Epitomic Writing in Late Antiquity and Beyond Paolo Felice Sacchi, Marco Formisano, 2022-09-22 This volume makes a powerful argument for epitome (combining textual dismemberment and re-composition) as a broad hermeneutic field encompassing multifarious historical, conceptual and aesthetical concerns. The contributors gather from across the globe to present case studies of the 'summing up' of cultural artefacts, literary and artistic, in epitomic writing, and as a collective they demonstrate the importance of this genre that has been largely overlooked by scholars. The volume is divided into five sections: the first showcases the broad range of fields from which epitomic analysis can be made, from classics to postmodernism to cultural memory studies; the second focuses in on epitome as dismemberment in writing from late antiquity to the modern day; the third considers a 'productive negativity' of epitomic writings and how they are useful tools for investigating the very borders and paradoxes of language; the fourth brings this to bear on materiality; the fifth considers re-composition as a counterpart to dismemberment and problematises it. Across the volume, examples are taken from important late antique writers such as Ausonius, Clement of Alexandria, Macrobius, Nepos, Nonius Marcellus and Symphosius, and from modern authors such as Antonin Artaud, Barthes, Nabokov and Pascal Quignard. Epitomic writings about art from decorated tabulae to sarcophagi are also included, as are epitomic images themselves in the form of manuscript illustrations that sum up their text.

Intertextuality in Flavian Epic Poetry Neil Coffee, Chris Forstall, Lavinia Galli Milic, Damien Nelis, 2019-12-16 This collection of essays reaffirms the central importance of adopting an intertextual approach to the study of Flavian epic poetry and shows, despite all that has been achieved, just how much still remains to be done on the topic. Most of the contributions are written by scholars who have already made major contributions to the field, and taken together they offer a set of state of the art contributions on individual topics, a general survey of trends in recent scholarship, and a vision of at least some of the paths work is likely to follow in the years ahead. In addition, there is a particular focus on recent developments in digital search techniques and the influence they are likely to have on all future work in the study of the fundamentally intertextual nature of Latin poetry and on the writing of literary history more generally.

Silius Italicus and the Tradition of the Roman Historical Epos, 2022-07-04 The aim of this volume is to study Silius' poem as an important step in the development of the Roman historical epic tradition. The Punica is analyzed as transitional segment between the beginnings of Roman literature in the Republican age (Naevius and Ennius) and Claudian's panegyric epic in late antiquity, shedding light on its 'inclusiveness' and its peculiar, internal dialectic between antiquarian taste and problematic actualization. This is an innovative attempt to connect epic poems and authors belonging to different ages, to frame the development of the literary genre, according to its specific aims and interests throughout the centuries.

Being There Together Michael C. J. Putnam, 2003

The Classical Journal Abraham John Valpy, Edmund Henry Barker, 2013-02-28 This forty-volume collection comprises all the issues of an early and influential classical periodical, first published between 1810 and 1829.

The Classical Journal, 1819

From Republic to Empire Raymond Marks, 2005 From Republic to Empire challenges the long-held view that Silius Italicus' Punica is a nostalgic epic and argues that it is, instead, centrally concerned with and fundamentally shaped by the contemporary Flavian world in which it was composed. The epic documents how Rome's Republic took its first steps toward becoming an Empire during the Second Punic War and identifies the leader Scipio Africanus as the critical impetus behind this development: his rise to prominence in the war's later stages brings about a change in Rome's power-structure, a shift toward one-man rule, Scipio's - rule, that prefigures and paves the way for the political arrangement under which the poet himself lived, the Principate. In portraying Scipio as a good king and a virtuous princeps, Silius, furthermore, offers the emperor of his own day, Domitian, a leadership-ideal to aspire to and emulate.

Storm Totem Derek Alan Siddoway, 2023 Kellen and his Mana Beast, Vex, have taken their first steps to greater power. Unfortunately, in Oras, there's no rest for the weak. Across the land, the power of the great totems is failing. Fanatical cultists are on the warpath for the first time in a thousand years, spreading chaos on a crusade of vengeance. Seeking answers and a place to hone their mastery of mana, Kellen and Vex face their greatest trial yet: the Storm Totem.

