The Origins and Development of Pure Land Buddhism Mark L. Blum,2002-03-21 In this book, Mark Blum offers a critical look at the thought and impact of the late 13th-century Buddhist historian Gyōnen (1240-1321) and the emergent Pure Land school of Buddhism founded by Hōnen (1133-1212). Blum also provides a clear and fully annotated translation of Gyōnen's Jōdo honmon genrūshō, the first history of Pure Land Buddhism.

**Hitomaro** Anne Commons,2009 Kakinomoto no Hitomaro (fl. ca. 690) is generally regarded as one of the pre-eminent poets of premodern Japan. While most existing scholarship on Hitomaro is concerned with his poetry, this study foregrounds the process of his reception and canonization as a deity of Japanese poetry. Building on new interest in issues of canon formation in premodern Japanese literature, this book traces the reception history of Hitomaro from its earliest beginnings to the early modern period, documenting and analysing the phases of the process through which Hitomaro was transformed from an admired poet to a poetic deity. The result is a new perspective on a familiar literary figure through his placement within the broader context of Japanese poetic culture.

*Discourse and Ideology in Medieval Japanese Buddhism* Richard K. Payne,Taigen Dan Leighton,2006-04-18 The medieval period of Japanese religious history is commonly known as one in which there was a radical transformation of the religious culture. This book suggests an alternate approach to understanding the dynamics of that transformation. One main topic of analysis focuses on what Buddhism - its practices and doctrines, its traditions and institutions - meant for medieval Japanese peoples themselves. This is achieved by using the notions of discourse and ideology and juxtaposing various topics on shared linguistic practices and discursive worlds of medieval Japanese Buddhism. Collating contributions from outstanding scholars in the field of Buddhist Studies, the editors have created an important work that builds on preliminary work on rethinking the importance and meaning of Kamakura Buddhism published recently in English, and adds greatly to the debate.

A History of Japanese Literature, Volume 3 Jin'ichi Konishi, 2014-07-14 In this third of five volumes tracing the history of Japanese literature through Mishima Yukio, Jin'ichi Konishi portrays the high medieval period. Here he continues to examine the influence of Chinese literature on Japanese writers, addressing in particular reactions to Sung ideas, Zen Buddhism, and the ideal of literary vocation, *miichi*. This volume focuses on three areas in which Konishi has long made distinctive contributions: court poetry (*waka*), featuring twelfth- and thirteenth-century works, especially those of Fujiwara Teika (1162-1241); standard linked poetry (*renga*), from its inception to its full harvest in the work of Sogi (1421-1502); and the theatrical form *noh*, including the work of Zeami (ca. 1365-1443) and Komparu Zenchiku (1405-?). The author also considers prose narrative and popular song. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Riven by Lust Jonathan A. Silk, 2008-10-31 *Riven by Lust* explores the tale of a man accused of causing the fundamental schism in early Indian Buddhism, but not before he has sex with his mother and kills his father. In tracing this Indian Buddhist Oedipal tale, Jonathan Silk follows it through texts in all of the major canonical languages of Buddhism, Sanskrit, Pali, Tibetan, Chinese, and Japanese, along the way noting parallels and contrasts with classical and medieval European stories such as the legend of the Oedipal Judas. Simultaneously, he investigates the psychological and anthropological understandings of the tale of mother-son incest in light of contemporary psychological and anthropological understandings of incest, with special attention to the question of why we consider it among the worst of crimes. In seeking to understand how the story worked in Indian texts and for Indian audiences—as well as how it might work for modern readers—this book has both horizontal and vertical dimensions, probing the place of the Oedipal in Indian culture, Buddhist and non-Buddhist, and simultaneously framing the Indian Oedipal within broader human concerns, thereby contributing to the study of the history of Buddhism, the transmission of narratives in the ancient world, and the fundamental nature of one aspect of human sexuality. Starting from a brief reference in a polemical treatise, *Riven by Lust* demonstrates that its authors borrowed and intentionally adapted a preexisting story of an Oedipal antihero. This recasting allowed them to calumniate their opponents in the strongest possible terms through the rhetoric of murder and incest. Silk draws on a wide variety of sources to demonstrate the range of thinking about incest in Indian Buddhist culture, thereby uncovering the strategies and working methods of the ancient polemicists. He argues that Indian Buddhists and Hindus, while occupying the same world for the most part, thought differently about fundamental issues such as incest, and hints at the consequent necessity of a reappraisal of our notions of the shape of the ancient cultural sphere they shared. Provocative and innovative, *Riven by Lust* is a paradigmatic analysis of a major theme of world mythology and a signal contribution to the study of the history of incest and comparative sexualities. It will attract readers interested in Buddhism, Indian studies, Asian studies, comparative culture, mythology, psychology, and the history of sexuality.

*The Japanese Buddhist World Map* D. Max Moerman, 2021-12-31 From the fourteenth through the nineteenth centuries Japanese monks created hundreds of maps to construct and locate their place in a Buddhist world. This expansively illustrated volume is the first to explore the largely unknown archive of Japanese Buddhist world maps and analyze their production, reproduction, and reception. In examining these fascinating sources of visual and material culture, author D. Max Moerman argues for an alternative history of Japanese Buddhism—one that compels us to recognize the role of the Buddhist geographic imaginary in a culture that encompassed multiple cartographic and cosmological world views. The contents and contexts of Japanese Buddhist world maps reveal the ambivalent and shifting position of Japan in the Buddhist world, its encounter and negotiation with foreign ideas and technologies, and the possibilities for a global history of Buddhism and science. Moerman's visual and intellectual history traces the multiple trajectories of Japanese Buddhist world maps, beginning with the earliest extant Japanese map of the world: a painting by a fourteenth-century Japanese monk charting the cosmology and geography of India and Central Asia based on an account written by a seventh-century Chinese pilgrim-monk. He goes on to discuss the cartographic inclusion and marginal position of Japan, the culture of the copy and the power of replication in Japanese Buddhism, and the transcultural processes of engagement and response to new visions of the world produced by Iberian Christians, Chinese Buddhists, and the Japanese maritime trade. Later chapters explore the transformations in the media and messages of Buddhist cartography in the age of print culture and in intellectual debates during the eighteenth and nineteenth centuries over cosmology and epistemology and the polemics of Buddhist science. The *Japanese Buddhist World Map* offers a wholly innovative picture of Japanese Buddhism that acknowledges the possibility of multiple and heterogeneous modernities and alternative visions of Japan and the world.
