**Essentials of Medical Geology** Olle Selinus, 2013-03-30 Essentials of Medical Geology reviews the essential concepts and practical tools required to tackle environmental and public health problems. It is organized into four main sections. The first section deals with the fundamentals of environmental biology, the natural and anthropogenic sources of health elements that impact health and illustrate key biogeochemical transformations. The second section looks at the geological processes influencing human exposure to specific elements, such as radon, arsenic, fluorine, selenium and iodine. The third section presents the concepts and techniques of pathology, toxicology and epidemiology that underpin investigations into the human health effects of exposure to naturally occurring elements. The last section provides a toolbox of analytical approaches to environmental research and medical geology investigations. *MaxiMarketing* Stan Rapp, Thomas L. Collins, 1989 Demonstrates the nine basic steps in using a computerized data base to focus advertising on prime prospects, and explains how to make advertising more cost-effective

Handbook of Adolescent Health Risk Behavior Ralph J. DiClemente, William B. Hansen, Lynn E. Ponton, 2013-11-21 Adolescence is a developmental period of accelerating physical, psychological, social! cultural, and cognitive development, often characterized by confronting and surmounting a myriad of challenges and establishing a sense of self-identity and autonomy. It is also, unfortunately, a period fraught with many threats to the health and well-being of adolescents and with substantial consequent impairment and disability. Many of the adverse health consequences experienced by adolescents are, to a large extent, the result of their risk behaviors. Many adolescents today, and perhaps an increasing number in the future, are at risk for death, disease, and other adverse health outcomes that are not primarily biomedical in origin. In general, there has been a marked change in the causes of morbidity and mortality among adolescents. Previously, infectious diseases accounted for a disproportionate share of adolescent morbidity and mortality. At present, however, the overwhelming toll of adolescent morbidity and mortality is the result of lifestyle practices.

**Justice in Robes** Ronald Dworkin, 2008-04-30 How should a judge's moral convictions bear on his judgments about what the law is? Lawyers, sociologists, philosophers, politicians, and judges all have answers to that question: these range from 'Nothing' to 'Everything.' In *Justice in Robes*, Ronald Dworkin argues that the question is much more complex than it has often been taken to be and charts a variety of dimensions—semantic, jurisprudential, and doctrinal—in which law and morals are undoubtedly interwoven. He restates and summarizes his own widely discussed account of these connections, which emphasizes the sovereign importance of moral principle in legal and constitutional interpretation, and then reviews and criticizes the most influential rival theories to his own. He argues that pragmatism is empty as a theory of law, that value pluralism misunderstands the nature of moral concepts, that constitutional originalism reflects an impoverished view of the role of a constitution in a democratic society, and that contemporary legal positivism is based on a mistaken semantic theory and an erroneous account of the nature of authority. In the course of that critical study he discusses the work of many of the most influential lawyers and philosophers of the era, including Isaiah Berlin, Richard Posner, Cass Sunstein, Antonin Scalia, and Joseph Raz. Dworkin's new collection of essays and original chapters is a model of lucid, logical, and impassioned reasoning that will advance the crucially important debate about the roles of justice in law.

**Notes from the Hyena's Belly** Nega Mezlekia, 2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

**Medical Geology** Olle Selinus, Robert B. Finkelman, Jose A. Centeno, 2010-06-27 Medical Geology is a rapidly growing field concerned with the relationship between natural geological factors and human and animal health, as well as with improving our understanding of the influence of environmental factors on the geographical distribution of health problems. This book brings together the work of geoscientists and medical/public health researchers, which addresses health problems caused, or exacerbated by geological materials (rocks, minerals, atmospheric dust and water) and processes (including volcanic eruptions and earthquakes. Among the environmental health problems discussed in this book are: exposure to toxic levels of trace essential and non-essential elements such as arsenic and mercury; trace element deficiencies; exposure to natural dusts and to

radioactivity; naturally occurring organic compounds in drinking water; volcanic emissions, etc. The text also deals with the many health benefits of geologic materials and processes. This wide-ranging volume covers issues in medical geology all over the world with each author covering their respective region. It provides examples from different continents as well as a state-of-the-art review of the latest developments in the discipline. The authors are all recognized geoscientific and medical experts working in the field. The book is written for a wide variety of specialists from geologists, geochemists, pathologists and medical doctors to veterinarians and biologists.

