**The Scrapbook in American Life** Susan Tucker, Katherine Ott, Patricia Buckler, 2006 This book explores the history of scrapbook-making, its origins, uses, changing forms and purposes as well as the human agents behind the books themselves. Scrapbooks bring pleasure in both the making and consuming - and are one of the most enduring yet simultaneously changing cultural forms of the last two centuries. Despite the popularity of scrapbooks, no one has placed them within historical traditions until now. This volume considers the makers, their artefacts, And The viewers within the context of American culture. The volume's contributors do not show the reader how to make scrapbooks or improve techniques but instead explore the curious history of what others have done in the past and why these splendid examples of material and visual culture have such a significant place in many households.

Acts of Possession Leah Dilworth, 2003 The success of internet auction sites like eBay and the cult status of public television's Antiques Roadshow attest to the continued popularity of collecting in American culture. Acts of Possession investigates the ways cultural meanings of collections have evolved and yet remained surprisingly unchanged throughout American history. Drawing upon the body of theoretical work on collecting and focusing on individual as opposed to museum collections, the contributors investigate how, what, and why Americans have collected and explore the inherent meanings behind systems of organization and display. Essays consider the meanings of Thomas Jefferson's Indian Hall at Monticello; the pedagogical theories behind nineteenth-century children's curiosity cabinets; collections of Native American artifacts; and the ability of the owners of doll houses to construct meaning within the context of traditional ideals of domesticity. The authors also consider some darker aspects of collecting--hoarding, fetishism, and compulsive behavior--scrutinizing collections of racist memorabilia and fascist propaganda. The final essay posits the serial killer as a collector, an investigation into the dangerous objectification of humans themselves. By bringing fresh, interdisciplinary critical perspectives to bear on these questions, Dilworth and her coauthors weave a fascinating cultural history of collecting in America.

*The Adman in the Parlor* Ellen Gruber Garvey, 1996-06-06 How did advertising come to seem natural and ordinary to magazine readers by the end of the nineteenth century? The Adman in the Parlor explores readers' interactions with advertising during a period when not only consumption but advertising itself became established as a pleasure. Garvey argues that readers' participation in advertising, rather than top-down dictation by advertisers, made advertising a central part of American culture. Garvey's analysis interweaves such texts and artifacts as advertising trade journals, magazines addressed to elite, middle class, and poorer readerships, scrapbooks, medical articles, paper dolls, chromolithographed trade cards, and contest rules. She tracks new forms of fictional realism that contained brand name references, courtship stories, and other fictional forms. As magazines became dependant on advertising rather than sales for their revenues, women's magazines led the way in making consumers of readers through the interplay of fiction, editorials, and advertising. General magazines, too, saw little conflict between these different interests. Instead, advertising and fiction came to act on one another in complex, unexpected ways. Magazine stories illustrated the multiple desires and social meanings embodied in the purchase of a product. Garvey takes the bicycle as a case study, and tracks how magazines mediated among competing medical, commercial, and feminist discourses to produce an alluring and unthreatening model of women bicycling in their stories. Advertising formed the national vocabulary. At once invisible, familiar, and intrusive, advertising both shaped fiction of the period and was shaped by it. The Adman in the Parlor unearths the lively conversations among writers and advertisers about the new prevalence of advertising for mass-produced, nationally distributed products.

*Girl Zines* Alison Piepmeier, 2009-11-01 The first book-length exploration of the quirky feminist booklets With names like The East Village Inky, Mend My Dress, Dear Stepdad, and I'm So Fucking Beautiful, zines created by girls and women over the past two decades make feminism's third wave visible. These messy, photocopied do-it-yourself documents cover every imaginable subject matter and are loaded with handwriting, collage art, stickers, and glitter. Though they all reflect the personal style of the creators, they are also sites for constructing narratives, identities, and communities. Girl Zines is the first book-length exploration of this exciting movement. Alison Piepmeier argues that these quirky, personalized booklets are tangible examples of the ways that girls and women 'do' feminism today. The idiosyncratic, surprising, and savvy arguments and issues showcased in the forty-six images reproduced in the book provide a complex window into feminism's future, where zinesters persistently and stubbornly carve out new spaces for what it means to be a revolutionary and a girl. Girl Zines takes zines seriously, asking what they can tell us about the inner lives of girls and women over the last twenty years.
