Sailing Through the Storms of Seizures Jon Sadler,2018-06-25 Jon has lived with epilepsy for over fifty years. There were times when he was broken and defeated by seizures; then discovered the power of hope. Jon believes he can provide that hope to others dealing with seizure disorders by sharing his experience. In *Sailing through the Storms of Seizures*, he provides the perspective of the child, student, father, and caregiver. Jon had his first seizure at the age of four and was treated with medication for several years. His seizures returned while in college. At the age of forty-six, his seizures became intractable, and brain surgery his only option to regain control. There were many people who helped him with his recovery: his family, church, counselor, and those he met who faced similar situations. Soon after his surgery, Jon met a man who was distraught over his four-year-old son, who suffered from intractable seizures. As Jon shared his experience he witnessed hope being instilled in the man and his family. He is now a mentor and a counselor, focusing on helping people live with epilepsy. His greatest joy comes from his two sons, who have been there when needed, and accomplished much in their lives and careers.

Adventures in Texas Gardening Bill Scheick,2017-06-07 Gardening in Texas is not for the faint of heart or weak-willed. Given the remarkable variety of soils, climate ranges, and the obstacles of stifling heat, humidity, and drought, the dedication of so many gardening enthusiasts speaks to the powerful hold plants have over people. Living and gardening in Central Texas since 1969, Bill Scheick has celebrated successes and analyzed failures. Techniques and plants that worked in one yard did not necessarily work in another just a few miles away. In *Adventures in Texas Gardening*, Scheick shares,

through personal accounts as well as stories from fellow gardeners, big gardening efforts—transforming an entire backyard, dealing with unruly pets and marauding wildlife, and fostering vanishing bees. Attention is also given to other challenges, such as soil erosion and yard contamination.
