Sport and Recreation in Canadian History Carly Adams,2020-10-16 Serving as a foundation for critical discussion about the importance of the past, Sport and Recreation in Canadian History covers the historical events, people, and moments that shape Canadian sport in the present and future. While this text focuses on sport and recreation practices on these lands now claimed by Canada, it is set within a larger historical context of interconnecting social and cultural practices to speak to the sustained tensions, complexities, and contradictions prevalent in Canadian society. The editor, Dr. Carly Adams, and her 17 contributing experts from across Canada bring the latest research in all areas of Canadian sport history to life and present a thorough look at the nation’s past events. The text challenges the dominant narratives and encourages students to think critically about Canadian sport history. It examines how gender, ethnicity, race, religion, ability, class, and other systems of oppression and privilege have shaped sport and recreation practices, with Canadian sporting culture reproducing many of the same oppressive systems that exist on the larger scale. Sport and Recreation in Canadian History separates itself from its competitors by providing an abundance of pedagogical aids. Sidebars highlighting prominent people provide glimpses of figures who made a significant impact on Canadian sport history. Transformative Moment sidebars focus on significant events as they relate to specific themes, such as gender, race, ethnicity, sexuality, or ability. A comprehensive timeline showcases where important events fell in relation to one another, while the text acknowledges the problem of presenting history in a linear way and provides a more nuanced discussion of time. Descriptions of primary source documents—such as newspaper articles, photographs, and historical documents—are accompanied by explanations of how sport historians work with these documents. Sport and Recreation in Canadian History asks readers to think differently about the history of Canadian sport, and it examines how past people, moments, and events continue to shape 21st-century sport.

Lake Mead National Recreation Area Jonathan Foster,2016-08-02 This book examines the creation, characteristics, and tribulations of the first United States National Recreation Area. It also addresses the National Park Service’s historic role in managing reservoir-based recreation in a uniquely arid region. First named the Boulder Dam Recreation Area, this parkland was created in 1936 by a memorandum of agreement between the National Park Service and the U.S. Bureau of Reclamation. Over the course of its existence, the area has served as a model for a subsequent system of National Recreation Areas. The area’s extreme popularity has, in combination with changing public attitudes regarding preservation and safety, presented the National Park Service with tremendous challenges in recent decades. Jonathan Foster’s examination of these challenges and the responses to them reveal an increasingly anxious relationship between the government, the public, and special interest groups in the American West.
