Everyday Arias Paul Atkinson,2006-02-27 Paul Atkinson explores the remarkable world of opera through his fieldwork with the internationally known Welsh National Opera company. He demonstrates how cultural phenomena are produced and enacted by taking us on stage and behind the scenes into the collective social action that goes into the realization of an opera. Atkinson's work will appeal to anthropologists and sociologists who study the performance arts, as well as to those engaged in theatre arts, opera, and music.

Samuel Barber Barbara B. Heyman,2019-12-27 Samuel Barber (1910-1981) is one of the most admired and honored American composers of the twentieth century. An unabashed Romantic, largely independent of worldwide trends and the avant-garde, he infused his works with poetic lyricism and gave tonal language and forms new vitality. His rich legacy includes every genre, including the famous Adagio for Strings, Knoxville: Summer of 1915, three concertos, a plethora of songs, and two operas, the Pulitzer prize-winning Vanessa, and Antony and Cleopatra, the commissioned work that opened the new Metropolitan Opera House at

Lincoln Center in 1966. Generously documented by letter, sketches, autograph manuscripts, and interviews with friends, colleagues, and performers with whom he worked, this ASCAP-Award winning book is still unquestionably the most authoritative biography on Barber, covering his entire career and interweaving the events of his life with his compositional process. This second edition benefits from many new discoveries, including a Violin Sonata recovered from an artist's estate, a diary Barber kept his seventeenth year, a trove of letters and manuscripts that were recovered from a suitcase found in a dumpster, documentation that dispels earlier myths about the composition of Barber's Violin Concerto, and research of scholars that was stimulated by Heyman's work. Barber's intimate relations are discussed when they bear on his creativity. A testament to the lasting significance of Romanticism, Samuel Barber stands as a model biography of an important musical figure.

Why We Sing Julia Hollander, 2023-01-31 A memoir celebrating the power of song to lift our mood and restore our sense of connection to other people and the world. Singing makes you feel good. Everyone who sings in a community choir or just in the shower knows this, and relishes the sense of liberation, connection and sheer joy that singing can bring. In this inspiring and thought-provoking memoir, singer and community music teacher Julia Hollander celebrates our impulse to sing, from the beginning to the end of life. Drawing on her personal experience as well as the fascinating recent findings of neurological research, she shows how we are hardwired to sing. She explores how our bodies create song, and how singing helps children acquire language. She shows how singing is an integral part of faith, and how it is embedded in political activism. She shares with us

her experience of running singing groups with people with dementia and disability, and how learning singing can open up a new world for teenagers. More than ever, singing has become important to people of all backgrounds as a way of dealing with the sense of hopelessness and loneliness in our busy, digitally focused lives. Julia describes her book as a singing memoir, and *Why We Sing* is for anyone who loves to sing. 'This book (and singing) is so great for the mind and soul!' - Jonathon Welch AM DUniv, Founding Artistic Director of Choir of Hard Knocks 'A passionate, personal and impeccably researched love letter to singing' - Astrid Jorgensen, Pub Choir 'A wonderful read. To sing is to be happy and it feeds the soul.' - Peter Coleman-Wright AO, Pacific Opera

With Passionate Voice Robert Toft, 2014 'With *Passionate Voice*' gives modern singers of Renaissance music the tools to learn and master the art of 're-creative singing'. Providing a much-needed historically-informed perspective, author Robert Toft discusses the music of composers ranging from Marchetto Cara to John Dowland in the context of late Renaissance rhetoric, modal theory, and performance traditions.

Beyond the Self Matthieu Ricard, Wolf Singer, 2018-11-13 A Buddhist monk and esteemed neuroscientist discuss their converging—and diverging—views on the mind and self, consciousness and the unconscious, free will and perception, and more. Buddhism shares with science the task of examining the mind empirically; it has pursued, for two millennia, direct investigation of the mind through penetrating introspection. Neuroscience, on the other hand, relies on third-person knowledge in the form of scientific observation. In this book, Matthieu Ricard, a Buddhist monk trained as a molecular biologist,

and Wolf Singer, a distinguished neuroscientist—close friends, continuing an ongoing dialogue—offer their perspectives on the mind, the self, consciousness, the unconscious, free will, epistemology, meditation, and neuroplasticity. Ricard and Singer's wide-ranging conversation stages an enlightening and engaging encounter between Buddhism's wealth of experiential findings and neuroscience's abundance of experimental results. They discuss, among many other things, the difference between rumination and meditation (rumination is the scourge of meditation, but psychotherapy depends on it); the distinction between pure awareness and its contents; the Buddhist idea (or lack of one) of the unconscious and neuroscience's precise criteria for conscious and unconscious processes; and the commonalities between cognitive behavioral therapy and meditation. Their views diverge (Ricard asserts that the third-person approach will never encounter consciousness as a primary experience) and converge (Singer points out that the neuroscientific understanding of perception as reconstruction is very like the Buddhist all-discriminating wisdom) but both keep their vision trained on understanding fundamental aspects of human life.

The Musician, 1917

Voices Nick Coleman, 2018-11-13 *Voices* isn't just illuminating and thought-provoking and clever; it is exciting. —Roddy Doyle, author of *The Commitments* A personal exploration of what singing means and how it works, *Voices* is a book about our deepest, most telling relationships with music. Nick Coleman examines the act of singing not as a performance, but as a close, difficult moment of hopeful connection. What does it do to us, emotionally and psychologically, to listen hard and habitually to somebody else's singing? Why is human song so essential to our lives? The book

asks many other questions, too: Why did Jagger and Lennon sing like that (and not like this)? Billie, Janis, Amy: must the voices of anguish always dissolve into spectacle? What makes us turn again and again to a singing human voice? The history of postwar popular music is often told sociologically or in terms of musicological influence and innovation in style. *Voices* offers a different, intimate perspective. In ten discrete but cohering essays, Coleman tackles the arc of that history as an emotional experience with real psychological consequences. He writes about the voices that have affected the ways he feels about and understands the world—from Aretha Franklin to Amy Winehouse, Marvin Gaye to David Bowie. Ultimately, *Voices* is the story of what it is to listen and be moved—what it is to feel emotion.
