The Story of Sculpture Francesca Romei,1995 This is a voyage of discovery through time discovering sculpture.

My Little Golden Book About the Statue of Liberty Jen Arena,2018-05-08 Now the littlest readers can learn about how the Statue of Liberty came to be—and what it means to people all over the world. In this engaging book, preschoolers will learn the fascinating story behind the creation of the Statue of Liberty. Simple words and bright artwork bring to life the story of the people—a professor, a sculptor, a poet, a newspaperman—who helped establish this famous landmark. Little ones will learn that the torch was created first, in time for America's 100th birthday, and displayed in a park. And they'll gain a clear understanding of what the Statue of Liberty has always meant to people around the world. Fun facts, such as how schoolchildren gave their pennies to help pay for the base of the statue, complete this charming nonfiction Little Golden Book.

Three Fragments of a Lost Tale John Frame,David Pagel,2011 Since 2006, California sculptor John Frame (b. 1950) has been working toward the creation of a stop-motion animated film featuring an eclectic cast of fully articulated characters. In keeping with the artist's distinctive style, the figures used in the animation combine found materials with meticulously carved wood and are art objects in their own right. They inhabit a curious and complex universe and act together to tell a fragmented tale in a unique idiom. The book delves into this visionary world through Frame's photographs of his sculptural pieces, stage settings, and vignettes.

Greek Sculpture with Story and Song Albinia Lucy Cust Wherry,1898

Narrative Sculpture and Literary Traditions in South and Southeast Asia Marijke J. Klokke,2022-06-13 The question “how has ancient India's incredibly rich literary heritage been visually represented” forms the centerpiece of this latest volume in Brill's

series Studies in Asian Art and Archaeology. Due to the overwhelming impression made by the texts themselves, the relationship between text and image has until now never received the attention it deserves. Numerous temples, though, not only in South Asia, but also in Southeast Asia carry the images of India's great narratives. Special attention is given to those in Karnataka (India), Java (Indonesia), Angkor (Cambodia), and Tra Kieu (Vietnam). The work discusses theoretical aspects, provides new interpretations, and proposes innovative interpretations through advanced comparative and contextual approaches.

Disarmed Gregory Curtis, 2012-07-18 In the spring of 1820, on the Aegean island of Melos, an unsuspecting farmer was digging for marble building blocks when he unearthed the statue that would come to be known as the Venus de Milo. From the moment of its discovery a battle for possession ensued and was won, eventually, by the French. Touted by her keepers in the Louvre as the great classical find of the era, the sculpture gained instant celebrity-and yet its origins had yet to be documented or verified. From the flurry of excitement surrounding her discovery, to the raging disputes over her authenticity, to the politics and personalities that have given rise to her mystique, Gregory Curtis has given us a riveting look at the embattled legacy of a beloved icon and a remarkable tribute to one of the world's great works of art.

The Bacchus Conservation Project Caroline M. Rocheleau, 2020-10

Beyond Grief Cynthia Mills, 2014-09-23 Beyond Grief explores high-style funerary sculptures and their functions during the turn of the twentieth century. Many scholars have overlooked these monuments, viewing them as mere oddities, a part of an individual artist's oeuvre, a detail of a patron's biography, or local civic cemetery history. This volume considers them in terms of their wider context and shifting use as objects of consolation, power, and multisensory mystery and wonder. Art historian

Cynthia Mills traces the stories of four families who memorialized their losses through sculpture. Henry Brooks Adams commissioned perhaps the most famous American cemetery monument of all, the Adams Memorial in Washington, D.C. The bronze figure was designed by Augustus Saint-Gaudens, who became the nation's foremost sculptor. Another innovative bronze monument featured the Milmore brothers, who had worked together as sculptors in the Boston area. Artist Frank Duveneck composed a recumbent portrait of his wife following her early death in Paris; in Rome, the aging William Wetmore Story made an angel of grief his last work as a symbol of his sheer desolation after his wife's death. Through these incredible monuments Mills explores questions like: Why did new forms--many of them now produced in bronze rather than stone and placed in architectural settings--arise just at this time, and how did they mesh or clash with the sensibilities of their era? Why was there a gap between the intention of these elite patrons and artists, whose lives were often intertwined in a closed circle, and the way some public audiences received them through the filter of the mass media? *Beyond Grief* traces the monuments' creation, influence, and reception in the hope that they will help us to understand the larger story: how survivors used cemetery memorials as a vehicle to mourn and remember, and how their meaning changed over time.

