Set Design in TV and Film Ruth Bjorklund, 2018-12-15 A passion for interior decoration might lead someone into the dynamic world of television and film set design. Using color, style, and technology, set designers create a diverse array of environments that portray characters and tell a story. However, what does a set designer do before, during, and after a production? This book outlines what skills students might need to be a set designer, successes and setbacks related to the job, and the responsibilities involved in this exciting and creative profession, while also explaining how skills developed in amateur set design experiences might lead to other careers.

Transforming Space Over Time Beowulf Boritt, 2022-08-15 Transforming Space over Time tells the stories of six diverse productions: five on Broadway and one Off Broadway. Tony Award-winning set designer Beowulf Boritt begins with the moment he was offered each job and takes readers through the conceptual development of a set, the challenges of its physical creation, and the intense process of readying it for the stage. Theater is at heart a collaborative art form, and Boritt shares revealing details of his work with the many professionals—directors, designers, technicians, producers, stage managers, and actors—who contribute their talent and ideas to each show. Included here are extensive conversations with theater legends James Lapine, Kenny Leon, Hal Prince, Susan Stroman, Jerry Zaks, and Stephen Sondheim, explaining how their different approaches to theater help to shape the vision for a set and best practices for creative collaboration. Boritt also offers valuable insights into the sometimes frustrating but unavoidable realities of the “biz” part of showbiz—budgets, promotion, reviews, and awards. Full of indispensable advice for aspiring and seasoned professionals, and with plenty of entertaining and enlightening anecdotes to engage passionate theatergoers, Transforming Space over Time peels back the curtain and illuminates the artistry and craft of professional theatrical production—and particularly the all-important collaboration of designers and directors.

Production Design for Screen Jane Barnwell, 2024-03-21 Packed with colour film stills, exclusive pre-production artwork and behind-the-scenes production images, this landmark book celebrates the production designer's contribution to visual storytelling on screen. It illuminates the visual concepts behind familiar screen spaces and unpicks how and why they are so effective in conveying character and story. Seven case studies, developed from exclusive interviews with world-renowned designers, reveal the concepts behind some of the most engaging imagery on screen and establish a dialogue around the shared language of visual storytelling. Jane Barnwell offers a new methodology for evaluating the designer's work on screen through five categories of analysis: space, interiors and exteriors, light, colour and set decorating. All of which combine to create the visual concept evident in the final screen image and together provide a model for the analysis of production design. Practical exercises and examples of real world projects walk you through the design process from breaking down the script and developing initial ideas to identifying a coherent conceptual vision. If you are a filmmaker, *Production Design for Screen* will inspire and guide you in your own work.

Theatrical Design Kevin Lee Allen, 2016-09-13 A theatrical designer must address two questions when designing a production: What is the play about and what is the play like? To find the metaphor within a play is to unlock inspired and unique design concepts. *Theatrical Design: An Introduction* is about how to find the design idea for a production and what to do with that idea once identified. This book emphasizes script analysis and interpretation specifically for designers: how to release meaning and design inspiration from lines and characterization in a script. It then explains the artistic elements and principles of design—the skills necessary to create the design visualized. Concepts are illustrated with examples from theatre, film, art, architecture, and fashion that explore professional and historic use of conceptualization and metaphor. *Theatrical Design: An Introduction* imparts the tools designers need to innovate off the page.

Drawing Ideas Mark Baskinger, William Bardel, 2013-11-19 A primer for design professionals across all disciplines that helps them create compelling and original concept designs by hand--as opposed to on the computer--in order to foster collaboration and win clients. In today's design world, technology for expressing ideas is pervasive; CAD models and renderings created with computer software provide an easy option for creating highly rendered pieces. However, the accessibility of this technology means that fewer designers know how to draw by hand, express their ideas spontaneously, and brainstorm effectively. In a unique board binding that mimics a sketchbook, Drawing Ideas provides a complete foundation in the techniques and methods for effectively communicating to an audience through clear and persuasive drawings.

Designs on Film Cathy Whitlock, The Art Directors Guild, 2013-02-05 Who can forget the over-the-top, white-on-white, high-gloss interiors through which Fred Astaire danced in Top Hat? The modernist high-rise architecture, inspired by the work of Frank Lloyd Wright, in the adaptation of Ayn Rand's The Fountainhead? The lavish, opulent drawing rooms of Martin Scorsese's The Age of Innocence? Through the use of film design--called both art direction and production design in the film industry--movies can transport us to new worlds of luxury, highlight the ornament of the everyday, offer a vision of the future, or evoke the realities of a distant era. In Designs on Film, journalist and interior designer Cathy Whitlock illuminates the often undercelebrated role of the production designer in the creation of the most memorable moments in film history. Through a lush collection of rare archival photographs, Whitlock narrates the evolving story of art direction over the course of a century--from the massive Roman architecture of Ben-Hur to the infamous Dakota apartment in Rosemary's Baby to the digital CGI wonders of Avatar's Pandora. Drawing on insights from the most prominent Hollywood production designers and the historical knowledge of the venerable Art Directors Guild, Whitlock delves into the detailed process of how sets are imagined, drawn, built, and decorated. Designs on Film is the must-have look book for film lovers, movie buffs, and anyone looking to draw interior design inspiration from the constructions and confections of Hollywood. Whitlock lifts the curtain on movie magic and celebrates the many ways in which art direction and set design allow us to lose ourselves in the diverse worlds showcased on the big screen.

MGM Style Howard Gutner, 2019-09-17 *MGM Style* is an overview of the career and achievements of Hollywood's most famous art director. Cedric Gibbons was the supervisor in charge of the art department at Metro-Goldwyn-Mayer film studios from its inception in 1924 until Gibbons chose to retire in 1956. Lavishly illustrated with over 175 pristine duotone photographs, the vast majority of which have never before been published, this is the first volume to trace Gibbons' trendsetting career. At its height in the late 1930s and early 1940s, Gibbons was regularly acknowledged by his peers as having shaped the craft of art direction in American film; his work was recognized as representing the finest in motion picture sets and settings. Gibbons and his associates constructed the villages, towns, streets, squares and edifices that later appeared in hundreds of films, and whose mixed architecture stood in for army camps and the wild west, Dutch New York and Dickensian London, ancient China and modern Japan. Inspired by the work of Le Corbusier and the Bauhaus masters, as well as the 1925 Exposition Internationale des Arts Décoratifs et Industriels Modernes in Paris and Frank Lloyd Wright's experiments with open

planning, Gibbons championed the notion that movie decor should move beyond the commercial framework of the popular cinema

Within these pages, we witness an expansion of traditional theatrical set design, evolving fluidly to include such work as performance art, installation, community events, and exhibitions, to name a few. The design and the designer have a story to tell that goes beyond the immediate collaboration. Readers get an intimate perspective providing insight into a somewhat mysterious world that has been under-valued and under-evaluated. The conversations include designers who are commercially successful, artistically successful, and those who have existed on the fringes of the theatre world whose work is not necessarily definable, and therefore not as visible. These thirty designers provide the next generation a view into a variety of career paths while also validating and encouraging an appreciation of their diverse artistic accomplishments.
