The Politics of HBO's The Wire Shirin Deylami, Jonathan Havercroft, 2014-12-17 This innovative new work suggests that The Wire reflects, not simply a cultural take on contemporary America, but a structural critique of the conditions of late-modernity and global capitalism. As such, it is a visual text worth investigating and exploring for its nuanced examination of power, difference and inequality. Deylami & Havercroft bring together nine essays addressing issues of interest to a range of academic fields in order to engage with this important cultural intervention that has transfixed audiences and sparked debate within the social scientific community. While the TV show is primarily focused upon the urban politics of Baltimore, the contributors to this volume read Baltimore as a global city. That is, they argue that the relations between race, class, power, and violence that the series examines only make sense if we understand that inner city Baltimore is a node in a larger global network of violence and economic inequality. The book is divided into three interrelated sections focusing on systemic and cultural violence, the rise and decline of national and state formations, and the dysfunctional and destructive forces of global capitalism. Throughout the series the relation of the urban to the global is constantly being explored. This innovative new volume explains clearly how The Wire portrays this interaction, and what this representation can show social scientists interested in race, neo-liberal processes of globalization, criminality, gender, violence and surveillance.

The Early Laps of Stock Car Racing Betty Boles Ellison,2014-09-17 The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York—staged by one of America’s early speed maven, William K. Vanderbilt, Jr. A veteran of the early Ormond–Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man’s sport eventually became the working man’s sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing’s 1948 incorporation documents and how they differ from the agreements adopted at NASCAR’s organization meeting two months earlier. The meeting’s participants soon realized that their sport was actually owned by William H.G. “Bill” France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.

*The Revolt of The Public and the Crisis of Authority in the New Millennium* Martin Gurri ,2018-12-04 How insurgencies—enabled by digital devices and a vast information sphere—have mobilized millions of ordinary people around the world. In the words of economist and scholar Arnold Kling, Martin Gurri saw it coming. Technology has categorically reversed the information balance of power between the public and the elites who manage the great hierarchical institutions of the industrial age: government, political parties, the media. *The Revolt of the Public* tells the story of how insurgencies, enabled by digital devices and a vast information sphere, have mobilized millions of ordinary people around the world. Originally published in 2014, *The Revolt of the Public* is now available in an updated edition, which includes an extensive analysis of Donald Trump’s improbable rise to the presidency and the electoral triumphs of Brexit. The book concludes with a speculative look forward, pondering whether the current elite class can bring about a reformation of the democratic process and whether new organizing principles, adapted to a digital world, can arise out of the present political turbulence.
