My Second-Favorite Country Sivan Zakai, 2022-06-14 Reveals how young American Jewish children come to develop their views about Israel. Israel has long occupied a prominent place in the lives and imaginations of American Jews, serving as both a symbolic touchstone and a source of intercommunal conflict. In *My Second-Favorite Country*, Sivan Zakai offers the first longitudinal study of how American Jewish children come to think and feel about Israel, tracking their evolving conceptions from kindergarten to fifth grade. This work sheds light on the perception of Israel in the minds of Jewish children in the US and provides a rich case study of how children more generally develop ideas and beliefs about self, community, nation, and world. In contrast to popular views of America's youth as naive or uninterested, this book illuminates both the complexity of their thinking and their desire to be included in conversations about important civic and political matters. Zakai draws from compelling empirical data to prove that children spend considerable effort contemplating the very concepts that adults often assume they are not ready to discuss. Indeed, the book argues that over the course of their elementary school education, children develop and express deep interest in complex issues such as the intricacies of identity and belonging, conflicting ways of framing the past, and the demands of civic responsibility. Ultimately, Zakai argues that in order to take children's ideas seriously and better prepare them for a world full of disagreement, a substantive shift in educational practices is necessary.

Radical Islam Emmanuel Sivan, 1990-09-26 In recent years radical fundamentalists have had a formidable intellectual and social impact on Sunni Islam countries such as Egypt, Syria, and Lebanon. This highly acclaimed book by an eminent Arabist focuses on the development of Sunni Muslim fundamentalism, discussing how it rejected Western values, broke with pan-Arabism, and took on an activist political position. This enlarged edition contains a new chapter, *In the Shadow of Khomeini*, which considers the growth and influences of Shi'ite radicalism since the Iranian Revolution, reviews the principal areas of controversy between Sunni and Shi'ite Muslims, and assesses whether rapprochement between the two groups is likely. Review of the earlier edition: Sivan . . . not only introduces Western readers to scores of important but little-known contemporary Islamic thinkers, . . . He also breaks new ground in his analysis of their work and activities.--Shaul Bakhash, *Wilson Quarterly* A gem of a small book. . . . Sivan writes clearly, dispassionately, and with enviable command of his subject. His book makes a large and almost entirely new body of information available.--Daniel Pipes, *The New Leader* Not just scholars but everyone seriously interested in the contemporary Middle East is in Sivan's debt.--G.H. Jansen, *Los Angeles Times* This study by Emmanuel Sivan is exceptional; it is professional, insightful, and

persuasive. . . . A well-informed interpretation of recent events based directly on relevant Arabic writings.--Michael W. Dols, History Thorough, thought-provoking, and very instructive.--William M. Brinner, Middle East Review Emmanuel Sivan is professor of history at Hebrew University and editor of the Jerusalem Quarterly

Galla Placidia Hagith Sivan,2011-09-15 Wedding in Gaul (414) -- Funerals in Barcelona (414-416) -- Making of an empress (417-425) -- Restoration and rehabilitation (425-431) -- Bride, a book, and a pope (437-438) -- Between Rome and Ravenna (438-450).

Ausonius of Bordeaux Hagith Sivan,2003-09-02 In the burgeoning field of late classical antiquity the authors of late Roman Gaul have served as a mine of information regarding the historical, cultural, political, social and religious developments of the western empire, and of Gaul in particular. Ausonius is outstanding among these authors for the extraordinary range of material which his writings illuminate. His family exemplifies the rise of provincial upper-classes in Aquitania through talent, ambition and opportunism. Fusing historical method with archaeological, artistic and literary evidence, Hagith Sivan interprets the political message of Ausonius' work and conveys the material reality of his lifestyle.

A Grammar of the Ugaritic Language Daniel Sivan,2001-07-19 Ugaritic, discovered in 1929, is a North-West Semitic language, documented on clay tablets (about 1250 texts) and dated from the period between the 14th and the 12th centuries B.C.E. The documents are of various types: literary, administrative, lexicological. Numerous Ugaritic tablets contain portions of a poetic cycle pertaining to the Ugaritic pantheon. Another part, the administrative documents shed light on the organization of Ugarit, thus contributing greatly to our understanding of the history and culture of the biblical and North-West Semitic world. This important reference work, a revised and translated edition of the author's Hebrew publication (Beer Sheva, 1993), deals with the phonology, morphology and syntax of Ugaritic. The book contains also an appendix with text selections.

Palestine in Late Antiquity Hagith Sivan,2008-02-14 Hagith Sivan offers an unconventional study of one corner of the Roman Empire in late antiquity, weaving around the theme of conflict strands of distinct histories, and of peoples and places, highlighting Palestine's polyethnicity, and cultural, topographical, architectural, and religious diversity. During the period 300-650 CE the fortunes of the 'east' and the 'west' were intimately linked. Thousands of westerners in the guise of pilgrims, pious monks, soldiers, and civilians flocked to what became a Christian holy land. This is the era that witnessed the transformation of Jerusalem from a sleepy Roman town built on the ruins of spectacular Herodian Jerusalem into an international centre of Christianity and ultimately into a centre of Islamic worship. It was also a period of unparalleled prosperity for the frontier zones, and a time when religious experts were actively engaged in guiding their communities while contesting each other's rights to the Bible and its interpretation.

Between Woman, Man and God Hagith Sivan,2004-06-01 At the heart of the Exodus is a recitation of the Decalogue, a contract between Yahweh and Israel that inscribes Israel into the fabric of human societies while emphasizing its uniqueness through Yahweh. According to the demands of the Decalogue, manhood entails the avoidance of stealing, killing, and coveting, not to mention apostasy

and violation of the Sabbath and other men's property. What, then, would be the essence of womanhood, if different? Is there an exclusion of women from active participation in the Sinaitic theophany and, consequently, from active sharing of responsibility and identity? How ethically normative are the Ten Commandments? And, in terms of the present study, how gender specific are they? This study reclaims the encoded voice of womanhood, or rather the code of women as one crucial key for comprehending the ancient Israelite mind. By selecting female characters' narratives as interpretative clues for the law, this book presents a reading of the Decalogue at three levels: legal, behavioral and representational.

Mikey and Lucky - Travelers in Nature Sivan Sarig, Sviatoslav Diachyk, 2015-02-17 Mikey and Lucky head off for an afternoon walk. The Geometry of Trees Zhou Sivan, 2022-08 I used trees to express desire, and I desired the language of trees. In *The Geometry of Trees*, Zhou Sivan reflects and studies the diffraction of queer desire through tree trunks, bark textures in Fauvist patterns, solitary oaks, and buoyant botanical lakes. Trees are political texts, moreover, simply by their geography, what they signify, the shade they claim, and the literary lives they have earned. Zhou's poems observe how the properties and relations within trees change as they travel through the poet's life. In the background, trees dramatize the architectural displays of empire, calling attention to the insidious presence of colonialism, and displaying in off-color the persistence of imperial hubris.
