Left for Dead Howard Jencks, 2012-04-05 While investigating the murder of a suspected serial killer in the Lake Tahoe basin, Detective Michael Garrett is lead back to the small desert border town he once called home, where he uncovers a violent drug cartel that has begun expansion into the United States, and discovers the frightening reality that he has now placed not only himself, but his family and others in harms way. Driven by tourism, the last thing the city of Stateline, Nevada wanted to do was announce the presence of a serial killer. Driven by the laws of nature, the last thing Rosa Jimenez wanted was to become his next victim. Called to assist with a gruesome fi nding, Detective Garrett fi nds himself entrenched in an investigation he cant walk away from. Recognizing Rosa from his past, he was resolute that justice be served. As the investigation leads Garrett south, he seeks the assistance of an old friend and current Vice-Detective with the LAPD, David Ross. When Ross is unable to open doors in the Los Angeles area, Garrett realizes his next stop is his hometown on the Mexican border where he stumbles on a link to Los Zetas, a Drug Cartel that has formed an alliance with the Mexican Mafi a. Used to operating with impunity in Mexico, the cartel targets Garrett and his family as his investigation begins to threaten their business. In a daring attempt to make things right, the detectives cross the border to confront the man directing the cartel henchmen.

Heavy Weather Sailing Kaines Adlard Coles, Peter Bruce, 1999 Since this book was written over 30 years ago by the great British sailor K. Adlard Coles, it has become the standard work on seamanship under gale conditions. More than 100,000 English-language

copies have been printed, and there are editions in French, German, Dutch, Italian, Swedish, and Spanish. The thirtieth-anniversary edition of this classic includes sections on parachute sea anchors and drogues, crew fitness, and management advice, and new material on meteorology and on seasick remedies. Ample advice from great sailors such as Oiln Stephens, Robin Knox-Johnston, and Val Haigh is augmented by new material by Dag Pike and Mike Golding. Also new in this edition is a section on multihulls in heavy weather. Part 1 provides expert advice for crews of any vessel that ventures out of sight of land, whether for racing or cruising. It gives a clear message of seamanlike design features, preparations, and tactics that should be considered against the time when it comes on to blow. Part 2 offers hair-raising accounts of sail and power yachts overtaken by heavy weather. New in this edition are accounts of the 1998 Sydney - Hobart disaster, the 1994 Queen's Birthday storm off New Zealand, as well as other storm stories from the world's oceans. No one who goes to sea in his or her own craft can afford to ignore the advice in Adlard Coles' Heavy Weather Sailing. Dramatic black-and-white photos of storm seas combine with 60 new color shots throughout the book.

Storm Tactics Handbook Larry Pardey, Lin Pardey, 2008-10-02

Since writing the previous edition of *Storm Tactics Handbook*, Lin and Larry have voyaged an additional 55,000 miles. This has taken them as far north as Norway, twice across the Atlantic, south to Argentina and into the Pacific, around Cape Horn contrary to the prevailing winds then on a North Pacific circuit. With insights gained from these recent voyages, they have fully revised and expanded this text by more than 40% including seven

completely new chapters – among them;

Lessons from Cape Horn,

An interview on storm survival and heaving to with the late Sir Peter Blake,

Heaving-to using a Gale Rider on 55 foot Morgan's Cloud,

Adding Rudder Protection Stops.

Discussions on avoiding chafe, building and using storm staysails, choosing storm gear, when to deploy para-anchors, tactics for avoiding the worst areas of cyclonic storms and many more have been expanded to answer questions posed by readers and seminar attendees.

Adlard Coles' Heavy Weather Sailing, Sixth Edition Peter Bruce, 2008-06-09 The seamanship classic you should have on-board when sailing in rough weather Adlard Coles' Heavy Weather Sailing provides you with expert advice for when you venture out of sight of land, whether for racing or cruising. It gives a clear message of seamanlike design features, preparations, and tactics that you should consider against the time when it comes on to blow. It includes new how-to chapters on storm sails, taking shelter, and managing multihulls in storms, plus thrilling new accounts of actual storm encounters.

