

Ships

United States. Navy Dept

Titanic and Other Ships Charles Herbert

LIGHTOLLER, 2010-07-03 Lightoller remarkably swam away from the sinking Titanic and avoided being sucked under. This is just one of the incredible escapes described in this book.

The Old Merchant Marine Ralph Delahaye

Paine, 1919

Cruise Ships The Small Scale Fleet Peter C

Smith, 2014-03-31 Peter C. Smith presents us here with the second release in his visually splendid Cruise Ships series. Whilst his first book concerned itself with the large-scale ships currently cruising through our seas (those weighing 40,000 GT and more) this volume focusses on the other end of the market; the ships that weigh in at less than 40,000 GT, but which are often much more stylish and aesthetically pleasing than their larger-scale counterparts. The elegant interiors and luxurious features on display in today's vast fleet of cruise liners remain unrecorded in all but holiday brochures. This book carries on in the tradition of Peter's last release, giving a complete overview of the best of these ships, the cream of the crop, so to speak.??Each colour profile includes external and interior views of the featured ship. Details of the design, building and service history of each vessel are provided with vital statistics of the ship and its facilities.??This is a book of reference for maritime enthusiasts, would-be holiday cruisers and those who have been passengers. It serves as an impressive visual tribute to the best of the smaller scale fleet currently cruising globally.??As seen in the Bedford Times & Citizen.

Ships of the World Lincoln P. Paine, James

Terry, Hal Fessenden, 1997

The Old Merchant Marine Ralph Delahaye

Paine, 1919

Ships and Sailors William Horace Clark, 1938

Ships of the American Revolutionary Navy Mark Lardas, 2012-01-20 Mark Lardas explores the origins of American warships, primarily light and medium frigates, built for the Continental Navy during the years 1776-1783. This was the first navy of the United States and much of the fleet was comprised of ships that had been modified from existing vessels, converted into warships to provide a crucial service during the American Revolutionary War. Despite having no real funding, this unique fleet had a surprising amount of success against the might of the Royal Navy, and this title discusses the strengths and weaknesses of each design, and the differences between European and American warships of the time. With a close look at how these ships performed in key battles, as well as the exploits of John Paul Jones - the founding father of the United States Navy - this is a complete, illustrated overview of the ships' service and development until France's entry into the war and the subsequent decline in importance of the Continental Navy.

Ships of the Seven Seas Hawthorne Daniel, 1925

The Romance of the Ship Edward Keble Chatterton, 1921

Ships' Data, U. S. Naval Vessels, 1911- United States. Navy Department, 1912

The Marvel Book of American Ships Orton Porter Jackson, Frank Edgar Evans, 1917

Sailing into the Past Jenny Bennett, 2009-06-18
This is a book everyone should read. It is the autobiography of an ace, and no common ace either. The boy had all the noble tastes and qualities, love of beauty, soaring imagination, a brilliant endowment of good looks . . . this prince of pilots . . . had a charmed life in every sense of the word' - George Bernard Shaw Sent to France with the Royal Flying Corps at just seventeen, and later a member of the famous 56 Squadron, Cecil

Lewis was an illustrious and passionate fighter pilot of the First World War, described by Bernard Shaw in 1935 as 'a thinker, a master of words, and a bit of a poet'. In this vivid and spirited account the author evocatively sets his love of the skies and flying against his bitter experience of the horrors of war, as we follow his progress from France and the battlefields of the Somme, to his pioneering defence of London against deadly night time raids.

The Book of Old Ships Henry B. Culver, 1992 Of all the ships human beings have constructed to navigate the waters of the world – from a hollowed-out log sharpened at both ends to modern ocean liners weighing thousands of tons – those powered by the wind are among the most interesting and beautiful. In this classic review, noted maritime artist Gordon Grant has created 80 magnificent line illustrations of some of history's most important sailing ships, beginning with a graceful Egyptian galley (c. 1600 B.C.) and ending with a splendid five-masted clipper ship of 1921. Also depicted are a Roman trireme, a Viking longship, a sixteenth-century caravel, an East Indiaman of 1750, an early nineteenth-century brigantine, a New Bedford whaling bark, and dozens of lesser-known vessels, among them the galleass, carrack, buss, and flute. Henry B. Culver, well-known authority on naval history, has provided a detailed, meticulously researched text for each vessel, describing the materials and details of construction, how the ship's design matched its function, the period in which the vessel flourished, romance and lore surrounding the craft, and more. Naval historians and model shipbuilders will value this work as an excellent sourcebook and reference with much information on the evolution of sailing vessels, the origins of shipping, customs of the sea and other pertinent matters; sailing enthusiasts will find it a wonderful browsing book, offering an informative, handsomely illustrated look back at 3,000 years of sailing history.

Dictionary of American Naval Fighting Ships
United States. Naval History Division, 1959 An
alphabetical arrangement of the ships of the
continental and United States Navies, with a
historical sketch of each one.
