**Company Analysis of Red Bull** Bernd Bodner,2011-04-14 Seminar paper from the year 2010 in the subject Business economics - Offline Marketing and Online Marketing, grade: B+, Griffith University, language: English, abstract: Red Bull gives you wings! Nearly nobody never heard this slogan in his life or saw it somewhere or at least tried a sip of Red Bull. The Austrian company polarizes: Its taste, its marketing or the supposed health harming ingredients in this drink. Red Bull is the world's leading manufacturer of energy drinks through its Red Bull brand. Its energy drink is exclusively produced in Austria and consumed in more than 100 countries worldwide - throughout Europe and many parts of North and South America, Africa and Australia. (Datamonitor, 2004) The drink made the founder of the company Dietrich Mateschitz to the 2nd richest Austrian and the number 208 in the world. (Forbes, 2010) This paper will have a look on a short history of the company of Red Bull and the core sources of innovation. Secondly it will try to identify and discuss the individual skillset of Red Bull. Furthermore it will go on with the writers analysis of the company and end with the external factors which the company must react on in the future. This section will also address the writers recommendations to the management of the company.

*Creating a Brand Culture and Brand Campaigning* Lioba Frings,2020-01-08 Essay from the year 2015 in the subject Communications - Public Relations, Advertising, Marketing, Social Media, grade: 1.3, Swansea University, course: Strategy, Marketing and Branding, language: English, abstract: "Brands occupy an increasingly prominent place in [...] the cultural landscape" (Schroeder et al, 2006). This is why brands need more than just their products to create a costumer base, to establish a superior position in their specific market and keep this position long-term. Red Bull does that in various ways. The brand is connected to a range of different events, sports and music. These serve as advertising and communication channels for Red Bull as well as expands the idea of their products from just drinks to part of a cultural habit. "Red Bull gives you wings" (Red Bull, 2016) is what has been used as the slogan since its energy drinks have been introduced to the market in 1987 (see Red Bull, 2016). The aspect of reaching one's highest potential is the core motivation for making connections with the previous mentioned areas.

*When a brand gets wings. Red Bull's secret of marketing success* Sabine Buchholz,2008-01-29 Essay from the year 2005 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,0, University of Southampton (University of Southampton - Centre for Language Study), course: Intermediate English for Business, language: English, abstract: The high energy drink Red Bull has been profitably sold since 1987. The company's figures confirm its success around the world. Red Bull's secret is an extraordinary marketing consisting mainly of the organisation of fun sport events to create a cool image and make teenagers loyal costumers. With this unique concept the enterprise will go on governing the growing energy drink branch.

Network and relationship allocation and identification for the Red Bull Company in Thailand Benjamin Bach,2007-07-02 Essay from the year 2007 in

the subject Business economics - Offline Marketing and Online Marketing, grade: 1st, University of Lincoln (Faculty of Business & Law), course: Global Relationship Marketing, language: English, abstract: This report critically analyses the network allocation and identification for the Red Bull Company in Thailand, and highlights strategic focal net implications in developing this emerging market. The first part of this report will determine major focal networks in Thailand by applying theoretical models to highlight and categorise the most crucial key market domains Red Bull needs to be connected with, while consolidating a position in the Thai functional beverage market. The second part of this essay aims to identify possible strategic implications, in order to build a solid and long-lasting position in the Thai market while collaborating with its potential network constituents. As business networks are getting increasingly important as a powerful tool for strategic business development (McAuley, 2001) and uncertainty attenuation whilst expanding business operations in foreign countries (Hollensen, 2004).

Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria Julia Teigeler, Ann-Katrin Hahne, 2014-05-27 Seminar paper from the year 2014 in the subject Business economics - Offline Marketing and Online Marketing, grade: 2,0, University of Applied Sciences Essen, language: English, abstract: In this assignment named „Market Analysis of Red Bull based on the countries Germany, Switzerland and Austria“ the goal is to analyse the market of Red Bull with its competitors, customers and market position. Red Bull is a company and brand founded in 1987 with its slogan “Red Bull gives you wings”. The company launched by Dietrich Mateschitz sold more than 35 billion cans until now and is available in more than 165 countries. The brand is well known because of the large amount of athletes in sports and extreme sports sector they are supporting. They are having their own sport events and additionally teams in such different sectors like e.g. football, formula 1 or flying. The biggest event they were supporting in the last years was the jump up from stratosphere of Felix Baumgartner. Red Bull had also had some problems in the past not only with new out coming competitors. But in some countries are legal requirements to enter the market and health concerns are producing negative publicity because they were warning customers that the drink can harm healthiness. Other points which are influencing the market position are that the price is very high and the competitive prices compared are much cheaper. Positive points to mention are that Red Bull helps it's customers to overlap working much hours and to support them doing diet or sports more effective. Another important point is that the company is always using newest technology. The disadvantage is that there are many competitors with cheaper prices and Red Bull itself has a small product portfolio (only six different drinks). All in all it can be said, that they are the market leader with a big growth in other countries and are seen as unique by the consumers. They have an attractive image and they are offering not only a drink but an experience. This is what creates their unique selling proposition in a way with a clear brand personality combined with an emotional binding and a high public interest. Their positioning in the market is very high levelled what is caused by the “old” but also “modern” slogan, that's a high premium drink and not linked to a specific activity. But to bear in mind is that it would become more difficult to hold the market leadership and justify premium pricing as well as their production methods.

