Ajax in Action Dave Crane, Eric Pascarello, Darren James, 2006 Provides information on using Ajax in building Web applications.

Ajax In Action Dave Crane And Eric Pascarello With Darren James, 2005-12-15 Ajax in Action helps you implement that thinking--it explains how to distribute the application between the client and the server (hint: use a nested MVC design) while retaining the integrity of the system. You will learn how to ensure your app is flexible and maintainable, and how good, structured design can help avoid problems like browser incompatibilities. Along the way it helps you unlearn many old coding habits. Above all, it opens your mind to the many advantages gained by placing much of the processing in the browser. If you are a web developer who has prior experience with web technologies, this book is for you.
