**Applied Data Science in Tourism** Roman Egger, 2022-01-31 Access to large data sets has led to a paradigm shift in the tourism research landscape. Big data is enabling a new form of knowledge gain, while at the same time shaking the epistemological foundations and requiring new methods and analysis approaches. It allows for interdisciplinary cooperation between computer sciences and social and economic sciences, and complements the traditional research approaches. This book provides a broad basis for the practical application of data science approaches such as machine learning, text mining, social network analysis, and many more, which are essential for interdisciplinary tourism research. Each method is presented in principle, viewed analytically, and its advantages and disadvantages are weighed up and typical fields of application are presented. The correct methodical application is presented with a how-to approach, together with code examples, allowing a wider reader base including researchers, practitioners, and students entering the field. The book is a very well-structured introduction to data science – not only in tourism – and its methodological foundations, accompanied by well-chosen practical cases. It underlines an important insight: data are only representations of reality, you need methodological skills and domain background to derive knowledge from them - Hannes Werthner, Vienna University of Technology Roman Egger has accomplished a difficult but necessary task: make clear how data science can practically support and foster travel and tourism research and applications. The book offers a well-taught collection of chapters giving a comprehensive and deep account of AI and data science for tourism - Francesco Ricci, Free University of Bozen-Bolzano This well-structured and easy-to-read book provides a comprehensive overview of data science in tourism. It contributes largely to the methodological repository beyond traditional methods. - Rob Law, University of Macau

*Time Rich* Steve Glaveski, 2020-11-02 Recover wasted time and start living your fullest life Most of us wouldn't dare give away our money, but when it comes to time, we let it go without a second thought. Business and creative professionals often dedicate long hours to their work, with little to show for it. We take on more than we should, we treat everything as urgent, and we attend pointless meetings. This book can help you see where you might be sabotaging your own goals. *Time Rich* helps you identify where you're losing personal time and mismanaging career time. Through practical productivity tools and techniques, author and entrepreneur Steve Glaveski will show you how to be more productive at work, have more time to pursue your personal and life goals, and build a culture that supports achieving objectives without risking burnout. Learn how to: • Identity how you are wasting time • Manage your attention, get into the zone and stay there longer • Prioritise, automate and outsource tasks • Optimise your mind and body *Time Rich* is a blueprint for recovering your work hours, achieving more and spending time where it matters most. 'Steve Glaveski understands something that few leaders have figured out: it's possible to do less and get more done. This book offers a blueprint for working smarter.' Adam Grant, New York Times best-selling author of *Originals* and *Give and Take*, and host of the chart-topping TED podcast *WorkLife* 'Time isn't money; it's something of far more value. Glaveski makes the case that we ought to be protecting our time much more than we protect other resources. And best of all, he shows you how.' David Burkus, author of *Under New Management* 'Steve Glaveski offers countless ways to get more out of each day by being *Time Rich*.' Nir Eyal, best-selling author of *Hooked* and *Indistractable* 'Time Rich by Steve Glaveski makes a compelling argument for abandoning the archaic historical artefact of an 8 hour work-day (or any other arbitrary sum of time) as outmoded and irrelevant to the way we live and do our best work today. Glaveski offers both big ideas and specific techniques to contain or eliminate such time-snatching demons as meetings, email and social media. Reclaim the value of your time by forsaking the management of it and learning instead to manage energy, efficiency and attention – inputs with far greater impact on output and outcomes, not to mention quality of life.' Whitney Johnson, award-winning author of *Disrupt Yourself* and *Build an A-Team* 'Time Rich is a fascinating look into why we're all so 'busy' – and how to gain back our most precious resource. Whether you're a beginner or a seasoned productivity geek, this book will change your life.' Jonathan Levi, author, podcaster, and founder of SuperHuman Academy 'A very worthwhile read for ambitious professionals to achieve that elusive work-life holy grail: being present and engaged at home without sacrificing anything on the work front – and even, perhaps, becoming more productive than you ever thought you could be.' Andy Molinsky, award-winning author of *Global Dexterity* and *Reach*

The theoretical framework will draw upon several political marketing frameworks and concepts including the product/sales/market-oriented framework, the STP process, and Pettitt's internal stakeholder marketing approaches. The book examines four case studies: (1) the Palestine Solidarity Network Aotearoa (PSNA), (2) the Israel Institute of New Zealand (IINZ), (3) the Australia/Israel & Jewish Affairs Council (AIJAC), and (4) the Australia Palestine Advocacy Network (APAN). To ensure balance and comparison, four groups representing both the pro-Israel and pro-Palestinian camps in NZ and Australia were selected. Other criteria included their broad scope of activity, approachability and accessibility, as well as connections to state actors through advocacy, public diplomacy, and nation branding.

**Ashes to Ashes** Isabel Ostrander, 1919  
El progreso de la comunicación en la era de los prosumidores. Manuel Blanco Pérez, 2021 Al tiempo de estas líneas, en España se conmemoran 10 años del cese de la actividad armada de ETA, una banda terrorista con la que todos los presidentes españoles en democracia, sin excepción, trataron de negociar su final. La COVID-19 ha supuesto, oficialmente, varias decenas de miles de muertes en el último año (y de cuyas cifras oficiales siempre tendremos motivos para recelar) y los casos de corrupción política, pero también empresarial, afectan ya a prácticamente todos los estamentos de la sociedad española (desde los robagallinas a la Corona de España pasando por prácticamente todos los partidos políticos): su judicialización genera ya una cantidad ingente de noticias en los medios, a diario. Y hay hueco mediático también, aunque menos, para noticias que tienen que ver con el inminente colapso ecológico que, según fuentes fiables, tendrá lugar en la generación próxima como consecuencia de nuestro estilo de vida. Estas noticias son, al menos, las que podemos leer a vuelapluma en la prensa escrita digital en otoño del año 2021, pero, ¿qué se esconde detrás de ellas o en los márgenes de ellas?, ¿qué cosas están siendo ocultadas, tamizadas, engrandadas o achicadas en función de qué intereses y de quién?, ¿y por quién?
