**After the Hurricane** Leah Franqui,2022-08-09 Named by Etaf Rum as one of the Best Beach Reads of All Time for Read with Jenna! Reminiscent of Gabriela Garcia’s Of Women and Salt, Leah Franqui brings us an engrossing, deeply personal novel with a mystery at its heart as a daughter returns to Puerto Rico to search for her troubled father, who has gone missing after Hurricane Maria. From the outside, Elena Vega’s life appears to be an easy one: the only child of two professional parents, private school, NYU. But her twenties are aimless and lacking in connection. Something has always been amiss in her life: her father, the brilliant but deeply troubled Santiago Vega. Born in rural Puerto Rico, Santiago arrived in New York as a small child. His harsh, mercurial father returned to the island, leaving Santiago to be raised by his mentally ill mother and his formidable grandmother. An outstanding student, he followed scholarships to Stanford, then Yale Law, marrying Elena’s mother along the way. Santiago is the shining star of his migrant family—the one who made it out and struck it rich. But he is a haunted man, plagued by trauma, bipolar disorder, and alcoholism. He’s lost contact with Elena over the years and returned to San Juan to wrestle his demons alone. Then Hurricane Maria strikes, and Santiago vanishes. Desperate to know what happened to the father she once adored, Elena returns to Puerto Rico, a place she loved as a child but hasn’t seen in years. There she must unravel the truth about who her father is, crisscrossing the storm-swept island and reaching deep into his family tree to find relatives she’s never met, each of whom seems to possess a clue about Santiago’s fate. A compelling mystery unfolds, as Elena is reunited with family, and with a place she loved and lost—the island of Puerto Rico, which is itself a character in this book. It’s a story of connection, migration, striving, love, and loss, illuminated by humor and affection, written by a novelist at the height of her gifts.

**Hurricane Katrina and the Lessons of Disaster Relief** Michael Powelson,2017-08-21 Hurricane Katrina, which hit the Gulf Coast in 2005, exposed the failings and incompetence of local, state, and federal officials, as well as the private sector and a host of other public and private agencies. This volume explores how inaction, lack of planning and undisguised greed insured that a category 3 hurricane would result in widespread destruction of both lives and property. It adopts a multifaceted approach to Hurricane Katrina, and includes studies from the fields of oral history, environmental science, physics, political science, sociology, and history. Part One provides first-hand accounts from people that lived through the hurricane and its aftermath. Part Two looks at how various entities responded, or failed to respond, to the disaster. Included in this section are articles on public health, tourism, environmental science, and the role of the Army Corp of Engineers. Part Three incorporates data from the aftermath of Katrina to suggest future responses to hurricanes and other natural/human made disasters. Finally, Harry Shearer, actor, radio host of Le Show, and director of The Big Uneasy, a documentary on Katrina and its aftermath, contributes an article on the various elements that went into the disaster that was Hurricane Katrina.

*Short Tales by a Tall Pilot* Jim Lewis,2013-01-28 When pilots sit around an airport or get together at a hotel lounge for beers or cocktails, they’re almost certain to regale each other, and anyone else who will listen, with embellished tales of their greatest aviation exploits. The longer these stories continue, the more the similarities grow between the pilots’ war stories and fish stories. As the night wears on, the exploits they share are likely to grow more and more elaborate and outlandish. In the spirit of those war stories, author Jim Lewis, who has worked as a professional pilot since the mid-sixties, offers his share of stories from his experiences. Many of these short stories are the result of mistakes in judgment, while others arose from deliberate decisions to proceed made from ignorance. A few were simply experiences that came with being a professional pilot, and two or three were blatant rule breaking. Lewis recalls landing in a soybean field, buzzing a nuclear submarine, flying under a bridge, running low on fuel, and tasting life in the cockpit of a jet liner. Some of his tales are humorous, while others take on a more dangerous nature. All of them, however, offer a lesson for others to learn.
