🔍 (1922–2008) is best known for abstract, large-format works produced using pliage: the painting of a crumpled, gathered, or systematically pleated canvas that the artist then unfolds and stretches for exhibition. In her study of this profoundly influential artist, Molly Warnock presents a persuasive historical account of his work, his impact on a younger generation of French artists, and the genesis and development of the practice of pliage over time. Simon Hanta🔍 *AND THE RESERVES OF PAINTING* covers the entirety of Hanta🔍’s expansive oeuvre, from his first aborted experiments with folding around 1950 to his post-pliage experiments with digital scanning and printing. Throughout, Warnock analyzes the artist’s relentlessly searching studio practice in light of his no less profound engagement with developments in philosophy, psychoanalysis, and critical theory. Engaging both Hanta🔍’s art and writing to support her argument and paying particular attention to his sustained interrogation of religious painting in the West, Warnock shows how Hanta🔍’s work evinces a complicated mixture of intentionality and contingency. Appendixes provide English translations of two major texts by the artist, “A Plantaneous Demolition” and “Notes, Deliberately Confounding, Accelerating, and the Like for a ‘Reactionary,’ Nonreducible Avant-Garde.” Original and insightful, this important new book is a central reference for the life, art, and theories of one of the most significant and exciting artists of the twentieth century. It will appeal to art historians and students of modernism, especially those interested in the history of abstraction, materiality and surrealism, theories of community, and automatism and making.

🔍 **THE LADDER OF HIGH DESIGNS** Doranne Fenoaltea,David Lee Rubin,1991 This collection of essays on the structure and interpretation of the French lyric sequence marks a number of tentative signposts for future travelers along this relatively unmarked path. It explores the means of seeing how harmony and greater meaning, concordia discors, arises from the organization of a collection of poems into a poetic work.

🔍 **RETROSPECTION AND REVISION IN MODERN AND CONTEMPORARY ART, LITERATURE AND MUSIC** Mette Gieskes,Mathilde Roza,2024-01-03 This interdisciplinary book investigates the various ways in which North American and European modern and contemporary artists, authors, and musicians have returned to earlier works of their own, engaging in inventive revivals and transformations of the past in the present. The book is distinctive in its focus on such revisits, as well as in the diversity of art forms under review: in addition to visual art, the book explores fiction, poetry, literary criticism, film, rock music, and philosophy. This scope, together with the time-span covered in the book, from the 1850s to the twenty-first century, allows for a broad view on retrospection and revision. The case studies presented here offer a multifaceted exploration of the widely different goals to which practitioners of the arts have made retrospection and revision functional against the background of cultural, social, political, and personal forces.

🔍 **DIDI-HUBERMAN AND THE IMAGE** Chari Larsson,2020-09-29 Philosopher and art historian Georges Didi-Huberman is one of the most innovative and influential critical thinkers writing today. This book is the first English-language study of his writing on images. An image is a form of representation, but what are the philosophical frameworks supporting it? The book considers how Didi-Huberman takes up this question repeatedly over the course of his career. Placing his project in relation to major historical and intellectual contexts, it shows not only how he modifies dominant disciplinary traditions, but also how the study of images is central to a new way of thinking about poststructuralist-inspired art history.

🔍 **MARCEL DUCHAMP AND THE ART OF LIFE** Jacquelyn Baas,2019-11-19 A groundbreaking reading of Duchamp’s work as informed by Asian “esoterism, ” energetic spiritual practices identifying creative energy with the erotic impulse. Considered by many to be the most important artist of the twentieth century, the object of intensive critical scrutiny and extensive theorizing, Marcel Duchamp remains an enigma. He may be the most intellectual artist of all time; and yet, toward the end of his life, he said, “If you wish, my art would be that of living: each second, each breath is a work which is inscribed nowhere, which is neither visual or cerebral.” In Marcel Duchamp and the Art of Life, Jacquelyn Baas offers a groundbreaking new reading of Duchamp, arguing in particular that his work may have been informed by Asian “esoterism, ” energetic spiritual practices that identify creative energy with the erotic impulse. Duchamp drew on a wide range of sources for his art, from science and mathematics to alchemy. Largely overlooked, until now, have been Asian spiritual practices, including Indo-Tibetan tantra. Baas presents evidence that Duchamp’s version of artistic realization was grounded in a western interpretation of Asian mind training and body energetics designed to transform erotic energy into mental and spiritual liberation. She offers close readings of many Duchamp works, beginning and ending with his final work, the mysterious, shockingly explicit 🔍 *Tant donn*🔍 s: 1° la chute d’eau 2° le gaz d’🔍 *clairage*, (Given: 1. The Waterfall, 2. The Illuminating Gas). Generously illustrated, with many images in color, Marcel Duchamp and the Art of Life speculates that Duchamp viewed art making as part of an esoteric continuum grounded in Eros. It asks us to unlearn what we think we know, about both art and life, in order to be open to experience.

🔍 **DICTIONARY OF THE PRINTING AND ALLIED INDUSTRIES** F.J.M. Wijnekus,E.F.P.H. Wijnekus,2013-10-22 The first edition of this dictionary, compiled by F.J.M. Wijnekus and published in 1967, was the result of years of systematic collection and preparation of thousands of terms and expressions which were until then not to be found in any other dictionary. The material was correlated for use in his daily work and, as the reputation of his private collection spread, there was an increasing demand for access to these findings. Until 1967 there was no comprehensive multilingual dictionary on the subject; former publications were incomplete and out of date and lacked clear definition – often leading to disastrous misunderstandings. Furthermore, the subject of printing, paper and ink technology had never been dealt with, in dictionary form, in relation to other aspects of the graphic industry. This new work, prepared by F.J.M. Wijnekus and his son, has been considerably up-dated. Much time has been devoted to checking the material against the most reliable and authoritative sources. The usefulness of the work has been further enhanced by the addition of Spanish and Italian to the original languages of English, French and German. The first edition was received with much enthusiastic praise and this new dictionary will undoubtedly continue to be an invaluable tool for all those working with the printed word in the widest sense. It is a reference work which should be in the hands of all those in any way connected with the printing industry, paper manufacturers, ink manufacturers, printers, bookbinders, publishers, lithographers, lay-out men and graphical research institutes.
