Making a Difference Joe Regenbogen, 2019-03-31 Irl Solomon graduated from Brandeis University in the early 1960s and immediately started to look for a teaching job in or near his hometown of St. Louis. Without giving it much thought, Irl, who had grown up in the middle-class inner suburbs of the Gateway City, took a job in the public schools of East St. Louis. At the time, this depressed metropolis that looks west across the Mississippi River and stares squarely at the Gateway Arch was a dying city. Always the stepchild compared to its considerably larger Missouri sister, East St. Louis was losing much of its population and tax base. In place of citizens came weeds, crime, and urban blight. By the late sixties, the East St. Louis school system had become one of the most dysfunctional in the nation. While the Sixties produced more than its fair share of idealistic young crusaders, many of whom saw teaching as a way to change the world, most moved on to more affluent schools or even other careers beyond education after just a few years. Irl Solomon did not. For 38 years, he made the long drive from his home west of St. Louis to teach in the schools east of the Mississippi. Over these many years, he changed many lives. This is the story of how one man devoted his career and his life to making a difference.

Questioning History Joe Regenbogen, 2020-10-06 Since the days of the Ancient Greeks, history has been perceived as the academic study of the past. Unfortunately, it has generally been taught as a litany of rigid, boring facts intended to be accepted rather than questioned. This has been reinforced for decades by weighty textbooks that overwhelm the reader with mind-numbing details presented in a chronological sequence. The end result is that students see little relevance of what they learn in history class to the real world, and many simply struggle to stay awake. Compared to other subjects taught at the secondary level, history is frequently judged to be the most boring. This is largely because it is viewed as an intellectually lifeless subject that presents few opportunities for active engagement. *Questioning History* is a book built around 16 essential questions designed to challenge this common assumption. Each question is broad, open-ended and subject to vigorous debate. By examining the historical background behind each question and by analyzing the ways in which the question can be answered, the reader will come away with a deeper understanding of the past and a new appreciation for history as a cognitively dynamic subject. In addition, by using each chapter as a platform for engaging discussions and Socratic seminars, the reader will be able to refine the decision-making skills necessary for effective citizenship in a democratic society. Depending on the classroom or the setting in which it is being used, *Questioning History* can either take the place of the more traditional textbook or at least be used as a supplement to make it come more alive. The best way to learn and to appreciate a subject is through active engagement. *Questioning History* provides a shot of adrenalin to the study of history.

Fleckhaus Carsten Wolff, 2017-04 Willy Fleckhaus (1925-1983) was one of the most innovative, creative and influential graphic designers in postwar Germany. He became internationally known for his groundbreaking work on the lifestyle magazine Twen, which attracted generations of readers with its generous layouts, modern typography and distinctive choice of house photographers such as (among others) Will McBride, Charlotte March, Guido Mangold, Reinhart Wolf. He invented the position of the art director, when this job description did not yet exist in Germany and earned himself the nickname of Germany's most expensive pencil. Beside his longterm involvement with Twen he worked for the Frankfurter Allgemeine Magazine (from 1980 onwards), the magazine Quick, developed book series such as Edition Suhrkamp with its famous rainbow-coloured covers, exhibition designs for the Photokina trade fair in Cologne, and the logo of the Westdeutscher Rundfunk broadcasting corporation. The book, the first comprehensive monograph on Willy Fleckhaus in an international edition, includes texts by Michael Koetzle and Carsten Wolff (who also took over the book design), both long time collectors of Fleckhaus work samples.

The Boys of Brookdale Joe Regenbogen, 2018-03-25 The author interviewed 16 Brookdale residents with memories from the Second World War and have written their stories into the chapters of this book. Among their accounts are a B-24 pilot shot down over the Pacific, two veterans from the Battle of the Bulge, a WAVE, a prisoner-of-war, and a Holocaust survivor.

