Empty Categories in Sentence Processing Sam Featherston,2001-09-06 This book reports a research program into one of the most controversial questions in the syntax – processing interface: The behavior of the parser at gap positions. While the work done is largely experimental, the results are analyzed both for their relevance to sentence processing and for their implications for competing syntactic frameworks. In particular the differing predictions of PPT and HPSG for structures with dislocated constituents are tested for their empirical adequacy. The author addresses a broad range of questions about gap processing and uses a broad range of methodologies to cut through the confounds which prevent previous work providing clear answers. Wh-movement, scrambling, raising, and equi structures are all addressed, and all current accounts of the experimental evidence evaluated. The results move the debate forward significantly, and provide clear confirmation of some non-trivial claims of generative grammar.

All Sorts Pippa Goodhart,2021-03-02 Organizing is Frankie's favorite thing to do in the whole wide world. She is good at sorting different sets of flowers, she is great at classifying the contents of the fridge, and she even attempts to put the people on her street into groups (which is hard!). But the one thing Frankie cannot seem to sort . . . is herself! Where does one little girl belong in a world of endless colors, shapes, and sizes? From bestselling author Pippa Goodhart and illustrator Emily Rand, join Frankie in her search for her perfect place in the world . . . and discover that it's the mixed up, muddle of life that brings us all together.

Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth Lytras, Miltiadis D.,Daniela, Linda,Visvizi, Anna,2018-10-12 The modern world is developing at a pace where few can thoroughly keep track of its progress. More advancements in technology, evolving standards of education, and ongoing cultural and societal developments are leading to a need for improved pathways of knowledge discovery and dissemination. Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth provides emerging research exploring how academic research can represent both a bold response to the problems society faces today and a source of alternative solutions to those problems. This publication is derived from the basic understanding that education plays the role of the key enabler in the process of navigating these contemporary challenges. Featuring coverage on a broad range of topics such as e-service exploration, progressive online learning in urban areas, and advances in multimedia sharing, this book is ideally designed for consultants, academics, industry professionals, policymakers, politicians, and government officials seeking current research on the impact of information technology and the knowledge-based era.

Athapaskan Migrations R. G. Matson,Martin P. R. Magne,2019-07-02 Migration as an instrument of cultural change is an undeniable feature of the archaeological record. Yet reliable methods of identifying migration are not always accessible. In Athapaskan Migrations, authors R. G. Matson and Martin P. R. Magne use a variety of methods to identify and describe the arrival of the Athapaskan-speaking Chilcotin Indians in west central British Columbia. By contrasting two similar geographic areas—using the parallel direct historical approach—the authors define this aspect of Athapaskan culture. They present a sophisticated model of Northern Athapaskan migrations based on extensive archaeological, ethnographic, and dendrochronological research. A synthesis of 25 years of work, Athapaskan Migrations includes detailed accounts of field research in which the authors emphasize ethnic group identification, settlement patterns, lithic analysis, dendrochronology, and radiocarbon dating. Their theoretical approach will provide a blueprint for others wishing to establish the ethnic identity of archaeological materials. Chapter topics include basic methodology and project history; settlement patterns and investigation of both the Plateau Pithouse and British Columbia Athapaskan Traditions; regional surveys and settlement patterns; excavated Plateau Pithouse Tradition and Athapaskan sites and their dating; ethnic identification of recovered material; the Chilcotin migration in the context of the greater Pacific Athapaskan, Navajo, and Apache migrations; and summaries and results of the excavations. The text is abundantly illustrated with more than 70 figures and includes access to convenient online appendixes. This substantial work will be of special importance to archaeologists, anthropologists, linguists, and scholars in Athapaskan studies and Canadian First Nation studies.

