Deadly Storms in Action Marianne Borgardt,1993 What kind of storm can cause a building to explode? What is pearl lightening? How do people affect the weather? You can read this pop-up action book and find the answers.

The Weather Maike Biederstadt,2021-09-07 From raucous stormy seas to a welcomingly vivid rainbow, weather's most exciting moments come to brilliant life in this fantastic new pop-up book. In her hugely successful books *Creatures of the Deep* and *What's in the Egg*, as well as her enormously popular series of greeting cards for the Museum of Modern Art, Maike Biederstaedt has established herself as one of the preeminent paper artists working today. Now Biederstaedt takes book engineering to new heights as she immerses readers in five electrifying weather scenarios. As each spread unfolds, a meticulously designed landscape emerges--a freighter balances like a nutshell between high waves in the sea; a tornado takes terrifying aim at a truck trying to outrun it; a rain-spewing storm cloud towers like a skyscraper over a farm house. Nature's delicate beauty emerges in the intricate shapes of a snowflake and in the luminous arc of a rainbow. Each page features an informative description of its weather event and the book closes with sobering commentary on the effects of climate change. A wondrous introduction to weather for budding climatologists, this is also an artistic tour de force that collectors will treasure.

The Sky Stirs Up Trouble Belinda Jensen,2016-03-01 Tornado siren! Bel the Weather Girl and Dylan head to the basement. Dylan is scared the house will blow away! But soon the storm passes. Some storms make tornadoes, and some don't. Bel says she can explain why--in the kitchen. What does baking have to do with tornadoes? Stay tuned, because every day is another weather day!

Twisting Up a Storm Cheryl Duksta,2000 Looks at the destruction tornadoes can cause, how they form, how they are tracked, and why people chase them. Suggested level: primary.

The Buffalo Storm Katherine Applegate,2007 When Hallie and her parents join a wagon train to Oregon and leave her grandmother behind, Hallie must learn to face the storms that frighten her so, as well as other, newer fears, with just her grandmother's quilt to comfort her.

Dust Storms May Exist Ed Teja, They come in fast and block out the sun. Dust storms pop up out of nowhere and are a danger for drivers on the open highways of the southwest. But when you can't see what is in front of you maybe, with a little help, a fresh pair of eyes, you see something new. Something that might not even be there other times, something that is only accessible when dust storms may exist! A compelling story of an encounter with other possibilities.

PopUp Republic Jeremy Baras,2015-10-26 PopUp Republic delves into the \$50-billion dollar pop-up industry and includes stories, examples, anecdotes, case studies and a how-to guide of how to create a successful pop-up. Based on Baras' broad experience and unparalleled knowledge, PopUp Republic covers all aspects of pop-ups, including an evaluation of the U.S. vs. European/world pop-up markets; tools needed to create successful pop-ups; what constitutes a pop-up; the costs and benefits of pop-ups; what permits, insurance and licenses are needed to open a pop-up; and much more. More than just an A-to-Z guide on how to launch and operate a successful pop-up, PopUp Republic shows how pop-ups are disrupting the retail, dining and entertainment industries in this country and around the world--

Looking Up Matthew Cappucci,2022-08-02 An energetic and electrifying narrative about all things weather--by one of today's rising meteorological stars. Get in--we're going storm-chasing! Imagine a very cool weather nerd has just pulled up to you and yelled this out the window of his custom-built armored storm-chasing truck. The wind is whipping around, he's munching on Wawa, it's all very chaotic--yet as you look into his grinning face, you feel the greatest surge of adrenaline you have ever felt in your life. Hallelujah: your cavalry is here! Welcome to the brilliance of *Looking Up*, the lively new book from rising meteorology star Matthew Cappucci. He's a meteorologist for The Washington Post, and you might think of him as Doogie Howser meets Bill Paxton from *Twister*, with a dash of Leonardo DiCaprio from *Catch Me If You Can*. A self-proclaimed weather nerd, at the age of fourteen he talked his way into delivering a presentation on waterspouts at the American Meteorological Society's annual broadcast conference by fudging his age on the application and created his own major on weather science while an undergrad at Harvard. Combining reportage and accessible science with personal storytelling and infectious enthusiasm, *Looking Up* is a riveting ride through the state of our weather and a touching story about parents and mentors helping a budding scientist achieve his improbable dreams. Throughout, readers get a tutorial on the basics of weather science and the impact of the climate. As our country's leaders sound the alarm on climate change, few people have as close a view to how serious the situation actually is than those whose job is to follow the weather, which is the daily dose of climate we interact with and experience every day. The weather affects every aspect of our lives (even our art) as well as our future. The way we think about it requires a whole-life overhaul. Rain or shine, tropical storm or twister, Cappucci is here to help us begin the process. So get in his storm-chasing truck already, will ya?

