**The Golden Poppy** Emory Evans Smith, 1901

**Poppy** Avi, 2018-03-27 Boston Globe-Horn Book Award Winner \* ALA Notable Book \* ALA Booklist Editors' Choice \* School Library Journal Best Book In the second book in the Tales of Dimwood Forest by Newbery Medal-winning author Avi, a tiny deer mouse named Poppy dares to stand up to a tyrannical owl. The story is accompanied by inviting illustrations from Caldecott Medal-winning artist Brian Floca. "This exciting story is richly visual. The underlying messages, to challenge unjust authority and to rely on logic and belief in oneself, are palatably blended with action and suspense." – School Library Journal Poppy knew she was taking a risk following her beloved Ragweed to Bannock Hill, but a night of dancing with the handsome golden mouse was just too tempting. So when Ragweed is scooped up by the sinister owl, Mr. Ocax, who rules over Dimwood forest, she's devastated. Her whole life she was warned of Mr. Ocax's evil ways...how could she have been so foolish to put herself and Ragweed at risk? To make matters worse, when Poppy attempts to move with her family to a different part of the woods where the food supply is richer, Mr. Ocax refuses to let them go. Despite what she's been led to believe for years, Mr. Ocax is not as strong as he wants the mice to think he is. Armed with the bravery, gumption, and wit of a hero, Poppy embarks on a dangerous quest—joined by the irascible but lovable porcupine, Ereth—to defeat Mr. Ocax and lead her family to a better home. A perennially popular story of courage and determination, Poppy is a fixture on state award lists and in classrooms across the country.

Poppy's family has called her back to save them all—mother, father, sisters and brothers, and dozens and dozens of deer mouse cousins. Poppy invites her rebellious son, Junior, to join her on the long trip across Dimwood Forest, hoping the journey will bring them closer together. But with Junior's skunk pal, Mephitis, and Ereth, the cantankerous porcupine, in tow—sugared slug soup!—Poppy and Junior may be in for unexpected adventure.

**Poppies** C. Grey-Wilson, 2005-01 Poppies, first published in 1993, was the first book devoted exclusively to these most loved and cherished of plants. Not only are the true poppies, genus *Papaver*, covered, but all the other members of the poppy family as well. This includes the horned poppies *Glaucium*, the tree poppies *Dendromecon*, the California poppies *Eschscholzia*, the desert poppies, *Arctomecon*, the prickly poppies *Argemone*, the pygmy poppies *Canbya*, the plumed poppies *Macleaya*, the blue poppies *Meconopsis*, the long fruited poppies *Roemeria*, and many more. There are general chapters on the family, cultivation and classification, and a key to genera. The individual genera, grouped into their respective subfamilies, are dealt with, including coverage of their more

specialised cultivational requirements. Grey Wilson has concentrated primarily on species and forms in cultivation, together with those species of striking or particular interest that are not present in cultivation but fully deserve to be introduced. For this new edition, the author has included much new information about recent discoveries in the wild, as well as new cultivars introduced since *Poppies* was first published in 1993.

**The Poppy War** R. F. Kuang,2018-05-01 "I have no doubt this will end up being the best fantasy debut of the year [...] I have absolutely no doubt that [Kuang's] name will be up there with the likes of Robin Hobb and N.K. Jemisin." -- Booknest A Library Journal, Paste Magazine, Vulture, BookBub, and ENTROPY Best Books pick! Washington Post 5 Best Science Fiction and Fantasy Novel pick! A Bustle 30 Best Fiction Books pick! A brilliantly imaginative talent makes her exciting debut with this epic historical military fantasy, inspired by the bloody history of China's twentieth century and filled with treachery and magic, in the tradition of Ken Liu's *Grace of Kings* and N.K. Jemisin's *Inheritance Trilogy*. When Rin aced the Keju—the Empire-wide test to find the most talented youth to learn at the Academies—it was a shock to everyone: to the test officials, who couldn't believe a war orphan from Rooster Province could pass without cheating; to Rin's guardians, who believed they'd finally be able to marry her off and further their criminal enterprise; and to Rin herself, who realized she was finally free of the servitude and despair that had made up her daily existence. That she got into Sineward—the most elite military school in Nikan—was even more surprising. But surprises aren't always good. Because being a dark-skinned peasant girl from the south is not an easy thing at Sineward. Targeted from the outset by rival classmates for her color, poverty, and gender, Rin discovers she possesses a lethal, unearthly power—an aptitude for the nearly-mythical art of shamanism. Exploring the depths of her gift with the help of a seemingly insane teacher and psychoactive substances, Rin learns that gods long thought dead are very much alive—and that mastering control over those powers could mean more than just surviving school. For while the Nikara Empire is at peace, the Federation of Mugen still lurks across a narrow sea. The militarily advanced Federation occupied Nikan for decades after the First Poppy War, and only barely lost the continent in the Second. And while most of the people are complacent to go about their lives, a few are aware that a Third Poppy War is just a spark away . . . Rin's shamanic powers may be the only way to save her people. But as she finds out more about the god that has chosen her, the vengeful Phoenix, she fears that winning the war may cost her humanity . . . and that it may already be too late.

Poppy Mayberry, The Monday Jennie K. Brown, 2016-09-13 What if your teacher could read your mind just because she was born on a Thursday? Or the kid next to you in class could turn back the clock just because he was a Wednesday? In the quirky town of Nova, all of this is normal. Poppy Mayberry, an almost-11-year-old Monday, should be able to pass notes in class or brush her dog, Pickle, without lifting a finger. Poppy's Monday telekinesis ability has some kinks and that plate of spaghetti she's passing may just end up on someone's head. If that's not hard enough, practically-perfect Ellie Preston is out to get her and Principal Wible wants to send Poppy to remedial summer school to work on her powers!
