*Broken Record* Henry Schipper,1992 Broken Record is the first book ever written about the intriguing, checkered, and often hilarious history of the Grammys. In 1958, a group of record executives, alarmed by the explosive success of rock 'n' roll - and the threat rock posed to quality pop - launched the Grammy Awards. Their aim: to cultivate a higher standard of popular taste. From the start, the Grammys have been at odds with and often scornful of not only rock but every other wave of rebellious, street-bred music, from R&B to Woodstock, new wave, and rap. Conservative Grammy voting has led to a long list of follies. Many, if not most, of the best recordings of the last thirty years have failed to win a Grammy, including seminal records by Bob Dylan, the Rolling Stones, Marvin Gaye, Bruce Springsteen, John Coltrane, Merle Haggard, and many, many others. Grammy voters, meanwhile, have lavished awards on the likes of Glen Campbell, Toto, Christopher Cross, and Milli Vanilli. In 1965, the Beatles lost to the Anita Kerr Singers for the Best Pop Vocal Prize. Of course, there have been some shining moments as well - moments which this book recounts: stirring performances, deserving winners, poignant acceptance speeches. Here, after more than three decades of Grammys, Broken Record presents a complete history, with year-to-year highlights, backstage drama, and profiles of dozens of artists. Includes a complete listing of all the Grammy winners.

How to Ru(i)n a Record Label Larry Livermore,2015 In 1987, off-the-grid punk agitator Larry Livermore began documenting the burgeoning DIY East Bay punk rock scene with the newly founded Lookout Records. He had no idea this little label, first run out of his solar powered cabin in the Northern California mountains, then a cramped room in the backstreets of Berkeley, would rise to international prominence, introducing the world to the likes of Green Day, Operation Ivy, and a host of other artists. How To Ru(i)n A Record Label documents the author's experiences from Gilman Street to Bialystok, Poland, as he built Lookout from the ground up, only to find himself losing control of the label a mere ten years later, and abruptly walking away from the multi-million dollar company when it was at its peak of success. Throughout that time, however, he was central to the influential scene that gave birth to Gilman Street, Maximum Rocknroll, and a new generation of independent music that has had an everlasting effect on both the underground and mainstream. In the process, he just might even have found himself.

**The Vinyl Frontier** Jonathan Scott,2019-03-21 'Bursts with gloriously geeky detail.' The Telegraph Have you ever made someone you love a mix-tape? Forty years ago, a

group of scientists, artists and writers gathered in a house in Ithaca, New York to work on the most important compilation ever conceived. It wasn't from one person to another, it was from Earth to the Cosmos. In 1977 NASA sent Voyager 1 and 2 on a Grand Tour of the outer planets. During the design phase of the Voyager mission, it was realised that this pair of plucky probes would eventually leave our solar system to drift forever in the unimaginable void of interstellar space. With this gloomy-sounding outcome in mind, NASA decided to do something optimistic. They commissioned astronomer Carl Sagan to create a message to be fixed to the side of Voyager 1 and 2 – a plaque, a calling card, a handshake to any passing alien that might one day chance upon them. The result was the Voyager Golden Record, a genre-hopping multi-media metal LP. A 90-minute playlist of music from across the globe, a sound essay of life on Earth, spoken greetings in multiple languages and more than 100 photographs and diagrams, all painstakingly chosen by Sagan and his team to create an aliens' guide to Earthlings. The record included music by J.S. Bach and Chuck Berry, a message of peace from US president Jimmy Carter, facts, figures and dimensions, all encased in a golden box. The Vinyl Frontier tells the story of NASA's interstellar mix-tape, from first phone call to final launch, when Voyager 1 and 2 left our planet bearing their hopeful message from the Summer of '77 to a distant future.

**The story of Baby P** Jones, Ray,2014-07-16 In England in 2007 Peter Connelly, a 17 month old little boy - known initially in the media reporting as 'Baby P' - died following terrible neglect and abuse. Fifteen months later, his mother, her boyfriend and the boyfriend's brother were sent to prison. But media attention turned on those who worked to protect children, especially the social workers and their managers, who became the focus of the reporting and of the blame. This book tells what happened to 'Baby P', how the story was told and became focused on the social workers, its threatening consequences for those who work to protect children, and its considerable impact on the child protection system in England. This is the first book to draw together all evidence available on this high profile case and will make a unique and crucial contribution to the topic. It will make essential reading for everyone who is concerned about child protection and the care of children and about the media's impact. This revised edition contains a new Afterword bringing the story up to date.

Finalist for the PEN/John Kenneth Galbriath Award for Nonfiction, the Gotham Book Prize, and the ALA Stonewall Israel Fishman Nonfiction Award. A 2021 New York Times Book Review Notable Book and a New York Times Book Review Editors' Choice. Longlisted for the 2021 Brooklyn Public Library Literary Prize. One of NPR, New York, and The Guardian's Best Books of 2021, one of Buzzfeed's Best LGBTQ+ Books of 2021, one of Electric Literature's Favorite Nonfiction Books of 2021, one of NBC's 10 Most Notable LGBTQ Books of 2021, and one of Gay Times' Best LGBTQ Books of 2021. This is not reverent, definitive history. This is a tactician's bible. --Parul Sehgal, The New York Times Twenty years in the making, Sarah Schulman's Let the Record Show is the most comprehensive political history ever assembled of ACT UP and American AIDS activism In just six years, ACT UP, New York, a broad and unlikely coalition of activists from all races, genders, sexualities, and backgrounds, changed the world. Armed with rancor, desperation, intelligence, and creativity, it took on the AIDS crisis with an indefatigable, ingenious, and multifaceted attack on the corporations, institutions, governments, and individuals who stood in the way of AIDS treatment for all. They stormed the FDA and NIH in Washington, DC, and started needle exchange programs in New York; they took over Grand Central Terminal and fought to change the legal definition of AIDS to include women; they transformed the American insurance industry, weaponized art and advertising to push their agenda, and battled—and beat—The New York Times, the Catholic Church, and the pharmaceutical industry. Their activism, in its complex and intersectional power, transformed the lives of people with AIDS and the bigoted society that had abandoned them. Based on more than two hundred interviews with ACT UP members and rich with lessons for today's activists, Let the Record Show is a revelatory exploration—and long-overdue reassessment—of the coalition's inner workings, conflicts, achievements, and ultimate fracture. Schulman, one of the most revered queer writers and thinkers of her generation, explores the how and the why, examining, with her characteristic rigor and bite, how a group of desperate outcasts changed America forever, and in the process created a livable future for generations of people across the world.

This padded board book edition features the lyrics of the classic song, allowing children to follow along as Frosty comes to life and joyfully marches throughout town. With illustrations from the iconic TV special,

this addition to the Frosty brand is bound to become a holiday favorite.

*House of Leaves* Mark Z. Danielewski, 2000-03-07 "A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.
