**Robotech: Before the Invid Storm** Jack McKinney, 2014-04-30 SHIP OF DREAMS! The second Robotech War ended without victors. The Masters had been defeated, but the Army of the Southern Cross had suffered devastating losses, with Earth's cities reduced to rubble. Then a heavily armed warship arrived from Tirol and instantly became the object of intense rivalries. To the survivors of the United Earth Government, it was a spear they could hurl into the Invid Sensor Nebula. To the decimated Southern Cross forces, it was the weapon they needed to use against the impending Invid invasion. For the Starchildren it represented escape from their planetary prison, and the Shimada Family wanted it neutralized before it sabotaged their hopes for a peaceful solution. But no one knew just how dangerous the ship could be. No one, that is, except for its commander, Colonel Jonathan Wolf of the rag tag freedom fighters known as the Sentinels, and Dana Sterling, heroine of the war with the Masters. And Dana had her own agenda... Set between The Final Nightmare (Robotech #9) and Invid Invasion (#10), **BEFORE THE INVID STORM** reveals the struggle for control of the dreadnought from Tirol.

Where once there were twelve metropolises, now only four remain, and their borders are being threatened by the growing cloud of darkness. The only way to hold back the darkness and the horrific creatures that inhabit it are the Cities' huge ice cannons. But

one by one the defences are failing. And the Roil continues to grow. With the land in chaos it's up to a rebellious wastrel, an old man and a woman intent on revenge to try to save their city - and the world. A refreshingly original and enjoyable read. - The Book Bag, on *Death Most Definite*

Steel Frame Andrew Skinner, 2019-08-27 Epic tale of giant-robot battles, built around a personal story of redemption and healing. Fly Hard. Rook is a jockey, a soldier trained and modified to fly 'shells,' huge robots that fight for the outer regions of settled space. When her shell is destroyed and her squad killed, Rook is imprisoned, left stranded, scarred and broken. Hollow and helpless without her steel frame, she's ready to call it quits. When her cohort of prisoners are sold into indenture to NorCol, a vast frontier corporation, Rook's given another shell – a near-decrepit Juno, as broken as she is and decades older – and sent to a rusting bucket of a ship on the end of known space to patrol something called the Eye, a strange, unnerving permanent storm in space. But they're not alone.
