Cezanne and the End of Impressionism Richard Shiff, 2014-12-15 Drawing on a broad foundation in the history of nineteenth-century French art, Richard Shiff offers an innovative interpretation of Cézanne's painting. He shows how Cézanne's style met the emerging criteria of a technique of originality and how it satisfied critics sympathetic to symbolism as well as to impressionism. Expanding his study of the interaction of Cézanne and his critics, Shiff considers the problem of modern art in general. He locates the core of modernism in a dialectic of making (technique) and finding (originality). Ultimately, Shiff provides not only clarifying accounts of impressionism and symbolism but of a modern classicism as well.

Sublime Poussin Louis Marin, Nicolas Poussin, 1999 The eminent scholar and critic Louis Marin considered the paintings and the writings of Nicolas Poussin (1594-1665) an enduring source of inspiration, and he returned to Poussin again and again over the years. The ten major essays in this volume constitute his definitive statement on the painter who inspired his most eloquent and probing commentary. 17 illustrations.

Poussin and the Poetics of Painting Jonathan Unglaub, 2006-02-06 This book examines how Poussin cultivated a poetics of painting from the literary culture of his own time, and especially through his response to the work of Torquato Tasso. Tasso's poetic discourses were the most important source for Poussin's theory of painting. Poussin does not merely illustrate Tasso's verse, but cultivates pictorial means to refashion the poet's metaphors of desire. Offering new interpretations of these works, this book also investigates Poussin's larger literary culture and how this context illuminates the artist's response to contemporary poetic texts, especially in his

mythological paintings.

Poussin's Paintings David Carrier, 1993 Employing the methodologies of the new art history as well as some tools provided by poststructuralism, historiography, and analytic philosophy, Poussin's Paintings offers a novel approach to the art of Poussin. David Carrier begins with a comprehensive analysis of Poussin's self-portraits, which provides the starting point for a critical discussion of the traditional strategies of Poussin scholarship and for an evaluation of the status of this artist. Carrier shows that Poussin can be properly understood only by seeing how his visual and political culture differs from ours. Carrier examines the traditional approaches of Poussin scholars, noting the limitations of their views and showing how they not only shape our image of the artist but also restrict our ability to properly grasp his concerns. Carrier also considers the important conceptual claims of connoisseurs and reveals how their work invokes an implicit theory of Poussin's development. Carrier then focuses on a group of paintings concerned with erotic themes, demonstrating the inadequacy of traditional accounts of these pictures. He extends his analysis to a discussion of Poussin's landscapes, which have a different and more important place in his development than the older accounts claim. Carrier places Poussin within the artistic and political culture of seventeenth-century Rome. He asserts that artists of the time were concerned with the problem of belatedness and that Poussin attempted to return to the tradition of the High Renaissance, reworking images from that tradition in response to his own visual culture. Carrier argues that Poussin's art is thus best understood as a response to that setting for baroque art, and he relates Poussin's work to the later tradition of French history painting.

Nicolas Poussin Anthony Blunt, 2023-10-17 A landmark account of the work, thought, and life of the seventeenth-century French painter In this book, Anthony Blunt presents a rich account of the paintings, life, and development of the great seventeenth-century French classicist Nicolas Poussin (1594–1665), addressing the artist's entire oeuvre alongside his theory of art. Blunt shows why Poussin holds a central place in the great French humanist line that produced Racine, Molière, Voltaire, the Parnassians, and Mallarmé. At the same time, he examines how Poussin looks back to Raphael and ancient Rome, while pointing forward to Ingres, Cézanne, the Cubists, and Picasso.

Poussin and Nature Metropolitan Museum of Art (New York, N.Y.), 2008 The work of the great French painter Nicolas Poussin (1594–1665) is most often associated with classically inspired settings and figures depicting solemn scenes from mythology or the Bible. Yet he also created some of the most influential landscapes in Western art, endowing them with a poetic quality that has been admired by artists as different as Constable, Turner, and Cézanne. As the British critic William Hazlitt noted in 1844, 'This great and learned man might be said to see nature through the glass of time'. This beautiful catalogue presents the first in-depth examination of Poussin's landscapes. Featured here are more than 40 paintings, ranging from the artist's early Venetian-inspired pastorals to his grandly structured and austere works, designed as metaphors or allegories for the processes of nature. Also included are approximately 60 drawings and essays by internationally renowned scholars who examine the painter's visual, literary, and philosophical influences as well as his relationships with his patrons and his place in the art-historical canon.--Publisher description.