The "Bird Girl" Sandra Lee Underwood, 2006 A biography of Sylvia Shaw Judson Haskins, artist who created the little girl standing in Bonaventure Cemetery in Savannah, Georgia, which was featured on the cover of John Berendt's, *Midnight in the Garden of Good and Evil*.

The Story of Sculpture Agnes Allen, 1958

The Sculptor Scott McCloud, 2015-02-03 David Smith is giving his life for his art—literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200

days to live, deciding what to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier! This is a story of desire taken to the edge of reason and beyond; of the frantic, clumsy dance steps of young love; and a gorgeous, street-level portrait of the world's greatest city. It's about the small, warm, human moments of everyday life...and the great surging forces that lie just under the surface. Scott McCloud wrote the book on how comics work; now he vaults into great fiction with a breathtaking, funny, and unforgettable new work.

Stories of Art James Elkins, 2013-10-18 Stories of Art is James Elkins's intimate history of art. Concise and original, this engaging book is an antidote to the behemoth art history textbooks from which we were all taught. As he demonstrates so persuasively, there can never be one story of art. Cultures have their own stories - about themselves, about other cultures - and to hear them all is one way to hear the multiple stories that art tells. But each of us also has our own story of art, a kind of private art history made up of the pieces we have seen, and loved or hated, the effects they had on us, and the connections that might be drawn among them. Elkins opens up the questions that traditional art history usually avoids. What about all the art not produced in Western Europe or in the Europeanized Americas? Is it possible to include Asian art and Indian art in 'the story?' What happens when one does? To help us find answers, he uses both Western and non-Western artworks, tables of contents from art histories written in cultures outside the centre of Western European tradition, and strangely wonderful diagrams of how artworks might connect through a single individual. True multiculturalism may be an impossibility, but art lovers can each create a 'story of art' that is right for themselves.

Greek Sculpture with Story and Song (Classic Reprint)

Albinia Wherry, 2017-07-16 Excerpt from *Greek Sculpture With Story and Song* The object of my book is twofold; to awaken in boys and girls an interest in Greek Sculpture, and to provide for older people possessing some superficial knowledge, and desiring to widen it, a convenient companion when examining Galleries of Casts. For the most part, therefore, only such sculptures are included in the work as are found in collections of this kind, or in the British Museum. Includes some sculptures in Northern Kentucky and in Hamilton County neighborhoods near the city of Cincinnati.

In Her Hands Alan Schroeder, 2009 A recreation of events from the childhood and early career of Augusta Savage, a pioneering female sculptor and major figure of the Harlem Renaissance.

Story of Art Ernst Hans Gombrich, Professor E H Gombrich, 1995-09-09 The most famous and popular book on art ever published, this quintessential introduction to art, now in its sixteenth edition, has been a worldwide bestseller for over four decades.

The Story of Art Throughout the Ages Salomon Reinach, 1904

Stories In Art: Sculpture Richard Spilsbury, 2017-03-28

Featuring six sculptures from around the world, this book explores different types of story, from religious tale in the statue of Hindu god Ganesh to political recount in the Marine Corps War Memorial. Each sculpture is looked at in detail, and a more general introduction to the medium provides historical context. Step-by-step projects show children how to create their own masterpieces, using the techniques of the art form. Learn how to sculpt figures and make your own totem pole! The Stories in Art series explores the narratives told through different art mediums. A great introduction to the history of art for children at Key Stage 2.
