Everyday Fashion Bethan Bide,Jade Halbert,Liz Tregenza,2023-12-28 Ordinary clothes have extraordinary stories. In contrast to academic and curatorial focus on the spectacular and the luxurious, Everyday Fashion makes the case that your grandmother's wardrobe is an archive as interesting and important as any museum store. From the moment we wake and get dressed in the morning until we get undressed again in the evening, fashion is a central medium through which we experience the world and negotiate our place within it. Because of this, the ways that supposedly 'ordinary' and 'everyday' fashion objects have been designed, manufactured, worn, cared for, and remembered matters deeply to our historical understanding. Beginning at 1550 – the start of an era during which the word 'fashion' came to mean stylistic change rather than the act of making – each chapter explores the definition of everyday fashion and how this has changed over time, demonstrating innovative methodologies for researching the everyday. The variety and significance of everyday fashion cultures are further highlighted by a series of illustrated object biographies written by Britain's leading fashion curators, showcasing the rich diversity of everyday fashion in British museum collections. Collectively, this volume scratches below the glossy surface of fashion to expose the mechanics of fashion business, the hidden world of the workroom and the diversity and role of makers; and the experiences of consuming, wearing, and caring for ordinary clothes in the United Kingdom from the 16th century to the present day. In doing so it challenges readers to rethink how fashion systems evolve and to reassess the boundaries between fashion and dress scholarship.

Indian Modernities Nishat Zaidi,2023-06-30 This volume studies the ways in which modernity has been conceived, practiced, and performed in Indian literatures from the 18th to 20th century. It brings together essays on writings in Hindi, Urdu, Punjabi, Bengali, Odia, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, and languages from Northeast India, which form a dialogical relationship with each other in this volume. The concurrence and contradictions emerging through these studies problematize the idea of modernity afresh. The book challenges the dominance of colonial modernity through socio-historical and cultural analysis of how modernity surfaces as a multifaceted phenomenon when contextualized in the multilingual ethos of India. It further tracks the complex ways in which modernism in India is tied to the harvests of modernity. It argues for the need to shift focus on the specific conditions that gave shape to multiple modernities within literatures produced from India. A versatile collection, the book incorporates engagements with not just long prose fiction but also lesser-known essays, research works, and short stories published in popular magazines. This unique work will be of interest to students and teachers of Indian writing in English, Indian literatures, and comparative literatures. It will be indispensable to scholars of South Asian studies, literary historians, linguists, and scholars of cultural studies across the globe.

Multi-stories Kalpana Sahni,2010-06-02 This unique work explores, through personal narratives, the overlapping and intermingling of cultures as well as the immense cultural diversity across the world. This exploration inevitably questions notions of higher or lower cultures, and civilized or uncivilized peoples. Indeed it questions the very concept of superiority amongst peoples. Apart from cross-cultural encounters, this work also discusses how various democratic and non-democratic governments and organizations have attempted to conceal cross-cultural influences by inventing superiority, purity, and authenticity of cultures and civilizations to the detriment of others. Yet cross-culture pollination, an ongoing process, always reveals itself through the ignored cracks of history. The book shows that India is no exception and has been and continues to be porous. The numerous examples of cross-pollination -- with Algeria, Indonesia, Cambodia, to mention a few -- force us to re-look cultural constructs and indeed the very meaning of culture.--Publisher's website
