External Democracy Promotion and Diversity Among International Agencies Simone Beetz,2017-09-11 The book offers new insight into the diversity of democracy promotion. It takes up the puzzle of mixed results for international agencies in external democracy promotion despite the global goal of democracy and the attempt to shape a common policy emphasized in various international agreements. On the background of backlashes and the search for new answers; it analyzes how the UNDP and the EC promoted democracy in Rwanda from 2003 until 2013 with a selective outlook until today. As a result, it outlines how democracy strategies differ. Furthermore, it develops a new concept of variances which can be applied for other international organizations and agencies as well as in other recipient states.

American Democracy Promotion Michael Cox,John Ikenberry,Takashi Inoguchi,2000-08-31 Why does the United States promote democracy? How successful has it been? And why do critics often attack it for doing so? These are at least three of the questions examined in this wide-ranging discussion of American efforts to recast the international order in its own political image. The answers provided by a distinguished group of analysts are as diverse as they are challenging to traditional ways of thinking about US democracy promotion in terms of either a misconstrued moralism or an ideological facade masking some deeper, more sinister purpose. As we enter into the Twenty First century with American hegemony intact, it is vital to understand what drives the world's last remaining superpower. And this original study helps us do precisely that by exploring in detail and depth one of the more contentious, least analysed and most misunderstood aspects of American foreign policy.

Promotion Winning Black Cats Rob Mason,2021-08-09 From 1890 to 1958, Sunderland were part of football's elite with a 68-year unbroken run in the top flight. The shock of a first relegation in 1958 was matched by the elation of a first promotion in 1963/64. Starting with that season, the book celebrates every occasion Sunderland went up. What was the secret to each Black Cats promotion? And who did the fans have to thank? Rob Mason gets the inside story through exclusive interviews with players and managers who were at the heart of the action. Moments of magic and mystery are revealed as the story of each season unfolds. From Charlie Hurley's much-loved 1963/64 side, through to the second Bob Stokoe side to win a trophy at Sunderland in 1976, Ken Knighton winning promotion in his first season as a manager and the teams of Denis Smith and Peter Reid - who each won promotion twice - then on to the 'Sund-Ireland' era when promotion was won under Mick McCarthy and then Roy Keane, all the great days and great games are here to cherish and enjoy.

Promotion of Green Electricity in Germany and Turkey Onur Cagdas Artantas,2023-12-02 The global energy economy is undergoing a profound transformation, yielding several pivotal objectives. Foremost among these is mitigating greenhouse gas emissions and toxic pollutants. Another essential goal involves promoting more sustainable economies, thereby curbing material consumption and reducing our reliance on resource extraction. Further priorities include fostering energy security and economic resilience by reducing dependence on external energy sources. All these aims overlap in one common policy: accelerating the renewable energy capacity deployment. Complementing this paradigm shift is the complete electrification of economic activities and households, resulting in the need to incentivize green electricity generation. In this context, this book undertakes a comprehensive exploration of the regulatory framework underpinning the advancement of green electricity. After reviewing the political and economic dimensions, it offers an exhaustive analysis of ongoing developments in four legal domains: The WTO, EU, Germany, and Turkey. Furthermore, the book presents a legal analysis of the intricate interplay between the WTO and EU law coupled with the German and Turkish models. It focuses on the most topical and relevant issues, including the effect of the ongoing energy crisis on state aid for green electricity in the EU; WTO case law on local content requirement components of the promotion schemes; the intricate legal, economic, and political challenges that accompany Germany's Energiewende and its phasing out of coal and nuclear energy; and Turkey's regulatory endeavors to bolster its energy self-sufficiency strategy. Following a thorough examination encompassing theoretical, regulatory, and comparative aspects, the book moves beyond the applicable legal framework to make concrete proposals on the future design of green electricity promotion in Germany and Turkey so as to facilitate a rapid but socially equitable energy transition by incentivizing economic efficiency.

Emotion as Promotion Rick Valicenti,2005 From innovative fonts and commercial logos to products and artists' books, the work of graphic design collective Thirst is unmistakable: dazzling in form, intellectually challenging, incorporating Real Human Presence, just over the edge of the Discomfort Zone. The firm is known not only for fusions of text and image but for the emotion and strength that pervade the work. Thirst hallmarks include striking color photographs, creative computer manipulation, the use of new media, and challenges offered to the reader/viewer (and sometimes to the client as well). The first monograph on the design group, Emotion as Promotion is an exuberant manifesto, a collective autobiography, and a brutally honest heart-to-heart with the next generation of design. It showcases work known (designs for Gilbert Paper, Gary Fisher Mountain Bikes, Wired magazine, and Absolut vodka), unknown (unimplemented identities for iXL and U.S. Robotics), and notorious (the Just My Type nude alphabet, the Want photo shoot for RayGun). Thirst principal Rick Valicenti and his colleagues tell the tales of each project, offering sometimes funny, sometimes wry assessments of the client, the end result, and all stages in between.

