different, someone different. No one was fiercer at war than Hamish MacHugh, though now the soldier faces a whole new battlefield: a London Season. To make his sisters happy, he'll take on any challenge--even letting their friend Miss Windham teach him to waltz. Megan isn't the least bit intimidated by his dark reputation, but Hamish senses that she's fighting battles of her own. Web Mining Applications in E-Commerce and E-Services I-Hsien Ting,Hui-Ju Wu,2009-01-24 Web mining has become a popular area of research, integrating the different research areas of data mining

and the World Wide Web. According to the taxonomy of Web mining, there are three sub-fields of Web-mining research: Web usage mining, Web content mining and Web structure mining. These three research fields cover most content and activities on the Web. With the rapid growth of the World Wide Web, Web mining has become a hot topic and is now part of the mainstream of Web - search, such as Web information systems and Web intelligence. Among all of the possible applications in Web research, e-commerce and e-services have been iden- fied as important domains for Web-mining techniques. Web-mining techniques also play an important role in e-commerce and e-services, proving to be useful tools for understanding how e-commerce and e-service Web sites and services are used, e- bling the provision of better services for customers and users. Thus, this book will focus upon Web-mining applications in e-commerce and e-services. Some chapters in this book are extended from the papers that presented in WMEE 2008 (the 2nd International Workshop for E-commerce and E-services). In addition, we also sent invitations to researchers that are famous in this research area to contr- ute for this book. The chapters of this book are introduced as follows: In chapter 1, Peter I.

A deeply moving, sometimes funny, and always provocative poetry collection for all ages. "How much have you thrown away in your lifetime already? Do you ever think about it?