Weather Tom Kierein,1994-01-30 This delightful & informative pop-up book explains in words & illustrations: what is weather?; clouds; precipitation; severe weather; & weather forecasting. Tom Kierein, a meteorologist for WRC-TV in Wash., DC, drew on his personal experience to create the text. John Buston has illustrated several titles in the National Geographic Action Books series. Paper engineering by Tor Lokvig.

Storm Data ,1997

What Are Thunderstorms? Mari Schuh,2019 Thunder booms through the sky. Lightning flashes through the clouds. A thunderstorm is here. Find out the safest place to be and what to do as you wait out the storm.

Category 7 Bill Evans,Marianna Jameson,2007-07-10 A Category 4 hurricane, with winds of up to 155 miles per hour, tears roofs off buildings, smashes windows and doors, and can send floodwaters up to the second floor. Evacuation is suggested for up to six miles inland. Hurricane Katrina was a Category 4 when she made landfall. Hurricane Simone is a Category 7--the biggest, strongest storm in recorded history. When she hits New York City, skyscrapers will fall. Subways and tunnels will flood. Lower Manhattan and much of Queens and Brooklyn will disappear under more than thirty feet of water. All along the Eastern Seaboard, towns and cities are being evacuated as wind-driven rain lashes the coast and storm surges crash through seawalls. Roads are packed with fleeing motorists whose cars are jammed with every personal possession that can be crammed in, plus family members, friends, and beloved pets. A huge natural disaster is brewing in the Atlantic. Except that Simone isn't natural. She's the product of rogue weather science being wielded by billionaire Carter Thompson as part of a personal vendetta against US President Winslow Benson. Once Carter wanted to bring rain to the desert and feed the starving peoples of the planet. Now he wants to show Benson--and the rest of the world--just how powerful wind and water can be. If technology created Simone, perhaps technology can stop her. It's up to Kate Sherman, once a member of Carter's weather team; and Jake Baxter, a weatherman for the CIA, to try, using a secret US Navy weapon. The catch? It has to be deployed inside the hurricane. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Lying Up a Storm Julia Cook,2015-01-15 A storm is brewing... Whenever Levi doesn't like the truth, he kinda, sorta makes up other stuff to say. One day his mother explains to him that telling lies will damage the trust of his friends and make him very sad. Whenever you tell a lie, your inside sun goes away. Then a lying cloud forms, and glooms up your day. Each time you tell a lie, another cloud starts to form, and before you can stop it from happening, your insides start to storm. This book is a great resource to help children understand not only the consequences of telling a lie, but also how one lie can often lead to telling several more. It will help parents and teachers understand that lying can be a normal and sometimes healthy response for a child and offers tools to help guide children toward truthfulness.

Thomas and the Terrible Storm Wilbert V. Awdry,Britt Allcroft,2001 A terrible storm has left Henry trapped in a

tunnel! Thomas rushes to the rescue, but the storm has blown some obstacles in his path. Kids can drive the attached movable Thomas play piece along the shaped pages of this interactive board book, and see how Thomas uses his wits to clear the tracks and free his timid friend.

A Disciple's Dilemma Timothy L. Brinkley,2013-03 A Disciple's Dilemma is a collection of inspiring and encouraging sermons. The book is actually four books in one. Each book is a sermon series focusing on the challenges that Christians face. It is a must-have for preachers and teachers. Each chapter is a sermon that can be preached directly from the book.

