**Category 7** Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7—the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson—and the rest of the world—just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Black Cloud Eliot Kleinberg,2003 A Florida native delves into the state's history to reconstruct a 1928 hurricane that devastated the region right before the Great Depression, finding evidence of communities hard hit by the killer storm.

**The Height of the Storm** Florian Zeller,2018-09-27 André and Madeleine have been in love for over fifty years. This weekend, as their daughters visit, something feels unusual. A bunch of flowers arrive, but who sent them? A woman from the past turns up, but who is she? And why does André feel like he isn't there at all?Christopher Hampton's translation of Florian Zeller's The Height of the Storm was first performed at Richmond Theatre, London, and opened in the West End at Wyndham's Theatre in October 2018.

**The Perfect Storm** Sebastian Junger,1998 The perfect storm was a once-in-a-hundred-years combination: a high-pressure system from the Great Lakes running into storm winds over an Atlantic island - Sable Island - and colliding with a weather system from the Caribbean - Hurricane Grace. This is the story of that storm, told through the accounts of fishermen at sea caught up in the maelstrom, of their families waiting anxiously for news, and of the

rescue services.

**Eye of the Storm** Thomme Webb, 2015-01-09 Rafael Devereaux is a successful proposal developer in corporate America. In his early thirties, Rafael is a fiercely handsome black Creole man with smooth, light caramel skin with jet-black curly locks who turns heads of both sexes and is secretly envied by many. He followed the plan set forth by his pious Southern parents: great career, nice home, cars, and marriage. He has it all! So why does he feel so empty? Haunted by his unresolved sexual identities of the past, Rafael begins an introspective quest for truth and self-acceptance. Cherie is an attractive, pretentious, and calculating woman, who is self-absorbed and married to two things--Rafael and her career. She followed the plan too and married the most eligible suitor she met while an undergraduate in Cal. Everything goes according to the plan until she is confronted with her ex-boyfriend, Kelvin, a retired athlete who holds a shattering secret that will eventually shake up the perfect world that Cherie has erected. Michael is a deep-brown and physically solid man who grew up in the parishes surrounding New Orleans. As a search and rescue specialist, he witnesses firsthand the devastation wrought by Hurricane Katrina and suffers the loss of his friend and endearing grandmother. He is deeply affected, impacted by the storm that displaces his parents and other family members as he sets out to locate them. In the process of his journey, he is also discovering things about himself, questioning the traditional values he was raised on. His character provides us with a deeply spiritual and thoughtful commentary on how Katrina forever changed the lives of its victims on every level--physically, socially, emotionally, economically, and politically. One girl will bring them all together in an unforgettable way! Fast moving and an easy read, Eye of the Storm poses the philosophical questions about our place in the universe, our relationship with God, and the circumstances that define who we truly are.

**Frederic** Eric D. Grizzle, 2012-07 In August of 1979, Hurricane Frederic formed in the Caribbean and then weakened to a tropical depression before it could come ashore, leaving the residents of the Gulf Coast relieved and continuing with their daily lives. But in the peculiar, unpredictable manner of storms, Frederic "reorganized" and was born again as a hurricane, roaring toward the coast and causing millions of dollars in damage when it struck two weeks later. This is the fictionalized account of five families in the Midtown district of Mobile, Alabama, who experience Frederic's devastating yet transforming power. Richard and Alan, best friends since childhood, are

on a fishing trip when Frederic churns up the gulf, leaving loved ones to live with both dread and hope. Andrew, a teenager, struggles to take care of the house and his mother in his father's absence. A young pastor, experiencing his first hurricane, realizes he must keep the church open as people seek both physical and spiritual shelter. A retired firefighter named Man reaches out to help his neighbors for the first time in years. Each person faces Frederic on the outside while confronting entirely different inner storms—guilt, pain, and the search for purpose and meaning. Old wounds are healed even in the midst of loss and grief, sprinkled with the unexpected moments of humor that are part of our ability to cope with trauma and reach toward wholeness. In *Frederic*, God's glory is revealed not only in sunshine and laughter but in the wind, the waves, and the storms, culminating in triumphant transformation.

**Out of the Storm** Gary Vinturella, 2000-07-01

*The Wrack of the Storm* Maurice Maeterlinck, Alexander Teixeira de Mattos, 2014-03 This Is A New Release Of The Original 1916 Edition.

*Tempest* Liz Skilton, 2019-06-01 Liz Skilton's innovative study tracks the naming of hurricanes over six decades, exploring the interplay between naming practice and wider American culture. In 1953, the U.S. Weather Bureau adopted female names to identify hurricanes and other tropical storms. Within two years, that convention came into question, and by 1978 a new system was introduced, including alternating male and female names in a pattern that continues today. In *Tempest: Hurricane Naming and American Culture*, Skilton blends gender studies with environmental history to analyze this often controversial tradition. Focusing on the Gulf South—the nation's "hurricane coast"—Skilton closely examines select storms, including Betsy, Camille, Andrew, Katrina, and Harvey, while referencing dozens of others. Through print and online media sources, government reports, scientific data, and ephemera, she reveals how language and images portray hurricanes as gendered objects: masculine-named storms are generally characterized as stronger and more serious, while feminine-named storms are described as "unladylike" and in need of taming. Further, Skilton shows how the hypersexualized rhetoric surrounding Katrina and Sandy and the effeminate depictions of Georges represent evolving methods to define and explain extreme weather events. As she chronicles the evolution of gendered storm naming in the United States, Skilton delves into many other aspects of hurricane history. She describes attempts at scientific control of storms through hurricane seeding during the Cold War arms race of the 1950s and relates how Roxcy Bolton, a member of the National Organization for Women, led the crusade against feminizing hurricanes from her home in Miami near the National Hurricane Center in the 1970s. Skilton also discusses the skyrocketing interest in extreme weather events that accompanied the introduction of 24-hour news coverage of storms, as well as the impact of social media networks on Americans' tracking and understanding of hurricanes and other disasters. The debate over hurricane naming continues, as Skilton demonstrates, and many Americans question the merit and purpose of the gendered naming system. What is clear is that hurricane names matter, and that they fundamentally shape our impressions of storms, for good and bad.

Year “Stunning.” –Margaret Atwood At the end of a long, sweltering day, an earthquake of 7.0 magnitude shakes the capital of Haiti, Port-au-Prince. Award-winning author Myriam J. A. Chancy masterfully charts the inner lives of the characters affected by the disaster—Richard, an expat and wealthy water-bottling executive with a secret daughter; the daughter, Anne, an architect who drafts affordable housing structures for a global NGO; a small-time drug trafficker, Leopold, who pines for a beautiful call girl; Sonia and her business partner, Dieudonné, who are followed by a man they believe is the vodou spirit of death; Didier, an emigrant musician who drives a taxi in Boston; Sara, a mother haunted by the ghosts of her children in an IDP camp; her husband, Olivier, an accountant forced to abandon the wife he loves; their son, Jonas, who haunts them both; and Ma Lou, the old woman selling produce in the market who remembers them all. Brilliantly crafted, fiercely imagined, and deeply haunting, *What Storm, What Thunder* is a singular, stunning record, a reckoning of the heartbreaking trauma of disaster, and—at the same time—an unforgettable testimony to the tenacity of the human spirit.
