The Punjab Story Amarjit Kaur, Lt Gen Jagjit Singh Aurora, Khushwant Singh, MV Kamanth, Shekhar Gupta, Subhash Kirpekar, Sunil Sethi, Tavleen Singh, 2012-08-10 6 June 1984: The Indian Army storms the Golden Temple in Amritsar. Called Operation Bluestar, the historic and unprecedented event ended the growing spectre of terrorism perpetrated by the extremist Sikh leader Jarnail Singh Bhindranwale and his followers once and for all. But it left in its wake unsolved political questions that continued to threaten Punjab's stability for years to come. How, in a brief span of three years, did India's dynamic frontier state become a national problem? Who was to blame: the central government for allowing the crisis to drift despite warnings, or the long-drawn-out Akali agitation, or the notorious gang of militants who transformed a holy shrine into a sanctuary for terrorists? First published two months after Operation Bluestar, *The Punjab Story* pieces together the complex Punjab jigsaw through the eyes of some of India's most eminent public figures and journalists. Writing with the passion and conviction of those who were involved with the drama, they present a wide-ranging perspective on the past, present and future of the Punjab tangle; and the truth of many of their conclusions having been borne out by time.

It shows how the terror was spawned, sustained and then suppressed behind those barriers. Probing the connections between mass atrocities and the miasma of hegemonic narratives, the book demonstrates that a socially deliberative space of plural understanding of political conflicts is the first prerequisite for the rectification of all abuses of power. Coming from a witness and the biographer of Punjab's recent history who remains dedicated to people's rights to truth, justice and reparation, the

book deserves the attention not only of the students of political conflict and the media but also the community of human rights activists, academics and others who grapple with the issues of historical accountability worldwide.

Political Economy of the Punjab Pritam Singh, 1997 The book unravels how the implementation of certain socio-economic programmes unleashed tremendous negative forces which are now threatening the stability of the nation-state. It is a very rewarding and fascinating study. In emerging political scenario the regionalism has come to fore and is likely to play a very crucial role in shaping the density of India. The study removes many cobwebs and helps in seeing futuristic reality more clearly. The lessons learnt in the Punjab would help avoiding the pitfalls in the path of economic development in other states of the Union. The experience gained in the Punjab would be of interest to all the Third World countries also.

Indigeneity and Occupational Change Birinder Pal Singh, 2019-08-29 This book is about the presence of the absent— the tribes of Punjab, India, many of them still nomadic, constituting the poorest of the poor in the state. Drawing on exhaustive fieldwork and ethnographic accounts of more than 750 respondents, it explores the occupational change across generations to prove their presence in the state before the Criminal Tribes Act was implemented in 1871. The archival reports reveal the atrocities unleashed by the colonial government on these people. The volume shows how the post-colonial government too has proved no different; it has done little to bring them into the mainstream society by not exploiting their traditional expertise or equipping them with modern skills. This book will be of great interest to scholars of sociology, social anthropology, social history, public policy, development studies, tribal communities and South Asian studies.

The Indian Army and the Making of Punjab Rajit K. Mazumder, 2003 A handful of Englishmen controlled the vast British Indian empire for nearly 200 years. Throughout this period, the colonials who ran the empire (viceroys, bureaucrats, military men, police officers) constituted a minuscule minority of the Indian population. That a few thousand British men dominated so many million Indians for so long via native collaborators (feudal princes, educated babus, peasant recruits) has long been known. This book looks closely at the Indian army in order to show precisely how

collaboration worked to sustain a national empire and a local economy. Show More Show Less.

Federalism, Nationalism and Development Pritam Singh,2008-02-19 This book throws new light on the study of India's development through an exploration of the triangular relationship between federalism, nationalism and the development process. It focuses on one of the seemingly paradoxical cases of impressive development and sharp federal conflicts that have been witnessed in the state of Punjab. The book concentrates on the federal structure of the Indian polity and it examines the evolution of the relationship between the centre and the state of Punjab, taking into account the emergence of Punjabi Sikh nationalism and its conflict with Indian nationalism. Providing a template to analyse regional imbalances and tensions in national economies with federal structures and competing nationalisms, this book will not only be of interest to researchers on South Asian Studies, but also to those working in the fields of politics, political economy, geography and development.

Imagining Punjab, Punjabi and Punjabiati in the Transnational Era Anjali Gera Roy,2017-10-02 This book moves away from originary myths of region and identity that have dominated academic and mediatized representations of Punjab, a land-locked region divided between India and Pakistan after the Partition of 1947, and instead focuses on the role of the imagination in producing Punjab. It deconstructs Punjab as an ethno-spatial, ethno-linguistic and ethno-cultural construct produced by the communities who dwell there, those who have left it and those formed by new narratives of the region. By isolating imaginings of Punjab that are not centred on exclusivist regional, linguistic, sectarian or caste perspectives, contributions to this book propose the concept of free-flowing cartographies in relation to Punjab, which facilitate its imaginings as a geographical region, a social construct and a state of consciousness. The region is simultaneously imagined as a small place, a neighbourhood, a city, and a village, but also as a performative practice and a certain ways of doing things. Through focusing on a number of Punjabi spaces and communities and engaging with Punjab as a geographical region, social construct and state of consciousness, the papers in the book hope to contribute to broader debates on transnationalism, postnationalism, micronationalism, and new identity narratives emerging in the twenty first century. This book was originally published as a special issue of South Asian Diaspora.