Adlard Coles' Heavy Weather Sailing. Peter Bruce Peter Bruce, 2014-06-04 Heavy Weather Sailing has long reigned as the ultimate international authority on surviving storms at sea aboard sailing and motor vessels. The book brings together a wealth of expert advice from many of the great sailors of the present, including fresh accounts of yachts overtaken by extreme weather, from Ewan Southby Tailyour, Alex Whitworth, Peter Cook, and Larry and Lin Pardey. Techniques for coping with heavy seas are explored, and new chapters have been added, giving advice on the use of storm sails, taking shelter in heavy weather, handling multihulls in storms and one on handling RIBs in high seas. Seasickness remedies are proposed, and a detailed analysis is given of the meteorological conditions leading up to a storm. This is the definitive book for crews of any size contemplating voyages out of sight of land anywhere in the world, whether racing or cruising. It gives a clear message regarding the preparations required, and the tactics to consider when it comes on to blow. Multihull Seamanship Gavin Le Sueur, 2018-03-20 This is an A-Z of seamanship skills for multihull sailors. There are many textbooks on the market which detail general seamanship principles. This is not one of them. Multihull Seamanship is about sea-going catamarans and trimarans and the skills needed to understand and enjoy them to their utmost. Both racing and cruising yachts are catered for, as are trailer-able multihulls. Seamanship is not a black and white skill. It is an evolution of knowledge; a building of information through experiment, thought and experience. There is no definitive word on an evolving skill.

Multihull Seamanship started as Dr Gavin Le Sueur's personal index of 'how-to's. It has grown through experience and others sharing their knowledge. It should be on the book shelf of every catamaran and trimaran. This book is for people who are already multihull sailors, or for those who are contemplating multihull sailing. It has served this community for over 20 years and this second edition is fully updated. It is illustrated with delightful line drawings by Nigel Allison.

A Sail for All Seasons Ian Nicolson, 1998 Ian Nicolson, a professional boat designer and sail maker with over 30 years of experience, has created a book that is guaranteed to improve the ability and understanding of all sailors. He has compiled over 150 practical tips with easy-to-follow instructions that cover all sail types and situations. Mainsails, genoas, working jibs and stay sails, spinnakers, storm jibs, and trisails are all discussed in depth.

Things I Wish I'd Known Before I Started Sailing, Expanded and Updated John Vigor, 2020-06-01 Aimed at sailboat owners of all kinds, this reference book contains 200 entries packed with solid practical advice and valuable tips. Each entry is categorized alphabetically and prefaced by an arresting statement, such as People always lie about how fast their boats are. The reference format offers readers the opportunity to open the book at any page and browse endlessly. Cartoons by SAIL Magazine cartoonist Tom Payne enliven the text. A comprehensive appendix covers some 50 technical topics. Includes a Foreword by Don Casey. ...it is always interesting and very readable. —Sailing Filled with practical advice, this book is a winner. — The Ensign Vigor, who's written for several boating magazines, has brought his experience and sense of humor to bear on the less than ideal experiences of sailing—and he's even alphabetized them...It's fun to page

Voyage of the Tradewind Harald M. Hamran, 2015-05-21 Harald says, Our chances are slim, but no matter. It's great to take chances when all things are against one. These words were written in 1933 by Harald Hamran, who with his brother Hans was fighting in a deadly storm in the Bay of Biscay on their way from Norway to America in a 25-foot sailing vessel. Never before had anyone sought to cross the Atlantic in a boat that small. As navigational aids, the brothers had only a compass, charts, and the North Star. In *Voyage of the TradeWind* Harald Hamran tells the story of the voyage in his own words, handwritten daily in English as his logbook and diary of the voyage. The good...How many tied-up slaves, rich and poor, would not envy us our live now? And the bad...It hurts...especially when admiring the silvery moon, and thinking of a dream girl ashore, to be rudely awakened by a flying fish in the eye. When near Buffalo, New York, they listened to conversations among the groups on the bridges they passed: 1. Across in that thing? Well, I'll be damned. 2. You sure must have courage. 3. You must have pluck. We wish you all kinds of luck. 4. Is that the boat that came from Norway? 5. I wish I was a boy (man)-from a group of women. The sea life, the people-especially the women, and the storms that they encountered on this journey are amazing. *Voyage of the TradeWind* makes you feel as

though you are the third passenger on the sailboat. The Hamran brothers continued on to Chicago, Illinois, to attend the 1933 World's Fair. Norway to America: 8,302 Miles in a 25-foot sailboat. Come along and join the journey with the Hamran brothers. The sailboat resides at Vesterheim The Norwegian-American Museum in Decorah, Iowa.