Neuropsychopharmacology Kenneth L. Davis,American College of Neuropsychopharmacology,2002 Thoroughly updated and completely reorganized for a sharper clinical focus, the Fifth Edition of this world-renowned classic synthesizes the latest advances in basic neurobiology, biological psychiatry, and clinical neuropsychopharmacology. The book establishes a critical bridge connecting new discoveries in molecular and cellular biology, genetics, and neuroimaging with the etiology, diagnosis, and treatment of all neuropsychiatric disorders. Nine sections focus on specific groups of disorders, covering clinical course, genetics, neurobiology, neuroimaging, and current and emerging therapeutics. Four sections cover neurotransmitter and signal transduction, emerging methods in molecular biology and genetics, emerging imaging technologies and their psychiatric applications, and drug discovery and evaluation. Rethinking Social Movements Jeff Goodwin,James M. Jasper,2004 This landmark volume brings together some of the titans of social movement theory in a grand reassessment of its status. For some time, the field has been divided between a dominant structural approach and a cultural or constructivist tradition.. The gaps and misunderstandings between the two sides--as well as the efforts to bridge them--closely parallel those in the social sciences at large. This book aims to further the dialogue between these two distinct approaches to social movements and to show the broader implications for social science as a whole as it struggles with issues including culture, emotion, and agency. Proof and Knowledge in Mathematics Michael Detlefsen,2005-08-18 These questions arise from any attempt to discover an epistemology for mathematics. This collection of essays considers various questions concerning the nature of justification in mathematics and possible sources of that justification. Among these are the question of whether mathematical justification is a priori or a posteriori in character, whether logical and mathematical differ, and if formalization plays a significant role in mathematical justification,

Hacker Techniques, Tools, and Incident Handling Sean-Philip Oriyano,2013-08 Hacker Techniques, Tools, and Incident Handling begins with an examination of the landscape, key terms, and concepts that a security professional needs to know about hackers and computer criminals who break into networks, steal information, and corrupt data. It goes on to review the technical overview of hacking: how attacks target networks and the methodology they follow. The final section studies those methods that are most effective when dealing with hacking attacks, especially in an age of increased reliance on the Web. Written by a subject matter expert with numerous real-world examples, Hacker Techniques, Tools, and Incident Handling provides readers with a clear, comprehensive introduction to the many threats on our Internet environment and security and what can be done to combat them. Instructor Materials for Hacker Techniques, Tools, and Incident Handling include: PowerPoint Lecture Slides Exam Questions Case Scenarios/Handouts

Access to Treaty Benefits Desiree Auer,Christina Dimitropoulou,2021-09-21 A rigorous analysis of various aspects related to treaty access Tax treaty access is an ongoing challenge for both taxpayers and tax authorities. This volume provides a rigorous analysis of various aspects related to treaty access. Schematically, the volume is divided into four parts. The first part deals with general interpretative issues and principles; the second and third parts cover a wide range of sub-aspects relating to the subjective and objective scope of tax treaties and the recent challenges posed to tax treaty access, while the fourth part focuses on the knotty issues of treaty shopping and abuse. The structure of the volume reflects the necessity to approach access to treaty benefits in a holistic way and view the recent trends through a wide lens. All chapters contain a complete examination of the relevant topics, starting from a historical perspective and continuing with tax treaty law principles and tax practice analysis. Where appropriate, a domestic law and domestic courts' jurisprudence perspective was added as well as a comparative analysis of several jurisdictions thus complementing the examination of each topic. Finally, special attention is given to treaty abuse and the new GAAR introduced in the 2017 OECD Model together with its interrelation with other treaty and domestic anti-abuse provisions and the impact of these provisions on tax treaty access and tax policy in general.

Saline Lakes V Stuart H. Hurlbert,2012-12-06 The Vth International Symposium on Inland Saline Lakes was held at Hotel Titikaka on the shores of

that lake, 22--29 March 1991 with participants from 16 countries. Twenty-three papers presented by the participants, plus an additional one reporting a microcosm study on salinity effects, constitute the present volume. The papers cover the wide array of subject matters and scales characteristic of our 'interdiscipline' and represent the symposium well. All manuscripts submitted for these proceedings were critically reviewed by at least three referees and are representative of saline lake research, developed around the world in the three-year period since the last symposium.
