Sorting Out the Mixed Economy Amy C. Offner,2021-06-08 The untold story of how welfare and development programs in the United States and Latin America produced the instruments of their own destruction In the years after 1945, a flood of U.S. advisors swept into Latin America with dreams of building a new economic order and lifting the Third World out of poverty. These businessmen, economists, community workers, and architects went south with the gospel of the New Deal on their lips, but Latin American realities soon revealed unexpected possibilities within the New Deal itself. In Colombia, Latin Americans and U.S. advisors ended up decentralizing the state, privatizing public functions, and launching austere social welfare programs. By the 1960s, they had remade the country's housing projects, river valleys, and universities. They had also generated new lessons for the United States itself. When the Johnson administration launched the War on Poverty, U.S. social movements, business associations, and government agencies all promised to repatriate the lessons of development, and they did so by multiplying the uses of austerity and for-profit contracting within their own welfare state. A decade later, ascendant right-wing movements seeking to dismantle the midcentury state did not need to reach for entirely new ideas: they redeployed policies already at hand. In this groundbreaking book, Amy Offner brings readers to Colombia and back, showing the entanglement of American societies and the contradictory promises of midcentury statebuilding. The untold story of how the road from the New Deal to the Great Society ran through Latin America, Sorting Out the Mixed Economy also offers a surprising new account of the origins of neoliberalism.

Strategic Excellence in the Architecture, Engineering, and Construction Industries Gerhard Plenert,Joshua

Plenert,2018-03-15 Strategic Excellence in the Architecture, Engineering, and Construction Industries is a process of applied strategic thinking designed to develop a strategy empowered with the agility to adapt to changing circumstances and to drive a high performing culture of ideal behaviors. It is infused with the insight and the thought leadership of the Shingo Model and the scientific thinking of Lean Six Sigma. The book goes beyond the classic approach to strategic planning by driving effective execution of the strategy through the embedment of collective ownership and organization-wide alignment into the entire process. Significant advances in strategic planning and management have been developed over decades of learning and practice. Many of those advances, however, have been developed in the manufacturing industry and have not been translated into terms easily applicable to the A/E/C (Architectural / Engineering / Construction) industry. This book incorporates current best practices from cutting edge organizations around the globe and presents those in a way that they can easily be applied to A/E/C organizations through an efficient and effective process.

Shadow-Box Antonia Logue,1999 Antonia Logue's riveting first novel weaves together the lives of three extraordinary characters from the early half of the twentieth century: Jack Johnson, who became the first black Heavyweight Champion of the World; Arthur Cravan, semi-professional boxer, art critic, and nephew of Oscar Wilde; and the beautiful Modernist poet Mina Loy, Cravan's wife and the third figure in this charismatic triangle. What unfolds is a compulsively readable tale of ambition and betrayal, hatred and injustice, vanity and triumph, ranging across the United States and Europe - from the salons of Paris and a bull-fight arena in Spain to elegant Manhattan and Sing-Sing Prison - during the heady period between the two World Wars. Daring, forceful, passionate, and sharply observed, Shadow-Box is a brilliant melding of history and imagination.

PopUpPurge™ Release Midlife Clutter & Reclaim Inner Clarity Mary Vraa,2020-11-19 When you reach the midlife milestone, the kids are grown and on their own. Now you can refocus on where you want to be ... but where is that? Not quite sure? Uncover your new direction by harnessing the power of physical decluttering. When you accept that clutter is not just in your closet, you'll realize that it's really the emotions wrapped around your stuff that has you stuck! The PopUpPurge™ is an essential guide for women over forty to discover a fabulous midlife chapter! After tending to the needs of children, spouses, and employers, now is the time to focus on ourselves. It's the perfect pause to identify what we no longer need, use, or want. Then retain only what matters. And not just in our homes, but in our hearts, as well! Clutter is anything that comes between where you are and where you want to be. And when you accept that clutter is not just in your closet, you'll realize that it's really the emotions themselves wrapped around your stuff that has you stuck. The actual decluttering technique is fairly basic. Don't expect a magic number of how much to keep or a specific system for how to store things. Instead, this book delivers a uniquely powerful approach devoted to releasing the outdated mindset holding you in place. As you sort through your Past to streamline your Present, you will shift into your Future with confidence and clarity! Decluttering the home is the author's metaphor for figuring out what has us stalled on the sidelines. Written with compassion, wisdom, and light humor, this gem of a book is sweetly sprinkled with images of diverse women and insightful quotes for living lighter with newfound purpose!