"Painting and Narrative in France, from Poussin to Gauguin" Nina Baym, 2017-07-05 Before Modernism, narrative painting was one of the most acclaimed and challenging modes of picture-making in Western art, yet by the early twentieth century storytelling had all but disappeared from ambitious art. France was a key player in both the dramatic rise and the controversial demise of narrative art. This is the first book to analyse French painting in relation to narrative, from Poussin in the early seventeenth to Gauguin in the late nineteenth century. Thirteen original essays shed light on key moments and aspects of narrative and French painting through the study of artists such as Nicolas Poussin, Charles Le Brun, Jacques-Louis David, Paul Delaroche, Gustave Moreau, and Paul Gauguin. Using a range of theoretical perspectives, the authors study key issues such as temporality, theatricality, word-and-image relations, the narrative function of inanimate objects, the role played by viewers, and the ways in which visual narrative has been bound up with history painting. The book offers a fresh look at familiar material, as well as studying some little-known works of art, and reveals the centrality and complexity of narrative in French painting over the course of three centuries.

Poussin and France Todd Olson, Nicolas Poussin, 2002-01-01 Nicolas Poussin, perhaps the most famous French painter of the seventeenth century, lived and worked for many years in Rome. Yet he remained

deeply engaged with cultural and political transformations occurring in France, argues Todd R Olson in this original exploration of Poussin's paintings, their production, and their reception. Poussin's references to ancient literature and sculpture addressed a political elite -- the Robe nobility -- whose humanist education in classical antiquity equipped them to relate Greek and Roman history to contemporary events and to deploy ancient precedents in legalistic and political arguments. When the French civil war known as the Fronde erupted in the middle of the seventeenth century, the paintings that Poussin exported to France responded directly in both subject and style to the crisis in monarchical authority and the disenfranchisement of his Robe patrons. Olson demonstrates that Poussin's association with a disgraced political group, his loss of official support, and his exile in Italy imbued his history paintings with a symbolic weight. The painter's audience considered the hardearned pleasures of his restrained, difficult pictorial style a benchmark of integrity as well as a criticism of the Regency's indiscriminate collecting practices and taste for foreign luxury. Poussin transformed the easel painting -- its making and collection -- into an expression of cultural and political commitments binding a community. Olson's fresh insights reveal the importance of this painter's work to a learned and powerful French constituency at a critical moment in French history and demonstrate that Poussin's famously timeless style was far more responsive to historical contingencies than has been previously recognized.

Poussin, the Early Years in Rome Konrad Oberhuber, Nicolas Poussin, 1988

Nicolas Poussin: 141 Paintings Jessica Findley, 2014-11-21 Nicolas Poussin was the French painter of the classical Baroque style. His work is characterized by

clarity, logic, and order, and favors line over color. Until the 20th century he remained a major inspiration for such classically oriented artists as Jacques-Louis David, Jean-Auguste-Dominique Ingres and Paul Cézanne. He worked in Rome for a circle of leading collectors there and elsewhere, except for a short period when Cardinal Richelieu ordered him back to France to serve as First Painter to the King. Most of his works are history paintings of religious or mythological subjects that very often have a large landscape element. Throughout his life Poussin stood apart from the popular tendency toward the decorative in French art of his time. The finest collection of Poussin's paintings is at the Louvre in Paris. Other significant collections are in the National Gallery in London; the National Gallery of Scotland; the Dulwich Picture Gallery; the Musée Condé, Chantilly; the Hermitage Museum, St. Petersburg; and the Museo del Prado, Madrid.

