*The Last True Poets of the Sea* Julia Drake,2019-10-04 Fans of Far from the Tree, We Are Okay and Emergency Contact will love this epic, utterly unforgettable contemporary novel about a lost shipwreck, a missing piece of family history, and weathering the storms of life. The Larkin family isn't just lucky—they persevere. At least that's what Violet and her younger brother, Sam, were always told. When the Lyric sank off the coast of Maine, their great-great-great-grandmother didn't drown like the rest of the passengers. No, Fidelia swam to shore, fell in love, and founded Lyric, Maine, the town Violet and Sam returned to every summer. But wrecks seem to run in the family: Tall, funny, musical Violet can't stop partying with the wrong people. And, one beautiful summer day, brilliant, sensitive Sam attempts to take his own life. Shipped back to Lyric while Sam is in treatment, Violet is haunted by her family's missing piece—the lost shipwreck she and Sam dreamed of discovering when they were children. Desperate to make amends, Violet embarks on a wildly ambitious mission: locate the Lyric, lain hidden in a watery grave for over a century. She finds a fellow wreck hunter in Liv Stone, an amateur local historian whose sparkling intelligence and guarded gray eyes make Violet ache in an exhilarating new way. Whether or not they find the Lyric, the journey Violet takes—and the bridges she builds along the way—may be the start of something like survival. Epic, funny, and sweepingly romantic, *The Last True Poets of the Sea* is an astonishing debut about the strength it takes to swim up from a wreck.

**Sea Sick** Alanna Mitchell,2009 All life — whether on land or in the sea — depends on the oceans for two things: • Oxygen. Most of Earth's oxygen is produced by phytoplankton in the sea. These humble, one-celled organisms, rather than the spectacular rain forests, are the true lungs of the planet. • Climate control. Our climate is regulated by the ocean's currents, winds, and water-cycle activity. *Seasick* is the first book to examine the current state of the world's oceans — the great unexamined ecological crisis of the planet — and the fact that we are altering everything about them; temperature, salinity, acidity, ice cover, volume, circulation, and, of course, the life within them. Alanna Mitchell joins the crews of leading scientists in nine of the global ocean's hotspots to see firsthand what is really happening around the world. Whether it's the impact of coral reef bleaching, the puzzle of the oxygen-less dead zones such as the one in the Gulf of Mexico, or the shocking implications of the changing Ph balance of the sea, Mitchell explains the science behind the story to create an engaging, accessible yet authoritative account.

her best adviser. She would make mistakes along the way. Follow young Alessandra as she keeps her resilience through many different vessels within her life. Her paranormal experiences would shape how things would turn out for her later on. Some of the events in this story are based on true situations that did happen. I wrote this book to help others who’ve been in similar situations and literally have no one to talk to. It is a rough world when you feel that there is no hope and you feel all alone, and are all alone. People who’ve overcome grand obstacles and are still here today to open up to others to tell their story are to be congratulated. I am reaching out to others because even if I myself remain being rejected, at least I made an attempt to change the way things were for me.

**Mirror Opposites** J L Daniels,2014-12-15 The idea for this book came to me after a brief conversation I had with a lawyer friend who liked the spin I placed on a newspaper article we both had read involving a notable fugitive from justice. You know he said, regarding my thought, that would make for a very interesting book! You should write it! I had been urged to write about my life by my wife Pat and my sisters Leah and Diane who find my past vocations and life experiences fascinating. Also incorporated in their thinking was the idea that although I had a yet to be certified gift for writing I did possess a creative though possibly warped mind; a mind that might produce something that would make for interesting reading. That said, I decided to take my sisters' along with my Lawyer friend's and my wife's advice and write. About my life? About the spin I had put on the newspaper article? Well, I decided to incorporate both in a loose fictitious way. Yes, many elements of the book are real and some events and actions that happened in the book took place. But it is a seven years in the writing work of FICTION that I hope the reader will find entertaining and enjoy.