Cross-media Promotion Jonathan Hardy,2010 Cross-media promotion is one of the most salient characteristics in our modern media systems, arising out of a context that involves virtually every level of media studies: media ownership, advertising and funding, technological trends, and regulatory issues--- the latter a specialty of the author of this book. These factors often work together, and Hardy is masterful in interweaving in an insightful but accessible way the complexity of media promotion.---From the Foreword by Matthew. P. McAllister, Penn State University --Book Jacket.

Advertising and Promotion Dr. Chris Hackley,2005-01-26 A readable and absorbing account of what advertising people try to achieve (whether or not they know quite how or why), grounded in Chris Hackley's real and recent acquaintance with the practicalities of advertising, as well as its principles.... He minimises the inevitable jargon of linguistics and communication theory. His own language is always accurate and clear, and often engaging. The well managed flow from chapter to chapter sustains interest and enjoyment. I read the book from cover to cover in one sitting. - INTERNATIONAL JOURNAL OF ADVERTISING Professor Hackley's

book provides a timely reminder to student and practitioner alike that advertising continues to play a key role in the successful planning and implementation of marketing communications. Underpinned by a series of topical and often thought-provoking illustrations, this work not only explains how advertising is developed, but also presents the discipline in the wider context of socio-cultural and linguistic research. Working from a practical advertising management basis, the text raises some key issues for advertising as focus for academic and intellectual study. - Chris Blackburn, The Business School, Oxford Brookes University, formerly Account Director at Foote, Cone & Belding, Leagas Delaney and Boase Massimi Pollitt Dr Hackley has an uncommon approach to advertising. His book combines the abstract theory of advertising and its effects with a hard-nosed practical approach. It is a guide to understanding and appreciating advertising and a way to understand how and why advertising works or why it does not. I think that this book is a fine text for students. Even more, it deserves to be read by advertising practitioners. - Arthur J. Kover, former editor of the Journal of Advertising Research, Management Fellow at the Yale School of Management Advertising and Promotion is not only a detailed and insightful account of how advertising is created; the book also explains how advertising comes to cast its all-enveloping shadow over contemporary consumer culture. Many case examples drawn from major international campaigns are used to illustrate the power of advertising to portray brand `personalities' in terms that resonate with consumers across many cultures. It contains detailed coverage of the major areas of advertising and marketing communications but it is not a simplistic treatment. Advertising and Promotion takes a novel intellectual approach and draws on concepts from the wider humanities and social sciences to cast fresh light on an over-familiar subject matter. It uniquely combines detailed case information, current research and lively topical issues to offer an authoritative and comprehensive account of advertising's pre-eminent role in contemporary marketing communications. It is an advanced student text, a reflective practitioner's handbook and an insightful account for the general reader.

The Americanization of European Union Democracy Promotion José M. Magone,2023-11-03 The Americanization of European Union Democracy Promotion: Ideology, Diversity, and United States Hegemony is a timely and thought-provoking exploration of the origins, development and growing prominence of international democracy promotion in the past hundred years.

Workers at War Joshua H. Howard,2004-09-29 This book focuses on the lives, struggles, and contrasting perspectives of the 60,000 workers, military administrators, and technical staff employed in the largest, most strategic industry of the Nationalist government, the armaments industry based in the wartime capital, Chongqing. The author argues that China's arsenal workers participated in three interlocked conflicts between 1937 and 1953: a war of national liberation, a civil war, and a class war. The work adds to the scholarship on the Chinese revolution, which has previously focused primarily on rural China, showing how workers' alienation from the military officers directing the arsenals eroded the legitimacy of the Nationalist regime and how the Communists mobilized working-class support in Chongqing. Moreover, in emphasizing the urban, working-class, and nationalist components of the 1949 revolution, the author demonstrates the multiple sources of workers' identities and thus challenges previous studies that have exclusively stressed workers' particularistic or regional identities.

Glory Denied Tom Philpott,2001 Glory Denied is the harrowing and heroic story of Floyd Jim Thompson, captured in March 1964, who became the longest-held prisoner of war in American history. Tom Philpott juxtaposes Thompson's capture, torture, and multiple escape attempts with the trials of his young wife, Alyce, who, feeling trapped, made choices that forever tied her fate to the war she despised. One of the most honest books ever written about Vietnam (Oliver Stone), Glory Denied demands that we rethink the definition of a true American hero.