Re-inventing Ovid's Metamorphoses Karl A.E. Enenkel, Jan L. de Jong, 2020-10-26 This volume explores early modern recreations of Ovid's Metamorphoses, focusing on the creative ingenium of artists and writers who freely handled the original text so as to adapt it to different artistic media and genres.

Poussin Christopher Wright, Nicolas Poussin, 2007 Nicholas Poussin was the founder and the greatest practitioner of 17th century French classical painting and is widely regarded as one of the most important artists of all time

To Destroy Painting Louis Marin, 1995-03 The work of the eminent French cultural critic Louis Marin (1931-92) is becoming increasingly important to English-speaking scholars concerned with issues of representation. *To Destroy Painting*, first published in France in 1977, marks a milestone in Marin's thought about the aims of painting

in Europe in the sixteenth and seventeenth centuries. A meditation on the work of Poussin and Caravaggio and on their milieux, the book explores a number of notions implied by theories of painting and offers insight into the aims and effects of visual representation.

Nicolas Poussin Hugh Brigstocke, 2016-04-01 A French painter and draughtsman, active in Italy, Nicolas Poussin's supreme achievement as an artist lies in his unrivalled marriage of dramatic narratives and expressions of human passions within a formal harmony of design. Focused on the search for a point of equilibrium and synthesis between the forces of the Classical and the Baroque, Poussin's work embodied the critical artistic debate in Rome during the 1630s. This fully illustrated title explores Poussin's life and work, including an analysis of his working methods and technique, and delves into both his own writings and the critical reception of his work. With the addition of an extensive bibliography, discover the grandeur of Poussin's designs with Grove Art Essentials.

A Brief History of Painting Roy Bolton, 2013-06-13 The urge to create pictures of our world has been with us ever since early man daubed a fingerful of pigment on a rock, or used primitive colours to create exquisite images of the beasts he hunted - images so breathtakingly powerful they have never been surpassed, however sophisticated we have become. This book tells the story of what painting has meant to us, and how its role has changed over the centuries. In the crisp, unstuffy commentary on each of 150 landmark works, Christie's art expert Roy Bolton leads us through the development of painting until our own age, where painting as a painterly craft has been overtaken by a proliferation of new forms introduced by contemporary art. To the question, 'Is the death of painting upon us?' the introductory chapter by Matthew Collings, the multi-

award-winning TV art presenter, art historian and cultural critic, gives an inspiring answer: 'Painting justifies itself. Rather than pathetically struggling to keep up with the new freak-show culture of videos and installations, painting will only be worth having if it reconnects with its own inner life, where the old and the new are the same.' Roy Bolton's selection takes us from the Ancient World, via the Italian Renaissance, Rococo and Classicism to Impressionism, Modernism and the Contemporary World. Each painting, with its context and artist, is explained in terms designed to encourage us to judge art for ourselves. Written with authority and full of original and helpful insights, this is a history of art for our times. 'While I find it interesting to think about all sorts of art, I prefer painting to any of it. Painting is soulful, important, serious and humane.' Matthew Collings 'We need to de-mystify art by stripping it down to its bare essentials, then rebuilding it ourselves, using our own minds and eyes, without all the pompous clutter.' Roy Bolton

The Matter of Mind Christopher Braider, 2017-01-23
 What influence did René Descartes' concept of mind-body dualism have on early modern conceptions of the self? In *The Matter of Mind*, Christopher Braider challenges the presumed centrality of Descartes' groundbreaking theory to seventeenth-century French culture. He details the broad opposition to rational self-government among Descartes' contemporaries, and attributes conventional links between Descartes and the myth of the 'modern subject' to post-structuralist assessments. *The Matter of Mind* presents studies drawn from a range of disciplines and examines the paintings of Nicolas Poussin, the drama of Pierre Corneille, and the theology of Blaise Pascal. Braider argues that if early modern thought converged on

a single model, then it was the experimental picture based on everyday experience proposed by Descartes' sceptical adversary, Michel de Montaigne. Forceful and provocative, *The Matter of Mind* will encourage lively debate on the norms and discourses of seventeenth-century philosophy.
