How to Design Your Dream Home In 25 Years or Less! Jan Jones Evans, 2014-02 Jan Evans and her husband are retired and living in their dream home on their favorite lake in the Ozark Mountains. They bought their lake lot in 1986, and Mrs. Evans really did spend nearly 25 years designing their dream home. She is the daughter of a Realtor/builder/developer, and has been drawing floor plans, just for fun, for 50 years. She started out in Interior Design and drafting in college, but later found her true calling in special education Mrs. Evans is now a retired speech pathologist and special education teacher. Therefore, she is obviously not an architect nor an engineer. However, she has either added on to, upgraded, or remodeled all the homes she has ever owned prior to designing their current home at the lake. Her father also remodeled all three of their family homes that she lived in as a child, so home design has always been a passion of hers After realizing her life-long dream of designing and building her dream home, Mrs. Evans decided to write a book about the whole experience, even if it was just for fun and family She has always been a prolific writer, but has never attempted to publish any of her writings until now. Some of her writings have been fictional, some educational, and some technical, all mostly for her children or her school

Since Mrs. Evans has known many people over the years who shared her interest in designing their own custom home, she decided to share her mistakes as well as her successes with others who may be interested in doing the same.

Eliminate Chaos Laura Leist, 2011-03-01 *Eliminate Chaos* is a user-friendly system for organizing each room of the house, including the kitchen and pantry, closet, garage, home office, and childrens' rooms. The author's ten-step system is presented in an easy-to-use, workbook-style layout. Full-color photos demonstrate the various stages of the organizing process, illustrating not just before and after, but the realistic, messy, all-important steps in between. Leist's method is based on the underlying principle that it's not about the stuff. She touches on the psychological reasons behind clutter and not letting go — such as procrastination, denial, thrift, and family history — but her underlying premise is that being organized is an on-going process, not a one-day event. By learning to sort, prioritize, and make fast, rational decisions about their household goods, readers become more efficient and functional not just at home, but in other areas of life as well.

The Scandinavian Home Niki Brantmark, 2017-04-18 Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Discover classic and contemporary Scandinavian style with specially commissioned photography of homes in Denmark, Norway, Sweden, and Finland. Scandinavia is famous for its distinctive style: homes are pared-back and simple, and form and function are combined to create aesthetically pleasing and practical interiors. Scandinavians are inspired by light, having an abundance of it in summer but so little of it in winter, and house designs tend to maximize the amount of natural light that enters the home, and allow the inhabitants to make the most of outdoor life during the summer. Similarly, nature and the weather are major influences: homes are made warm and cozy for the freezing winter months—not just literally with log burners, but also through incorporating wood and natural materials. Here Niki Brantmark, owner of the interior design blog *My Scandinavian Home*, presents a wide-ranging collection of these beautiful homes and explores how the Scandinavian lifestyle is reflected in them all. The first chapter, *Urban Living*, features styles ranging from minimalist to bohemian, and pale palettes to dramatic dark colors. By contrast, the *Country Homes* tend to have a softer, calmer feel, through color and textiles, in line with a slower pace of life. Finally, the spectacular *Rural Retreats* include a mountain cabin, beach house, and rustic summer cottage, and demonstrate how having somewhere to escape to is so important to many Scandinavians. This collection of stunning interiors will put Scandi style within every reader's reach.

Decorating a Room of One's Own Susan Harlan,2018-10-09 What would Little Women be without the charms of the March family’s cozy New

England home? Or *Wuthering Heights* without the ghost-infested *Wuthering Heights*? Getting lost in the setting of a good book can be half the pleasure of reading, and *Decorating a Room of One's Own* brings literary backdrops to the foreground in this wryly affectionate satire of interior design reporting. English professor and humorist Susan Harlan spoofs decorating culture by reimagining its subject as famous fictional homes and “interviews” the residents who reveal their true tastes: Lady Macbeth’s favorite room in the castle, or the design inspiration behind Jay Gatsby’s McMansion of unfulfilled dreams. Featuring 30 entries of notable dwellings, sidebars such as “Setting Up an Ideal Governess’s Room,” and four-color spot illustrations throughout, *Decorating a Room of One's Own* is the ideal book for readers who appreciate fine literature and a good end table.
