Data Science, Human Science, and Ancient Gods Sandra Blakely,Megan Daniels,2023-05-01 The studies in this volume share a focus on religion in the ancient Mediterranean world: How ritual, myth, spectatorship, and travel reflect the continual interaction of human beings with the richly fictive beings who defined the boundaries of groups, access to the past, and mobility across land and seascapes. They share as well the methodological exploration of the intersection between human sciences the integration of numerous disciplines around the study of all aspects of human life from the biological to the cultural and the study of the past.
