A Dictionary of the Portuguese and English Languages, in Two Parts Antonio Vieyra,1813

Portuguese English Bilingual Bible The Histories King James Version Almeida Recebida,2019-07-10 This is the Histories, volume two, of the Portuguese English Bilingual Bible book series. It is in English and Portuguese, two of the top ten most widely spoken languages on Earth. It is the King James Version and Almeida Recebida translations, good and accurate translations for learning either language, as well as having a correct and reliable translation from the received texts of the Holy Bible itself. The translators relied on formal equivalence to preserve phrasing and literal content from the Hebrew and Greek documents. This present volume is divided in columns for each language, with each corresponding verse line matching its equal on the opposite side of the page. The font size and style is easy to read. Typo's and the rare instance of missing information (such as superscriptions above psalms and colophons ending epistles) have been translated from English to Portuguese, and in some cases Hebrew into Portuguese, by Alan Lewis Silva, who has lovingly and carefully edited this wonderful book.

A Dictionary of the Portuguese and English Languages ... A New Edition, Etc. Antonio Vieyra (Regius Professor of Spanish in the University of Dublin.),1827

Modern Brazilian Portuguese Grammar John Whitlam,2017-03-16 Modern Brazilian Portuguese Grammar: A Practical Guide is an innovative reference guide to Brazilian Portuguese, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers traditional grammatical categories such as agreement, nouns, verbs and adjectives. Part B is carefully organized around language functions covering all major communication situations such as establishing identity, making contact and expressing likes, dislikes and preferences. With a strong emphasis on contemporary usage, all grammar points and functions are richly illustrated with examples. Building on the success of the first edition, this second edition also includes: • An introduction to the history and current status of Brazilian Portuguese • Notes for Spanish speakers pointing out the main grammatical differences between the two languages • Additional explanation and exemplification of areas of particular difficulty for learners. A combination of reference grammar and practical usage manual, Modern Brazilian Portuguese Grammar is the ideal source for learners of Brazilian Portuguese at all levels, from beginner to advanced.
