Matisse's Garden Samantha Friedman, Henri Matisse,2014-10-07 One day, Henri Matisse (1869-1954) cut a small bird out of a piece of white paper. It was a simple shape, but he liked the way it looked and didn't want to throw it away, so he pinned it to the wall of his room. But the bird looked lonely all by itself, so he cut out more shapes to join it, and before he knew it, he had transformed his walls into larger-than-life gardens filled with brightly coloured plants and animals and shapes of all sizes. Featuring colourful cut-paper illustrations and Matisse's own cut-outs, *Matisse's Garden* is the inspiring story of how the artist's never-ending curiosity and continuous process of trying new things helped turn a small experiment into a radical new form of art. Children will see how Matisse used nothing but paper and scissors to create simple shapes like squares, leaves and

birds, and experimented with scraps of leftover paper and new colour combinations to create lush gardens on his studio walls.

THE BOUNDS Kamala Narasimha, 2014-09-19 There are communities in the India of today that find themselves in the cleft stick of having to speak without having a language to speak in. For example, LGBT's, farming communities, the labour classes, the artisan classes, classes of people generally that inhabit the backwaters of society. About 50% of the country's women hasn't found such a language or medium to express itself. Man has been double-crossing woman, denying her the voice to speak up. In this third novel of the author, there is an attempt to discover unshackled new paths. This novel negotiates with it at two levels. To begin with, her physical body is woman's language. She speaks through its enormous 'performing, creating, authoring ability', its vitality and sympathy with the world. The novel engages in an in-depth exploration of woman's independent or autonomous situatedness in life. Woman is not weak. But she is made weak. Without a husband and with no material object or framework as an anchor, Savitri goes about building life not for herself or for her children, but for firming up the bond between her human

environment and nature: she does it through decentralizing power centres that . are arrayed in front of her.

Feeding a Thousand Souls Vijaya Nagarajan,2018-10-12 Every day millions of Tamil women in southeast India wake up before dawn to create a kolam, an ephemeral ritual design made with rice flour, on the thresholds of homes, businesses and temples. This thousand-year-old ritual welcomes and honors Lakshmi, the goddess of wealth and alertness, and Bhudevi, the goddess of the earth. Created by hand with great skill, artistry, and mathematical precision, the kolam disappears in a few hours, borne away by passing footsteps and hungry insects. This is the first comprehensive study of the kolam in the English language. It examines its significance in historical, mathematical, ecological, anthropological, and literary contexts. The culmination of Vijaya Nagarajan's many years of research and writing on this exacting ritual practice, *Feeding a Thousand Souls* celebrates the experiences, thoughts, and voices of the Tamil women who keep this tradition alive.
