P **IMPACTS AND STRATEGIC OUTCOMES FROM NON-MEGA SPORT EVENTS FOR LOCAL COMMUNITIES** MARIKE TAKS, LAURENCE CHALIP, B. CHRISTINE GREEN, 2017-10-02 Do small- and medium-sized sporting events affect the overall wellbeing of people living in the host community? If so, how do they affect local life? This book specifically addresses the strategic choices that host communities make when hosting non-mega sporting events, and looks at the outcomes of those choices. The contributions to this study assess a variety of tangible and intangible effects, including the economic and social impacts, and the effect on tourism and participation in sport. It contains analysis of a variety of events, including spectator and participant events, single-sport and multi-sport events, and one-day and multi-day events, all hosted in different types of cities and communities around the globe. Overall, this book identifies and extends our understanding of the nature, management, and implications of non-mega sporting events. The impacts and strategic outcomes highlighted here have practical value for sport event management and strategy, and advance our understanding of the economic and social consequences of hosting an event. This book was originally published as a special issue of European Sport Management Quarterly.

P **SPORTS, PEACEBUILDING AND ETHICS** LINDA M. JOHNSTON, 2017-07-05 As this latest volume in the *Peace & Policy* series shows, sports can be an effective mechanism for peacebuilding, especially when incorporated into conflict-resolution programs. Such programs have been designed to bring children together in post-conflict situations with an ultimate goal of reducing future violence. In examining such programs, the volume's contributors ask key questions: What are the programs achieving? And how are they measuring success? Although such programs have by and large been successful, some issues need to be addressed if these programs are to hone their effectiveness. Among the questions explored in the volume are: various aspects of culture and how they can help shape sports programs; the role of a coach in creating a culture of peace, and how this culture can fit into a peacebuilding process. Contributors also examine the role of sports in trauma relief programs in Rwanda; the role of universities in sports; and the role of sports in the demilitarization of child soldiers. The last three contributors tackle some of the legitimate concerns raised about using sports for peacebuilding, such as sports being competitive, violent, and focused on winning. Contributors look carefully at these and other issues that have arisen in sports as a tool of conflict resolution, discuss why they have become concerns, and consider some possible ways to deal with these concerns in the future.
