**A Christmas Scrapbook**, 1979 A collection of Christmas lore and traditions, illustrated using Victorian scraps and cards.

The Making of Exile Nandita Bhavnani, 2014 To date, most books on Partition have ignored or minimised the Sindhi Hindu experience, which was significantly different from the trials of minorities in Punjab or Bengal. The Making of Exile hopes to redress this, by turning a spotlight on the specific narratives of the Sindhi Hindu community. Post-Partition, Sindh was relatively free of the inter-communal violence witnessed in Punjab, Bengal, and other parts of north India. Consequently, in the first few months of Pakistan's early life, Sindhi Hindus did not migrate, and remained the most significant minority in West Pakistan. Starting with the announcement of the Partition of India, The Making of Exile firmly traces the experiences of the community - that went from being a small but powerful minority to becoming the target of communal discrimination, practised by both the state as well as sections of Pakistani society. This climate of communal antipathy threw into sharp relief the help and sympathy extended to Sindhi Hindus by other Pakistani Muslims, both Sindhi and muhajir. Finally, it was when they became victims of the Karachi pogrom of January 1948 that Sindhi Hindus felt compelled to migrate to India. The second segment of the book examines the resettlement of the community in India - their first brush with squalid refugee camps, their struggle to make sense of rapidly changing governmental policies,

and the spirit of determination and enterprise with which they rehabilitated themselves in their new homeland.

**Hinduism for Our Times** Arvind Sharma, 1996 This book examines the contours of this creative tension in the context of Hinduism in our own times. For Hinduism, a religion of unknown antiquity, is also, in several ways, surprisingly modern. Hinduism for Our Times is an attempt to raise this dimension of Hinduism to an unprecedented level of self-awareness.

Vedic Cosmography and Astronomy Richard L. Thompson, 2004 The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy. Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations, foreign observers and even Indian commentators from the middle ages up to the present have concluded that the Bhagavatam's account elaborated in other Puranas must be mythological. On the other hand the same persons have been much impressed with vedic astronomical treatises the jyotisastras which provide remarkably accurate measurements of the solar system.

*Gold Nanoparticles in Biomedical Applications* Lev Dykman, Nikolai Khlebtsov, 2017-12-12 This book discusses fabrication of functionalized gold nanoparticles (GNPs) and multifunctional nanocomposites, their optical properties, and applications in biological studies. This is the very first book of its

kind to comprehensively discuss published data on in vitro and in vivo biodistribution, toxicity, and uptake of GNP by mammalian cells providing a systematization of data over the GNP types and parameters, their surface functionalization, animal and cell models. As distinct from other related books, *Gold Nanoparticles in Biomedical Applications* discusses the immunological properties of GNPs and summarizes their applications as an antigen carrier and adjuvant in immunization for the preparation of antibodies in vivo. Although the potential of GNPs in nanobiotechnology has been recognized for the past decade, new insights into the unique properties of multifunctional nanostructures have recently emerged. With these developments in mind, this book unites ground breaking experimental data with a discussion of hybrid nanoparticle systems that combine different nanomaterials to create multifunctional structures. These novel hybrids constitute the material basis of theranostics, bringing together the advanced properties of functionalized GNPs and composites into a single multifunctional nanostructure with simultaneous diagnostic and therapeutic functions. Such nanohybrids can be physically and chemically tailored for a particular organ, disease, and patient thus making personalized medicine available.

**Foucault and Animals** Matthew Chrulew, Dinesh Joseph Wadiwel, 2016-11-01 *Foucault and Animals* is the first collection to explore the relevance of Foucault's thought for the animal question. Chrulew and Wadiwel bring together essays that open up his influential range of concepts and methods to new domains of human-animal relations.

**Bombay Ice** Leslie Forbes, 2012-11-29 A wonderful first novel which dramatically combines the suspense of a gripping literary thriller with a meditation on the nature of scientific chaos Roz Benegal, a feisty young BBC researcher, goes to India to pick up the threads of her life there (she spent part of her childhood growing up in Kerala). She goes to Bombay to visit her sister Miranda, who is married to a prominent Bollywood film director,

Prosper. Roz arrives to news headlines announcing the deaths of 8 eunuchs in four months and to rumours that her sister's husband may have murdered his first wife Maya, a film star past her prime. Not satisfied to leave the investigations of these allegations to the Indian police, Roz Benegal begins a dangerous search for the truth. Interwoven with this utterly gripping detective story is a remarkable layering of knowledge gleaned from old books on storms, the monsoon, poisons and magical transformations, the narrator's fascination with chaos theory and her passionate interest in fate.

**Grow Younger** Mala Mansukhani, 2020-02-07 Testimonial: Mala and her youthful energy, even though she is a grandmother, is proof that she practices the thoughtful and knowledgeable insights that she has given in her book "Grow Younger". The book has valuable wisdom and I believe in most of the guidance shared by her. In fact I practice them myself. I think this book is a useful read for everyone, not just those who think they are getting older. - MILKHA SINGH About the book "Age is just a number." "Sixty is the new forty." "You are as young as you think." Everyone has heard these catch-phrases sometime or the other. People utter them to sound cool, and perhaps, younger. But when people say such things, do they know what they really mean? Grow Younger tells the story of one woman who lived and still lives a youthful life. However, this book is not only about her life. It is also about your life; why you should and how you can live a youthful life. Written with an infectious conviction, the book is peppered with practical, sensible and common-sensical advice on how to think, act, feel and be younger. It shows you that counting your blessings matters more than counting the number of candles on your birthday cake.