Life on the Mississippi Rinker Buck,2023-05-16 NEW YORK TIMES BESTSELLER * “Audacious...Life on the Mississippi sparkles.” –The Wall Street Journal * “A rich mix of history, reporting, and personal introspection.” –St. Louis Post-Dispatch * “Both a travelogue and an engaging history lesson about America’s westward expansion.” –The Christian Science Monitor The eagerly awaited return of master American storyteller Rinker Buck, Life on the Mississippi is an epic, enchanting blend of history and adventure in which Buck builds a wooden flatboat from the grand “flatboat era” of the 1800s and sails it down the Mississippi River, illuminating the forgotten past of America’s first western frontier. Seven years ago, readers around the country fell in love with a singular American voice: Rinker Buck, whose infectious curiosity about history launched him across the West in a covered wagon pulled by mules and propelled his book about the trip, The Oregon Trail, to ten weeks on the New York Times bestseller list. Now, Buck returns to chronicle his latest incredible adventure: building a wooden flatboat from the bygone era of the early 1800s and journeying down the Mississippi River to New Orleans. A modern-day Huck Finn, Buck casts off down the river on the flatboat Patience accompanied by an eccentric crew of daring shipmates. Over the course of his voyage, Buck steers his fragile wooden craft through narrow channels dominated by massive cargo barges, rescues his first mate gone overboard, sails blindly through fog, breaks his ribs not once but twice, and camps every night on sandbars, remote islands, and steep levees. As he charts his own journey, he also delivers a richly satisfying work of history that brings to life a lost era. The role of the flatboat in our country’s evolution is far more significant than most Americans realize. Between 1800 and 1840, millions of farmers, merchants, and teenage adventurers embarked from states like Pennsylvania and Virginia on flatboats headed beyond the Appalachians to Kentucky, Mississippi, and Louisiana. Settler families repurposed the wood from their boats to build their first cabins in the wilderness; cargo boats were broken apart and sold to build the boomtowns along the water route. Joining the river traffic were floating brothels, called “gun boats”; “smithy boats” for blacksmiths; even “whiskey boats” for alcohol. In the present day, America’s inland rivers are a superhighway dominated by leviathan barges—carrying \$80 billion of cargo annually—all descended from flatboats like the ramshackle Patience. As a historian, Buck resurrects the era’s adventurous spirit, but he also challenges familiar myths about American expansion, confronting the bloody truth behind settlers’ push for land and wealth. The Indian Removal Act of 1830 forced more than 125,000 members of the Cherokee, Choctaw, and several other tribes to travel the Mississippi on a brutal journey en route to the barrens of Oklahoma. Simultaneously, almost a million enslaved African Americans were carried in flatboats and marched by foot 1,000 miles over the Appalachians to the cotton and cane fields of Arkansas, Mississippi, and Louisiana, birthing the term “sold down the river.” Buck portrays this watershed era of American expansion as it was really lived. With a rare narrative power that blends stirring adventure with absorbing untold history, Life on the Mississippi is a muscular and majestic feat of storytelling from a writer who may be the closest that we have today to Mark Twain.

The Storm Book Charlotte Zolotow,1989-01-15 It is a day in the country, and everthing is hot and still. Then the hazy sky begins to shift. Something is astir, something soundless.

Storms of Life Frank L. Dickerson,2009-04-02 What happens when you come home early and find your husband cooking your favorite meal, and has your lingerie out waiting, but the door bell rings and you find out all of that wasnt for you? What happens when your reckless best friend lets his reckless lifestyle take the life of your wife, how do you forgive him? With all the things that happen in our personal world, where is God? he is there, but in ways the naked eye cant see. He was the one who let your boss give you early release and caused all three redlights to turn green just in the nick oftime so that you can come home and see the truth in your marriage. Storms Of Life!

Waiting Out the Storm JoAnn Early Macken,2010 A mother reassures her child about the wind, lightning, and thunder when a storm passes through.

Sheltered by God Jennifer Pitts Adair,2012-08 On April 27, 2011 sixty two tornadoes touched down in Alabama claiming two hundred and fifty three innocent lives. One of those tornadoes, an EF5 that tracked across Northern Alabama and into Tennessee, killed seventy people over a 132 mile path. Jennifer Pitts Adair, alone in her Capshaw home, huddled under blankets and pillows in her master bathroom closet as the massive tornado ripped her home apart around her. When it finally ended nothing remained except for the foundation Jennifer lay on and a pile of rubble surrounding her. For the next year she documented her family's journey. Through her personal journal Jennifer invites us into the life of one survivor during the first year of recovery.
