Jay B. Holberg

Sirius Jay B. Holberg, 2007-07-05 This book tells two stories. The first and most obvious is why the star known as Sirius has been regarded as an important fixture of the night sky by many civilizations and cultures since the beginnings of history. A second, but related, narrative is the prominent part that Sirius has played in how we came to achieve our current scientific understanding of the nature and fate of the stars. This is the first book to integrate the cultural history of Sirius with modern astrophysics in a way which provides a realistic view of how science progresses over time.

Sirius Jonathan Crown, 2016-10-04 A fox terrier who escapes Nazi Germany with his Jewish owners finds himself at Hitler's side during World War II. Can he help the resistance and reunite with his family?--

The Sirius Mystery Robert Temple, 1999 The most academically credible case for alien visitation. Is the existence of civilisation on earth the result of contact from inhabitants of a planet in the system of the star Sirius prior to 3000BC? There are tribal cultures in present-day Africa whose most sacred and secret traditions are based on this theory. Central to their cosmology is a body of knowledge concerning the system of the star Sirius that is astounding in its accuracy of detail, including specific information only recently accessible to modern science. Robert Temple traces the traditions of the Dogon and three related tribes back 5,000 years to the ancient Mediterranean cultures of Sumer and Egypt. He shows a knowledge dependent on physics and astrophysics, which they claimed was imported to them by visitors from Sirius.

The Story of a Girl from Sirius Azarine, 2018-06-16 I looked out the large, curved windows of the place I called home, for now. Next to me was my friend, who would be known as Ray, on Earth. My space name is Azarine. My Earth name, well, we will have to wait and see. The unique thing about this book is that Azarine reconnects with her Galactic Family. She goes on the updated spaceship she came off. Her story is quite fascinating and will likely resonate with many people, including starseeds.

Sirius Jonathan Crown, 2016-02-11 In Berlin, he was named Levi: a good Jewish dog with a good Jewish name. When his owners fled to America, he became Hercules: star of the silver screen in Hollywood's golden age. Then he caught the eye of Hitler, who called him Hansi: a pure-bred lapdog, privy to all the Führer's secrets. But he was known to the Resistance as Sirius: the insider who could bring peace to a world at war. SIRIUS: the little dog who almost changed history.

Sirius Jonathan Crown, 2016 Berlin, 1938: Sirius, a dashing fox terrier, lives a charmed life with the German Jewish Liliencrons. But, with the rise of Nazism, the Liliencrons decide to leave Berlin for Hollywood. Sirius takes his destiny into his own hands with the kind of melancholic mirth exclusive to his breed. He becomes a celebrated film star and circus performer, friend to Rita Hayworth and Cary Grant. But, when a magic trick goes wrong, Sirius ends up back in war-torn Berlin. Never one to despair, he finds himself in the Führer's headquarters as Adolf Hitler's lap dog - and an informant for the resistance.

Sirius, the Hero Dog Of 9/11 Hank Fellows, 2018-02-20 This is the true story of Sirius, the Port Authority police patrol dog who died at the World Trade Center on September 11, 2001. The Story of the Heavens Robert Stawell Ball,1891

The Story of the Heavens Robert S. Ball,2022-07-20 'The Story of the Heavens' is the title of our book. We have indeed a wondrous story to narrate; and could we tell it adequately it would prove of boundless interest and of exquisite beauty. It leads to the contemplation of grand phenomena in nature and great achievements of human genius. Let us enumerate a few of the questions which will be naturally asked by one who seeks to learn something of those glorious bodies which adorn our skies: What is the Sun—how hot, how big, and how distant? Whence comes its heat? What is the Moon? What are its landscapes like? How does our satellite move? How is it related to the earth? Are the planets globes like that on which we live? How large are they, and how far off? What do we know of the satellites of Jupiter and of the rings of Saturn? How was Uranus discovered? What was the intellectual triumph which brought the planet Neptune to light? Then, as to the other bodies of our system, what are we to say of those mysterious objects, the comets? Can we discover the laws of their seemingly capricious movements? Do we know anything of their nature and of the marvelous tails with which they are often decorated? What can be told about the shooting-stars which so often dash into our atmosphere and perish in a streak of splendor? Such are a few of the questions which occur when we ponder on the mysteries of the heavens.

Sirius Olaf Stapledon,2023-11-14 Sirius is a dog with humanlike intelligence. He is raised by scientist Thomas Trelone in North Wales, near Trawsfynydd. Thomas embarks on a program of using steroids and other chemicals to rapidly develop cognitive power of dogs, resulting in super sheep dogs. Sirius, however, proves to possess a dog intelligence comparable to a normal human being, as he is able to communicate with English words, although it takes some time for the humans to understand his canine pronunciation. He is born at the same time as his creator's human daughter, Plaxy, and the two of them are raised together as brother and sister. When Plaxy leaves for school they drift apart and troubles for Sirius begin. With human intelligence and emotion he declines to lead a life of a regular dog and he tends to develop as a person, but keeps running into obstacles.

John of the Sirius Doris Chadwick,2020-01-16 A story rich in detail, written in a style easy to read, exciting, swift-moving. It combines sound scholarship with vivid understanding of a child's taste and joys. This story brings to life one of the most important voyages of history, the sailing of the First Fleet, under Captain Phillip, to Botany Bay. With John and his sister, Sue, we share the

excitements and hopes of the long sea-way, the sights and sounds of strange ports, the adventures of a little family following Papa, an officer of the Marines, to the then unknown end of the earth. John gets into many a scrape with his dog, Gyp; he goes on exploring expeditions with Captain Phillip; he sees the 'hopping animal' of which he has heard so much, and manages to be in the midst of everything interesting as any boy would. The story is skilfully woven of true facts and incidents which might have happened to a boy lucky enough to sail as John sailed with Captain Arthur Phillip. Doris Chadwick has a sure taste for all the little details that children of today want to know about the children of other times. Miss Chadwick studied all the documents and old manuscripts about the First Fleet until she knew exactly what happened every day of the long voyage. And against this background of fact her characters--John, Sue and all the personalities of the Sirius, from Captain Arthur Phillip to the cook, emerge as living people. -Kylie Tennant

Soul Damage Maximus Wright,2017-03-10 The story follows this wildly attractive yet very mysterious character named Sirius. Sirius is perceived as the typical ladies' man, but has a dark past that is ever present. Sirius is incredibly charismatic and has an almost magical gift with people, but his past prevents him from creating friendships or meaningful relationships. This story addresses some issues that have been too taboo to even mention. Sirius has a very complicated relationship with God and border line hatred for organized religion. As a child, he and his mother were thrown out of the church after it came to light his mother was having an affair with the pastor. The result of this leads to a life filled with drugs, prostitution, molestation, and violence. He is envied by the character Gary and obsessed by the character Cynthia, both are his co-workers. They make it their mission to find out who he really is.

Dogsboddy Diana Wynne Jones,2012-04-12 A funny, heartbreaking, stunning book by the legendary Diana Wynne Jones—with an introduction by Neil Gaiman. The Dog Star, Sirius, is tried - and found guilty - by his heavenly peers for a murder he did not commit. His sentence: to live on the planet Earth until he can carry out a seemingly impossible mission - the recovery of a deadly weapon known as the Zoi. The first lesson Sirius learns in his lowly earthly form is that humans have all the power. The second is that even though his young mistress loves him, she can't protect either of them. The third - and worst - is that someone out there will do anything to keep Sirius from finding the Zoi. Even if it means destroying Earth itself. This funny, heartbreaking, stunning book features an introduction by Neil Gaiman, an avid fan of Diana Wynne Jones.