Longs Peak Joe Regenbogen, 2022-01-31 Gordon appears to be living the good life. He is married, has two delightful children, owns a home in the western suburbs of St. Louis, and teaches popular history classes at the local high school. As Gordon approaches the midlife phase of his life, though, an event occurs one winter evening that leaves him wracked by guilt and remorse. Gordon's life soon plummets into a separation from his wife and a descent into mediocrity in his classroom. He only sees his children on Saturday afternoons and starts to question his veracity as a father. Gordon can barely face his own reflection in the mirror and even has visions of ending everything in a fiery crash. As the school year comes to a close, an old college friend reaches out to Gordon. Ben has problems of his own and has retreated to his family cabin on the western edge of Rocky Mountain National Park in Colorado. Although the two friends haven't communicated in years, Ben invites Gordon to spend the summer with him in the Rockies. Gordon quickly recognizes that a road trip might be his salvation. Over the next two months, the natural beauty of the American West proves to be seductive. Shorter hikes grow longer and the two friends are

soon making plans to relive their grueling hike up Longs Peak, the tallest mountain in the Northern Rockies. Facing this challenge might finally provide Gordon with the strength to confront his past and to face his future.

Relearning History Joe Regenbogen, 2018-01-15 For many students, the traditional approach to the study of history does not work. The litany of facts arranged in a chronological sequence often turns out to be mind numbing and forgettable. In addition, they see little relevance between the past and the world they live in today. Relearning History was written for those students. Instead of reviewing the traditional time line of the past, the focus is directed at questions relevant to the present. Why does the two-party system dominate American politics? Why is wealth so unevenly distributed? Why does race and gender still play such a large role in modern society? Why has there never been a World War Three? These "why" questions, along with 11 others, serve as the foundation for a discussion of history so that the study of the past is inexorably linked to an enhanced understanding of the present. Students who are currently enrolled in history classes can use Relearning History to supplement and enrich the traditional curriculum. Some may even want to use it in place of the traditional curriculum. As for those adults who have completed their formal education and never learned much in their earlier history classes, this book will give them the chance to finally study history in a meaningful manner.

Die Kinder aus dem Regenbogen Liliane Raemy, 2010 Klappentext des Buches Der Schöpfer hat uns als Ebenbild in der Dreierheit von Körper, Geist und Seele erschaffen. Diese Göttlichkeit in uns gilt es wieder zu beleben, zum Ausdruck und zum Erfolg zu bringen. Dieses Buch hat drei Schwerpunkte. 1. Es will Herzöffner sein für die von Liebeskraft erfüllten Kinder der neuen Zeit. Es will aufklären über das Ziel ihrer wunderbaren Seelen, ihre Wesensart, ihre Herausforderungen und ihr Tätigkeitsfeld. Dazu gibt es Empfehlungen für Eltern und Erzieher. 2. Es gibt Anregungen für die Selbstfindung, um die unendliche in uns wohnende Kraft zu entdecken, die Kraft die uns trägt, die uns emporhebt und die uns in den Fluss der Fülle ohne Begrenzungen führt. 3. Es will Mut machen, die Grenzen, die wir uns selber setzen zu sprengen, in unsere Einzigartigkeit zu finden und in der Übernahme der Eigenverantwortung jeden zu einem Sieger, zum Sieger in seiner Wahrheit werden zu lassen. Das grösste Potenzial für diesen Durchbruch zur Veränderung heisst LIEBE. Der goldene Schlüssel zu den Herzen der Mitmenschen liegt in der Selbstliebe und Selbstakzeptanz.

Regenbogen Laura Weimann, 2022-05-15 Für jede Farbe des Regenbogens gibt es Momente im Leben. Und noch wichtiger ist es zu wissen, dass es ohne den Regen keinen Regenbogen geben würde. So ist es auch mit den Momenten im Leben. Es kann bergab gehen. Man sieht alles in dunklen Farben. Aber irgendwann geht es wieder bergauf und es wird ganz bunt. In diesem Buch findest du Gedichte und Texte über Höhen und Tiefen, Gedanken, Gefühle und die Liebe. Vielleicht kannst du dich mit dem ein oder anderen Text identifizieren. Vielleicht findest du auch neuen Mut durch die Gedichte.
