Repetition, Recurrence, Returns Joan Ramon Resina,Christoph Wulf,2019-04-29 Repetition is constitutive of human life. Unlike simple recall, repetition is permeated by the past and the present and is oriented toward the future. This book investigates the significance of different forms of repetition in literature, culture, and society through studies of the function and importance of an array of repetitive phenomenon.

Luchino Visconti Joan Ramon Resina,2022-02-10 Luchino Visconti (1906-1976) was one of Europe's most prestigious filmmakers, who rose to prominence as part of the Italian neo-realist movement, alongside contemporaries Vittorio De Sica and Roberto Rossellini. Famous for his elegant lifestyle, as friend of Jean Renoir and Coco Chanel amongst others, his vibrant technicolour dramas are also known for their decadence and stunning display of aesthetic mastery and sensory pleasure. Looking beyond this colourful façade, however, Resina explores the philosophical implications of decadence with a particular focus on three films from the late phase in Visconti's production, Damned (1969), Death in Venice (1971), and Ludwig (1972). From the incestuous relationship between decadence and power to decadence as an outcome of straining toward formal perfection, Resina uncovers the unity and philosophical cohesiveness of these films that deal with different subjects and historical periods. Reading these films and their decadence in light of the time of filming and Visconti's own sense of cultural doom, Resina further demonstrates the relevance of Visconti's philosophy today and how much they still have to say to our contemporary situation.

Informe mundial sobre las drogas 2008 United Nations Office on Drugs and Crime,2008-12-04 En la primera sección del Informe se sigue presentando un análisis en profundidad de las tendencias de los cuatro mercados principales de drogas. Además, y con objeto de conmemorar el centenario de la Comisión del Opio de Shangháí y los cien años de la fiscalización internacional de drogas, en el Informe figura también un examen detallado de la evolución del sistema internacional de fiscalización de drogas. Se incluye asimismo un breve anexo estadístico que ofrece un examen pormenorizado sobre la producción, los precios y el consumo. Como en años anteriores, el presente informe se basa en datos extraídos principalmente del Cuestionario para los informes anuales (CPIA) remitido por los gobiernos a la ONUDD en 2007, que se complementan en los casos necesarios con los de otras fuentes, si se dispone de ellos. Dos de las principales limitaciones que ello conlleva son las siguientes: i) la presentación de información en el marco del CPIA no es lo bastante sistemática en cuanto al número de países que responden ni en cuanto al contenido, y ii) la mayoría de los países carece de los sistemas de vigilancia idóneos que se precisan para obtener datos fiables, completos e internacionalmente comparables. Los sistemas nacionales de vigilancia están, no obstante, mejorando y la ONUDD ha contribuido a ese proceso de mejora.
