Desi Divas Christine Garlough, 2013-02-21 *Desi Divas: Activism in South Asian American Cultural Performances* is the product of five years of field research with progressive activists associated with the School for Indian Languages and Cultures (SILC), South Asian Americans Leading Together (SAALT), the feminist dance collective Post Natyam, and the grassroots feminist political organization South Asian Sisters. Christine L. Garlough explores how traditional cultural forms may be critically appropriated by marginalized groups and used as rhetorical tools to promote deliberation and debate, spur understanding and connection, broaden political engagement, and advance particular social identities. Within this framework she examines how these performance activists advocate a political commitment to both justice and care, to both deliberative discussion and deeper understanding. To consider how this might happen in diasporic performance contexts, Garlough weaves together two lines of thinking. One grows from feminist theory and draws upon a core literature concerning the ethics of care. The other comes from rhetoric, philosophy, and political science literature on recognition and acknowledgment. This dual approach is used to reflect upon South Asian American women's performances that address pressing social problems related to gender inequality, immigration rights, ethnic stereotyping, hate crimes, and religious violence. Case study chapters address the relatively unknown history of South Asian American rhetorical performances from the early 1800s to the present. Avant-garde feminist performances by the Post Natyam dance collective appropriate women's folk practices and Hindu goddess figures make rhetorical claims about hate crimes against South Asian Americans after 9/11. In *Yoni ki Bat* (a South Asian American version of *The Vagina Monologues*) a progressive performer transforms aspects of the Mahabharata narrative to address issues of sexual violence, such as incest and rape. Throughout the volume, Garlough argues that these performers rely on calls for acknowledgment that intertwine calls for justice and care. That is, they embed their testimony in traditional cultural forms to invite interest, reflection, and connection.

A mango . . . is just one thing. But if I chop it in two, then chop the half in two, and keep on chopping, I get more and more bits, on and on, endlessly, to an infinity I could never ever reach. In 1887 in India, a boy named Ramanujan is born with a passion for numbers. He sees numbers in the squares of light pricking his thatched roof and in the beasts dancing on the temple tower. He writes mathematics with his finger in the sand, across the pages of his notebooks, and with chalk on the temple floor. “What is small?” he wonders. “What is big?” Head in the clouds, Ramanujan struggles in school – but his mother knows that her son and his ideas have a purpose. As he grows up, Ramanujan reinvents much of modern mathematics, but where in the world could he find someone to understand what he has conceived? Author Amy Alznauer gently introduces young readers to math concepts while Daniel Miyares’s illustrations bring the wonder of Ramanujan’s world to life in the inspiring real-life story of a boy who changed mathematics and science forever. Back matter includes a bibliography and an author’s note recounting more of Ramanujan’s life and accomplishments, as well as the author’s father’s remarkable discovery of Ramanujan’s Lost Notebook.