**Alice in Wonderland and the World Trade Center Disaster** David Icke, 2002 Since the horrendous day of September 11th 2001, the people of the world have been told the Big Lie. The official story of what happened on 9/11 is a fantasy of untruth, manipulation, contradiction and anomaly. David Icke has spent well over a decade uncovering the force that was really behind those attacks and has travelled to 40 countries in pursuit of the truth. He has exposed their personnel, methods and agenda in a series of books and videos.

**Man Jesus Loved** Theodore W. Jr. Jennings, Theodore W. Jennings, 2009-06-24 Homosexuality has been at the forefront of debate in the church for the last quarter-century, with Biblical interpretation at the heart of this debate. Some biblical passages appear to condemn certain same-sex relationships or erotic practices, resulting in a challenge to clergy as well as laity regarding the preaching and understanding of these Biblical passages. In *The Man Jesus Loved*, Jennings proposes a gay-affirmative reading of the Bible in the hope of respecting the integrity of these texts and making them more clear as well as persuasive. This reading suggests that the exclusion of persons on the basis of their sexual orientation or same-sex practices fundamentally distorts the Bible generally and the traditions concerning Jesus in particular.

Mulheres de Ditadores DIANE DUCRET, 2012-02-28 Chamavam-se Inessa, Clara, Nadia, Magda, Felismina, Jiang Qing, Elena, Catherine... E eles Lenine, Mussolini, Estaline, Hitler, Salazar, Mao, Ceausescu, Bokassa. Prostitutas ou mulheres da alta burguesia intelectual, paixões fugazes ou amores intensos, eles maltratavam ou adoravam-nas, mas, sistematicamente, voltavam para os seus braços. Esposas, companheiras, musas, admiradoras, todas têm em comum o facto de terem sido vencedoras, enganadas e sacrificadas. Aos seus homens cruéis, violentos, tiranos e infiéis, faziam crer que eram belos, charmosos e todo-poderosos. Sendo a virilidade um dos alicerces do poder absoluto, os ditadores sentiam a necessidade de juntar figuras femininas ao imaginário de poder e domínio que criaram. E assim controlando-os na sombra, por vezes, até à morte, como se vivessem sob a égide de um Pigmalão. Diane Ducret relata em detalhe os momentos, as estratégias de sedução, os casos amorosos, as intervenções políticas e os destinos diversos, ocasionalmente trágicos, das mulheres que cruzaram o caminho ou passaram pelo leito dos ditadores.

**Justice for Hedgehogs** Ronald Dworkin, 2011-05-03 In Dworkin's master work, the central thesis is that all areas of value depend on one another. This is one, big thing that the hedgehog knows, in contrast to the fox, who knows many little things. Dworkin's understanding of the relationship—between ethics, morality, and political morality—is significantly revised and also greatly elaborated. He argues that “dignity” is the essential core of living well and that a satisfactory account of dignity would, in turn, point to two principles. The first states that it is objectively important that each person's life go well; and the second that each person has a special responsibility for identifying what counts as success in his or her own life. Dworkin believes that values cohere and that in order to defend that coherence he has to take up a broad variety of philosophical issues

that are not normally treated in one book. He discusses the metaphysics of value, the character of truth, the nature of interpretation, the conditions of agreement and disagreement, the phenomenon of moral responsibility and the problem of free will as well as more substantive issues of ethical, moral and legal theory.

*Lagos\_2060* Ayodele Arigbabu, 2013-10-01 What will it be like to live in Lagos 100 years after Nigeria gained independence from the British? In 2010, eight writers came together to contribute stories to an anthology on fictional / futuristic takes on the city of Lagos via a workshop tagged LAGOS\_2060, conceived to commemorate Nigeria's golden jubilee. The anthology that grew out of the workshop is telling in the different versions of the future it foretells. In LAGOS\_2060 - an unusual scenario planning exercise achieved through the power and magic of a creative writing programme - there are climate change induced natural disasters actively plugged by doomsday preachers of the day, there are serious government institutions involved in first rate science and more often than not, these institutions tackle and solve the energy crisis to various degrees of success. There are wars and near wars as Lagos threatens to secede from the Nigerian state to have full control of its own economy. There are robots, amphibious speed trains, psychedelic drugs and highly trained security operatives with conflicts of interest, but more importantly, there are the ubiquitous Lagos people, whose industry and inventiveness seems largely unchanged, despite how much their city has travailed in the intervening half century.
