Stop-Motion Puppet Sculpting Tom Brierton,2004-07-30 Stop-motion puppet animation is one of the most unusual and demanding art forms in the world. It uses a variety of skills, including design, sculpting, metal work, mold making and casting, taxidermy, filmmaking, storytelling and acting, and can be seen in the simplest commercial spots on television to more complex animated shorts and science fiction and fantasy feature films. This work explains research and design of puppets, and details the fabrication of stop-motion puppets around a metal armature skeleton using the build up and foam injection processes. The former technique uses pre-cut blocks of foam formed with a pair of scissors or other instrument into the shape desired and attaching them to the armature. In the latter technique, the character is sculpted in clay over the armature. This clay sculpture is then replaced with foam by using a plaster mold and injection gun techniques. Finishing techniques described include the making of hair, eyes, eyelids, teeth, horns, nails, and chitinous (insect-shell-like) surfaces. The manual also covers the process of creating replacement heads using rubber molds (such as RTV) and urethane castings. A glossary and bibliography complete the extensively illustrated work.

The Way I See It Lerato Tshabalala,2016-07-01 Lerato Tshabalala first came to our attention in 2011 with her 'Urban Miss' column in the Sunday Times, and since then she has by turns entertained, exasperated, amused and confounded her fans and critics alike. Now, with her first book, she looks set to become the national institution she deserves to be. With her customary wit and keen insight into social, political and cultural affairs, Lerato shines a bright – and controversial – light on South African society and the quirky ways of the country. She is brutally honest about her experiences as a black South African in post-apartheid Mzansi, and no subject is too sacred for her to explore: annoying car guards, white-dominated corporate South Africa, cultural stereotypes, economic and racial inequality, and gender politics, among many other topics, come under her careful – and often laugh-out-loud – scrutiny. The Way I See It is written for people who are hungry for a book that is thought-provoking, funny, irreverent and truly South African all at the same time. It is light but full of depth: like a supermodel with an MBA!

Bad Boys Need Love Too: Gage Christa Tomlinson, 2022-03-20 Why Do Bad Boys Make You Feel So Good? Everyone has had their experience with him. The Heartbreaker. The one with rips in his jeans and a lazy, devil may care smile on his mouth. The man who can make you do bad things that feel so good. For Joseph Naderi that man was Gage Mason. The second Joseph laid eyes on Gage he knew he was trouble, but something about the sexy mechanic drew him in. Maybe it was the dark eyes that studied Joseph like Gage wanted to know everything about him. Maybe it's the way he made Joseph feel with the rough touch of his hands and a possessive grip on his hair when they kissed. Or maybe it's the way Gage grows to need Joseph, even though he won't admit it. For once in his life Joseph is taking a risk. Despite everything that tells him he shouldn't, he's taking a chance to be with his heartbreaker. Gage and Joseph's story is book one in a complete three book series.

Women's Health Lift to Get Lean Holly Perkins, Editors of Women's Health Maga, 2015-04-14 Research shows that building muscle helps the body burn more calories 24/7 and that resistance training is the most effective way to torch body fat. Yet that message is still lost on many women who fear that weight lifting will make them bulky, turn their skin green, and give them Incredible Hulk muscles like their boyfriends'. Women have more options than step aerobics or running on a treadmill to shed pounds: They can weight-train in a very specific manner designed to make the most of a woman's unique physiology. Lift to Get Lean is the first beginner's guide to strength training from Women's Health that is written specifically for women by a woman. Holly Perkins is a certified strength and conditioning specialist (CSCS) who has been teaching the fat-burning secrets of weight training exclusively to women for more than 20 years. Perkins doesn't follow men's rules when it comes to building muscle. Her Lift to Get Lean delivers a three-step system: Technique, Movement Speed, and the Last 2 Reps Rule, which make all the difference in developing the kind of strong, lean, and sexy body women want. Perkins offers four different 90-day training programs that efficiently build functional strength along with leaner legs, stronger arms, and a sexier butt.