Overboard! Michael J. Tougias, 2010-03-16 From masterful storyteller Michael J. Tougias comes a new, heart-stopping true-life tale of maritime disaster, his most thrilling and amazing story yet. In May 2005, Tom Tighe, captain of a forty-five-foot-long sailboat named the Almeisan, and his first mate, Loch Reidy, welcomed three new crewmembers for a five-day voyage from Connecticut across the blue waters of the Gulf Stream to sun-drenched Bermuda. The new crew included forty-six-year-old Kathy Gilchrist, seventy-year-old Ron Burd, and thirty-four-year-old Chris Ferrer. Although Tighe had made the trip forty-eight times, with Reidy accompanying him on twenty of those voyages, the rest of the crew had joined to learn more about offshore sailing. Four days into the voyage, an enormous storm struck, sweeping two of the crew into the towering sea. The remaining crewmembers managed to stay aboard the vessel as it was slowly torn apart by the rampaging ocean. *Overboard!* follows the simultaneous desperate struggles of both those still on the boat and those fighting for their lives in the sea. The Coast Guard, alerted to the Almeisan's distress, rushed to the storm-tossed scene. Their ensuing search and rescue mission proved so spectacularly difficult and dangerous that it was later selected—from among thousands of incidents—as the Guard's search and rescue case of the year. Highly trained helicopter

pilots and rescue swimmers alike found themselves in almost as much trouble as those trapped by the ferocious ocean. By turns tragic, thrilling, and deeply inspiring, *Overboard!* is a riveting, fast-paced story of death and survival at sea—amazing, unforgettable, and all true.

Safety Preparations for Cruising Jeremy R. Hood, 1997 Most sailors go to sea without prior knowledge of the cruising lifestyle and its demands. Jeremy Hood utilizes his years of personal experience to teach safety measures and prudent seamanship to would-be cruisers so they can set out on a vessel designed or altered with their well-being in mind, aware of potential risks, familiar with possible solutions, and possessing increased self-reliance to help minimize or resolve problems. *Safety Preparations for Cruising* begins with a discussion of general preparations and proceeds to comprehensively cover safety material related to every facet of cruising. Topics include the structural integrity of the vessel and its potential for breakdowns, basic skills, dangerous situations and more. Each chapter begins with a real-life experience introducing the topic covered and concludes with a valuable checklist summarizing the discussion and measuring strengths and weaknesses in ourselves and our vessels. This primer on safety is essential for anyone fitting out or preparing for offshore cruising.

From the Deck of Your Own Yacht Mike Jakeways, 2009-03 Flotilla sailing enables thousands of people every year to charter a yacht and enjoy a holiday in a sunny foreign location: a group of boats sails together under the guidance of a lead crew. In 1974 the first holiday flotilla of eleven yachts set off from Aegina in the Saronic Gulf of Greece and no-one involved could have had any idea that they were at the beginning of something that would

grow so big. It is now possible to go flotilla sailing in every continent of the world. The author traces how flotillas originated, how new cruising areas were opened up and new companies formed. He worked closely with the pioneers of this form of tourism who willingly contributed to the research into what they called the time of our lives: managers in one or other of the companies, skippers or engineers in charge of the boats, and clients. The second part of the book looks in detail at changes in some villages and harbours of the Ionian Sea, an area where much of the development has occurred through the influence of the boats rather than land-based tourism. It draws on conversations with taverna owners who remember when two visiting yachts was big business. Every page has coloured reproductions from the original brochures and cruising guides, and in the Ionian section modern photos are set alongside equivalent views before the yachts started coming in numbers. The book may be an introduction to flotillas, an insight into the background of the companies which now offer charters of this sort, or just a memento of a wonderful holiday.