*Wings of Change* Karan Tejwani, 2020-11-09 *Wings of Change* is the story of how the world's biggest energy drinks company made its mark in football. After years of success in beverages and extreme sports, Red Bull took over their local club, SV Austria Salzburg, controversially changing its name, crest, colors, and history. While Red Bull were going strong, they faced a backlash from supporters who claimed they were damaging the integrity of the sport. Angry displays were seen at the ground and fans formed a phoenix club to honor the history of their former team. Similar projects soon followed in New York, Leipzig, São Paulo, and Sogakope and again provoked hostility. Within a few years, Red Bull had captured the attention of the footballing world, developing an exciting line of talent across the globe. Now an established force in football, Red Bull's two most successful teams, RB Salzburg and RB Leipzig, are more prominent than ever. This book reveals how Red Bull changed the game, exploring their successes, controversies, and innovations.

**When a Brand Gets Wings** Sabine Buchholz, 2008-02 Essay from the year 2005 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,0, University of Southampton (University of Southampton - Centre for Language Study), course: Intermediate English for Business, 10 entries in the bibliography, language: English, abstract: The high energy drink Red Bull has been profitably sold since 1987. The company's figures confirm its success around the world. Red Bull's secret is an extraordinary marketing consisting mainly of the organisation of fun sport events to create a cool image and make teenagers loyal costumers. With this unique concept the enterprise will go on governing the growing energy drink branch.

**Analysis of the portfolio of Red Bull based on the BCG matrix** Martin Pruschkowski, 2018-07-16 Seminar paper from the year 2014 in the subject Business economics - Miscellaneous, University of applied sciences, Nürnberg, language: English, abstract: The objective of this work is to introduce and apply one of the most renowned strategic instruments in the portfolio analysis for the company's management – the BCG Matrix. By applying the BCG Model to the Red Bull Company current strength and weaknesses of the portfolio will be uncovered and based on the analysis a decisions can be made about selection, prioritization and alignment of SBU's to create a balance between risk and performance. Even Red Bull has already started to diversify into other businesses, rather than limiting itself to energy drinks the diversification strategy has not yet success so far, hence it can be expected an unbalanced and therefore risky portfolio.

**Product and Price Analysis of Red Bull in Central Europe** Julia Teigeler, Ann-Katrin Hahne, 2014-05-27 Seminar paper from the year 2014 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 2,0, University of Applied Sciences Essen, language: English, abstract: In this second assignment named „Product and Price Analysis of Red Bull in Central Europe“ the goal is to analyse the “product” and “price” strategy and to give a short overview of their “place” and “promotion” strategy. Red Bull as company was founded in 1987 with its slogan “Red Bull gives you wiilings”. The firm developed by Dietrich Mateschitz sold more than 35 billion cans until now and is available in more than 165 countries. The product is developed from a Thai energy drink and includes caffeine, taurine, B-Vitamines, saccharose, glucose and water, what can be consumed by people in many situations for their physical and social needs and Red Bull created an emotional binding. The product is only available in six different types but because of the well established brand and its young and modern image people have a positive association with it and so buy it. The Company has worldwide steady growth rates although it is sold at a very high price level with compared to that low production costs. In contrast to that the competitors’ products are much cheaper, but Red Bull sticks to their prices even many competitors entered the market.. But it can be said that Red Bull is aiming for an abnormal profit and concentrating on internal and marketing orientation when setting their prices. The consumers are paying for the “way of life” and the quality. To the place and promotion strategy can be said that Red Bull is available in 165 countries (in nearly ever little shop) but produced only in Austria and Switzerland. The company is widespread represented in sports sector where they are sponsoring much sportspersons and events. To summarize that it can be said that Red Bull is a very successful and powerful company and the world’s market leader in the energy drink sector but the challenge will be how to maintain the constant growth in revenue and market share. The authors hold the opinion that Red Bull should maintain developing their extreme sport sponsoring and should develop some new products as well as produce them from natural resources.

*A strategic analysis on the New York Red Bulls* Patricia Seitz, 2017-02-24 Seminar paper from the year 2016 in the subject Sport - Sport Economics, Sport Management, grade: -, Fairleigh Dickinson University, Metropolitan Campus, language: English, abstract: The following paper is about the New York Red Bulls and their strategic plan for the future. The first part introduces the organization and gives background information about why the topic was chosen and who the New York Red Bulls are. The second part is a SWOT analysis about the organization to see where they are doing well and where there are weaknesses in the organization. Next is an introduction to the strategy of the organization. This includes their vision, goals, objectives and culture. This is necessary because the next part is a introduction from other clubs and their strategy and what the Red Bulls can learn from their strategies. The outcome of the paper is that there are many different areas where the New York Red Bulls should create new strategies or work on their current ones. This paper only focuses on the branding of the organization and the popularity. It shows that there are some deficits in the ways of the communication with the community and also the advertisement for the games and events is not the best. There are a few opportunities what they can do to make this situation better and bring more people in to the stadium and make the brand more popular.

The company Red Bull was chosen as an area of study in order for us to be able to apply and test the theories in our course literature with the way things are done in reality. The choice of Red Bull was an obvious one because of its presence in the global marketplace as well as the group-members home countries. The course literature has been used as a point of reference when it comes to examining whether the company is standardizing or adapting and also regarding international marketing as a whole. Moreover, the paper will focus on the Czech Republic, France, Germany, and Sweden in correlation to the marketing Red Bull adopts in these countries.
