Like *Home Louisa Onomé*, 2021-02-23 Fans of Netflix's *On My Block* and readers of Elizabeth Acevedo and Angie Thomas will love this debut novel about a girl whose life is turned upside down after one local act of vandalism throws both her relationships and neighborhood into turmoil. Chineló, or Nelo as her best friend Kate calls her, is all about her neighborhood Ginger East. She loves its chill vibe, ride-or-die sense of community, and the memories she has growing up there with her friends. Ginger East isn't what it used to be though. After a deadly incident at the local arcade, most of her friends' families moved away. Kate, whose family owns the local corner store, is still there and as long as that stays constant, Nelo's good. When Kate's parent's store is vandalized and the vandal still at large, Nelo is shaken to her core. And then the police and the media get involved and more of the outside world descends upon Ginger East with promises to fix the neighborhood. Suddenly, Nelo finds herself in the middle of a drama unfolding on a national scale. Worse yet, Kate is acting strange. She's pushing Nelo away at the exact moment they need each other most. Now Nelo's entire world is morphing into something she hates and she must figure out how to get things back on track or risk

losing everything--and everyone--she loves.

Combining Aesthetic and Psychological Approaches to TV Series Addiction Sébastien Lefait, Anne-Marie Paquet-Deyris, 2018-07-26 This book establishes, and then analyses, the interrelation between series and dependence by focusing on two aspects of their connection: the overconsumption of TV series, and the production devices that lead to it. Due to its two-sided nature, the volume brings together specialists from different backgrounds. On the one hand, it involves people working with addiction, such as psychiatrists, psychologists, and social workers, whose analytical tools and statistics

are extremely useful in assessing the prevalence of TV series addiction, as well as its consequences, in order to make sense of its mechanics. For similar reasons, the authors also include professionals working with children and teenagers, since youths under 18 are largely affected by addictive tendencies. On the other hand, other contributions here are authored by TV series specialists, producers and scriptwriters, as well as academics in the fields of film and TV series studies, cultural studies, and narratology. Their specific perspectives on the topic help better understand what it is about the construction or reception of TV series that aims to create, maintain, amplify, or, on the contrary, curb their ingrained addictive effects.