Fides in Flavian Literature Antony Augoustakis, Emma Buckley, Claire Stocks, 2019 This book investigates the presence of Fides (good faith) in Flavian literature, exploring its ideological significance in the aftermath of Rome's civil wars (68-69 CE) in a variety of works by prose and verse authors.

Dynamics Of Marginality Konstantinos Arampaslis, Antony Augoustakis, Stephen Froedge, Clayton Schroer, 2023-04-26 This volume explores the theme of marginality in the literature and history of the Neronian and Flavian periods. As a concept of modern criticism, the term marginality has been applied to the connection between the uprooted experience of immigrant communities and the subsequent diasporas these groups formed in their new homes. The concept also covers individuals or groups who were barred from access to resources and equal opportunities based on their deviation from a normal or dominant culture or ideology. From a literary vantage point, we are interested in the voices of marginal, or underappreciated authors and critical voices. The distinction between marginalia and the text is often nebulous, with marginal comments making their way into the paradosis and being regarded, in modern criticism, as important sources of information in their own right. The analysis of relevant passages from various authors including Lucan, Petronius, Persius, Philo of Alexandria, Pliny the Elder, Silius Italicus, and Statius, as well as the Moretum of the Appendix Vergiliana is vital for our understanding of the treatment of marginalized people in various literary genres in relation to each one's different purposes.

Changer's Moon Jo Clayton, 2016-08-09 Warrior woman Sorrei hires mercenaries from another world to halt the destruction of her own in the riveting conclusion to the Duel of Sorcery Trilogy. A superior fantasist on par with Jane Yolen, Marion Zimmer Bradley, Andre Norton, and other acknowledged masters of speculative fiction, the accomplished world-builder Jo Clayton concludes her magnificent Duel of Sorcery fantasy trilogy by turning expectations around and taking her classic sword and sorcery tale into breathtaking new territory. As a magical contest between a sorcerer and a goddess races toward its terrible conclusion, a world is left hanging in the balance. But suddenly the rules change. Once, the meie warrior Sorrei was a helpless pawn of Ser Noris, doing the dark wizard's bidding as he delved into unnatural worlds and demonic arts. No one feared the great sorcerer more than she, which is why Sorrei risked her life to bring Coyote, the Changer, into the game. However, now that the Nor mage has drawn the magical cards that give him the upper hand against the Indweller goddess, the world they have been playing for appears irrevocably his. But hope lives on in another place and time. A world far removed from Sorrei's own—in an alternate realm shackled by the yoke of cruel political repression, yet where the ignited fires of rebellion burn hot and bright—is where the meie must now turn for help. Sorrei cannot falter, for the warrior has become a priestess in the service of the Changer and in her hands she holds the last hope for the continuation of all things. In the astonishing finale to her monumental trilogy, the great Clayton ingeniously reinvents sword and sorcery high fantasy. Concluding a magnificent epic tale of courage, magic, doom, and destiny with a grand flourish, she takes enormous risks and succeeds magnificently, making the remarkable final chapter of the Duel of Sorcery something truly magical indeed.

Exemplary Traits J. Mira Seo,2013-05-01 How did Roman poets create character? The mythological figures that dot the landscape of Roman poetry entail their own predetermined plotlines and received characteristics: the idea of a gentle, maternal Medea is as absurd as a spineless and weak Achilles. For Roman poets, the problem is even more acute since they follow on late in a highly developed literary tradition. The fictional characters that populate Roman literature, such as Aeneas and Oedipus, link text and reader in a form of communication that is strikingly different from a first person narrator to an addressee. With Exemplary Traits, Mira Seo addresses this often overlooked question. Her study offers an examination of how Roman poets used models dynamically to create character, and how their referential approach to character reveals them mobilizing the literary tradition. Close readings of Virgil, Lucan, Seneca, and Statius offer a more nuanced discussion of the expectations of both authors and audiences in the Roman world than those currently available in scholarly debate. By tracing the philosophical and rhetorical concepts that underlie the function of characterization, Exemplary Traits allows for a timely reconsideration of it as a fruitful literary technique.
