Sound of the Crowd: a Discography of the '80s (Fourth Edition) Steve Binnie, 2018-11-05 SOUND OF THE CROWD: A DISCOGRAPHY OF THE '80s is the ultimate record collector's guide to the 1980s. In the era of multi-formatting, picture discs, coloured vinyl, multiple remixes, funny shaped records and tiny CDs you could lose down the back of the sofa, this book lists every format of every single, EP and album released in the UK in the 1980s by over 140 of the decade's biggest acts, from ABBA to Paul Young. This fourth edition has been fully revised and expanded to include even more acts than ever before, with additional sections to cover Band Aid-style charity congregations and compilation albums from the early '80s K-Tel efforts through to the Now That's What I Call Music series and its competitors. Compiled by Steve Binnie, editor of the '80s music website Sound of the Crowd and writer, producer and co-host of the unconventional '80s chart show Off The Chart, broadcast weekly on Mad Wasp Radio.

Remix Strategy Benjamin Gomes-Casseres, 2015 Alliances, partnerships, acquisitions, mergers, and joint ventures are no longer exceptions in most businesses--they are part of the core strategy. As companies look to external partners for acquiring even strategic resources and capabilities, they need a practical road map for ensuring these relationships generate value. What combinations of resources do we need? How do we manage them over time? What profits will we earn? Will they justify our investments? Benjamin Gomes-Casseres shares insight from decades of consulting and academic research on how companies create new value by remixing resources with other companies. Organized around three laws, Remix Strategy explains how companies can gain the most from their business combinations: - First Law: The value created by the combination should exceed the total that would be generated by the players acting alone. How much more value can we create together in the market, together? What lies behind this joint value? - Second Law: The combination must be designed and managed to realize the joint value in reality. What partners and structures fit this goal best? How do we manage those elements that are the sources of the joint value? - Third Law: Each participant must earn sufficient profits to reward its investment. How do we divide the joint value? How might these shares change over time? Other books explain how to structure deals or how to navigate complexities of organization and culture. This book provides core principles and a practical framework for creating and capturing value, no matter the path chosen--

Displacements and Diasporas Wanni W. Anderson, Robert G Lee, 2005-05-26 Asians have settled in every country in the Western Hemisphere; some are recent arrivals, other descendents of immigrants who arrived centuries ago. Bringing together essays by thirteen scholars from the humanities and social sciences, *Displacements and Diasporas* explores this genuinely transnational Asian American experience--one that crosses the Pacific and traverses the Americas from Canada to Brazil, from New York to the Caribbean. With an emphasis on anthropological and historical contexts, the essays show how the experiences of Asians across the Americas have been shaped by the social dynamics and politics of settlement locations as much as by transnational connections and the economic forces of globalization. Contributors bring new insights to the unique situations of Asian communities previously overlooked by scholars, such as Vietnamese Canadians and the Lao living in Rhode Island. Other topics include Chinese laborers and merchants in Latin America and the Caribbean, Japanese immigrants and their descendants in Brazil, Afro-Americans in America, and the politics of second-generation Indian American youth culture. Together the essays provide a valuable comparative portrait of Asians across the Americas. Engaging issues of diaspora, transnational social practice and community building, gender, identity, institutionalized racism, and deterritoriality, this volume presents fresh perspectives on displacement, opening the topic up to a wider, more interdisciplinary terrain of inquiry and teaching.

The Party Bible Connor Pritchard, Dominic Russo, 2010-07-18 Hallefrickinlujah, it's here--your ultimate party-planning guide. Forget the stuffy dinner conversations. And the plates of cheese. And the wine (unless it's boxed, or bottled three-buck Chuck). It's time to tap into a powder keg of debauchery. Brought to you by Connor and Dominic, founders of The 5th Year and scholars in the art of the party, this book serves up dozens of out-of-the-box ideas, along with advice on throwing a successful shindig and plenty of suggestions on how to take the shenanigans to the next level. You'll find ridiculously fun ways to get your drink on, like . . . Tour de Franzia: Spandex-clad partiers chant, "Go, go, go" as their wine-mouthed friends race through boxes of the classy stuff. Brownbag Surprise: Guests have to MacGyver their own costumes out of whatever's inside the brownbag they're given. Fake Wake: It's like a real Irish wake--except even the stiff's drunk. Donkey Punch Dinner Party: Where placing your Cleveland Steamer Meatballs between a bowl of Dirty Sanchez Seven-Layer Dip and a tray of Dutch Oven Biscuits isn't out of place. So ditch the popped-collar polos and wayfarers and move on from the played-out '80s theme. It's time to try something new. And as entertaining as it is instructive, this book is destined to become your gospel whenever you're looking for a good time. The party's on.

Reclaiming Critical Remix Video Owen Gallagher, 2017-11-08 Remix is now considered by many to be a form of derivative work, but such generalizations have resulted in numerous non-commercial remixes being wrongfully accused of copyright infringement. Gallagher argues, however, that remix is a fundamentally transformative practice. The assumption that cultural works should be considered a form of private property is called into question in the digital age; thus, he proposes an alternative system to balance the economic interests of cultural producers with the ability of the public to engage with a growing intellectual commons of cultural works. Multimodal analyses of both remixed and non-remixed intertextual work, with a particular focus on examples of critical remix video, fuel the discussion, synthesizing a number of investigative methods including semiotic, rhetorical and ideological analysis.

Gender, Genre, and Race in Post-Neo-Slave Narratives Dana Renee Horton, 2022-08-30 Gender, Genre, and Race in Post-Neo-Slave Narratives provides an innovative conceptual framework for describing representations of slavery in twenty-first century American cultural productions. Covering a broad range of narrative forms ranging from novels like *The Known World* to films like *12 Years a Slave* and the music of Missy Elliott, Dana Renee Horton engages with post-neo-slave narratives, a genre she defines as literary and visual texts that mesh conventions of postmodernity with the neo-slave narrative. Focusing on the characterization of black women in these texts, Horton argues that they are portrayed as commodities who commodify enslaved people, a fluid and complex characterization that is a foundational aspect of postmodern identity and emphasizes how postmodern identity restructures the conception of slave-owners.
